Notes to accompany release of fixtures 23 July 2012, issued by League Secretary, Alan Constable

General

With the unavoidable delay in the release of the Ryman and Evostick fixtures, coupled with the early start to CCL league fixtures, it has been a challenge to produce the fixture list over just five days between Wed 18 and Sun 22 July. Working under such pressure increases the risk of errors although a check has been made today prior to release. If there are any glaring mistakes (as opposed to any matches you don't like!) please let me know so that corrections can be made.

At the start of the season, we still have clubs who do not have their grounds immediately available for various reasons. We also have a number of ground sharing situations throughout the League, which obviously dictates whether the sharing club will be at home or away. The net result is that it is difficult to draw up a completely balanced list in terms of home and away game sequences and as in previous seasons, one or two clubs will find that they have more successive home or away matches than they might expect, either in the opening weeks of the season or at other times. The early season FA competition matches are also a large factor in this.

There can also be a particular problem for ground sharing clubs. For example, a club playing at a Ryman ground may be away on Week 4, because the Ryman club has a home league match. In Week 5 the Ryman club will again be at home if they have come through another round of an FA competition match, so it is preferable to give our club an away match, as any home game would have to be postponed. The Ryman club may then have another home league fixture in Week 6 and maybe at home again in Week 7 in another FA competition match. That could mean that our club will have four successive away matches which is not ideal but equally they would not want two out of four games postponed as could easily happen if they were given home matches without knowing whether or not the ground will be available.

There is a change in the way that fixtures in Division One have been compiled for this season. There is a full fixture list through to the end of February, with the remaining matches shown as TBA. This is largely due to the fact that any postponements for whatever reason at grounds without lights generally have to wait until the end of the season to be re-scheduled, as they cannot be slotted in on a midweek evening. In recent seasons this has been done by leaving April free for re-arranged matches. It has worked reasonably well but inevitably the fixture schedule in the final few weeks in Division One is fragmented. By leaving a slightly higher number of fixtures unscheduled, it is hoped that, by combining these with all the matches that have to be re-arranged, it will be possible to schedule a fuller list with less gaps in the final few weeks of the season. Come February all remaining unscheduled matches will be dated. This experiment will be reviewed for future seasons and any views will be welcomed.

It may become opportune to schedule some of these matches in for an earlier date and also there is no problem, should clubs mutually agree to play any of these matches earlier in the season, subject, of course, to sufficient notice being given (14 days minimum).

There are one or two spare dates reserved towards the end of the season to enable any matches in Guernsey, postponed earlier in the season, to be re-arranged for Saturdays.

County Cups

Hampshire, Middlesex and Surrey released the majority of those cup draws that will affect the League, in good time this season, for which the League is grateful.

Postponed and Re-arranged Matches

With 1st Team Premier Division matches, the same principle will be followed as has been the practice in recent seasons. Unless there are unusual circumstances, any game postponed for whatever reason will be immediately allocated a new date and this will show upon the first available weekly bulletin after the postponement. (i.e. on the Sunday bulletin following a Saturday postponement).

If the two clubs concerned wish to suggest a mutually agreeable date themselves, this will be taken into consideration but you will need to act "fast" (i.e. advise me of any proposed new date before midday on the Sunday following a postponed Saturday game).

In Division One, postponed games will go into a “pool” to be re-arranged whenever there is an opportunity to do so. As with previous seasons, the Division One fixture list should be regarded as a basic framework which will be amended whenever appropriate to ensure as many teams are in action on any given Saturday as possible. This principle will, if necessary, override all other considerations, e.g. two clubs playing each twice in quick succession.

Clubs shown without a match in any particular week must not assume that they will not have one allocated later on, as there can be changes for many reasons. Although every effort will be made to give as much notice as possible, it is only after you have received the weekly bulletin that you can be sure about the following week’s situation.

Once again, any match can be brought forward if the opportunity arises and there is mutual agreement between the clubs concerned. **This includes Bank Holiday matches.** The only proviso is that any such request must be made in sufficient time (at least 14 days) to allow match officials to be organised.

