

Image Consent Policy

We would like to collect and use yours and your child's personal data for the reasons set out below.

By law we must tell you how we would like to use yours and your child's data and obtain your permission.

If you give us consent and you later change your mind, you can withdraw your consent at any time by contacting us at; info@buryrangers.com

Filming

We like to film training sessions and matches so that we can:

1. review them afterwards for performance and training purposes; and
2. upload them (or parts of them e.g. highlights) onto our website (provided by Pitchero) so other people can watch them.

In such circumstances we will be the data controller. Where we upload the videos to Pitchero, Pitchero will be the data processor.

As part the player registration process you will be asked to give or refuse Image Consent. If consent is granted, images (video or photo) will be used for:

- training and improvement purposes; and
- uploading onto Pitchero
- sharing on third party platforms (e.g. Facebook, Twitter etc.)

When we upload the footage to Pitchero, Pitchero will become a joint data controller.

What is personal and sensitive data?

Personal data is data that can be used to identify you or your child. For adults this may include such data as name, date of birth, address, telephone number etc.

Sensitive data is information related to any of the following: racial or ethnic origin, political opinions, religious beliefs and health.

Where will you store my data?

Where footage is not uploaded onto Pitchero it will be stored on the recording device and any IT system that the club uses. It may be accessed by the member of the club who owns the device that recorded it and members of the club Committee or Team managers/coaching staff the footage may have been shared with.

Where footage is uploaded to Pitchero it will be stored on a cloud used by Pitchero. Where the footage is uploaded onto third party platforms it will be stored by the third party either on a host server or on a cloud.

What is a Data Controller?

At BR, our Communications Officer(s) perform the Data Controller role. A Data Controller is someone who is responsible for your data and who must make sure that your data is processed in a lawful manner. They are responsible for making sure that the information held about you is accurate and that it is kept secure.

What is a joint Data Controller?

This means that both the club and Pitchero are jointly responsible for your data. Where this applies both the club and Pitchero will be responsible for ensuring your data is processed according to the law.

Can I withhold my consent?

Yes we will not record your information unless you provide Image Consent.

We will not share your information with anyone else without your Image Consent, unless required to do so by law.

Can I change my mind?

Yes, if you change your mind about being Image Consent, please email us (info@buryrangers.com) and we will not include you in any further filming or images. However, you acknowledge and accept that we cannot remove or delete you from any existing footage taken and shared during any period when you had granted Image Consent.