There is a Boxing Day programme but in the Premier Division only. Any Division One clubs wishing to play on Boxing Day should advise me and efforts will be made to pair clubs up. Should we suffer multiple weather postponements in the early part of the season, matches may still be organised in Division One on Boxing Day although as much notice as possible will be given.

For the benefit of our new clubs, the default kick-off time for Bank Holiday matches is 11.30 a.m. but again, this can be changed by mutual agreement.

Matches **cannot** be put back, except by permission of the Fixture Secretary, which will not generally be forthcoming, unless there are very good reasons for doing so. Weddings, holidays etc. are **NOT** considered to be a good reason for re-arranging games.

If a match has to be postponed due to adverse weather, the procedure for doing so is shown in the handbook. The bottom line is that only the Match Referee can postpone a match. Ideally he will conduct his own inspection but if that is not possible, he will postpone the match after speaking with the inspecting official. **CLUBS CANNOT POSTPONE MATCHES.**

The only exception will be if the weather is clearly so poor (snow, ice etc.) that the whole league programme is likely to be off. In those circumstances, the League may step in and allow clubs to postpone their own matches. There are also one or two clubs where the Local Authority may step in and make the decision. This is not welcome in senior football and the clubs concerned are requested to do their best to educate their Council accordingly.

Please take careful note from the Administration Guidelines that will be issued shortly of who has to be contacted in the event of a postponement. Failure to do so can result in multiple fines (i.e. from individual officers). Please particularly ensure that the Results Secretary (Jane Phillips) is advised by leaving a message on the Results Line (number will be in the handbook).

Goal Scorers and Attendances

NEW CLUBS TO TAKE PARTICULAR NOTICE PLEASE

All Premier and Division One clubs playing at home in CCL 1st Team League or League Cup matches are required to advise details of scorers’ names INCLUDING INITIAL or 1ST NAME for **both teams**, plus the time of the goals and the match attendance to the Fixture Secretary before 12.00 noon on the Sunday following a Saturday match. Anytime the following day will do for midweek games. Ideally this should be e-mailed or faxed and a “template” form will be issued with the first weekly bulletin to be issued on 29 July. This is a separate task from the requirement to convey your result immediately after the match by text or phone.

Away team officials can, of course, assist the home team by writing down the details for their own team and passing them over at the end although this does not relieve the obligation of the home club to ascertain these details.

Some clubs provide this information for their FA Cup/Vase /County Cup matches as well and they are welcome to do so. Any information received will usually be printed but it is not mandatory for "outside" competitions.

Just to make it absolutely clear, the emphasis is upon the HOME club to provide the information. If the information is not received by midday on Sunday, fines will follow for failure to attend to League business.

Friday Evening Matches?

Initially there are just two Friday evening games, which have been requested by the clubs concerned. If anyone else wishes to bring a Saturday match forward to the Friday evening, there is no problem, subject as always to mutual agreement and sufficient notice (at least two weeks).

Cup Matches

Only matches in the FA Cup, the FA Vase and your parented Senior Cup competition take precedence over league games. Matches in such competitions as the Aldershot Senior Cup, the Southern Combination Cup, the Russell-Cotes Cup and the Middlesex Charity Cup **DO NOT** have any precedence over our league matches. If you are involved in any of these competitions, I will try to honour any dates you give me but once I have scheduled a league game for any particular date, it will not be postponed in favour of a game in any of the cups mentioned or any other supplementary competition. The moral is, therefore, to advise me without delay of any such dates.

Reserve Fixtures

These will be issued on a monthly basis and the first set of fixtures (for August) will be notified in due course. Reserve matches commence on Saturday 18 August.

Bank Holiday Fixtures

It is difficult to provide a complete programme of local matches on each Bank Holiday date. My apologies in advance if you have drawn the "short straw" on the odd occasion and have to travel some distance on any particular date.

Registrations

Please ensure that you use BLACK ink on registration forms, especially if you are faxing them in initially. Please note the rule that, when faxing or emailing in a registration, **it must be followed by the original to be received by the Registration Secretary within five days.** If this does not happen, the registration will lapse and if the player then plays you will then be charged with the serious offence of fielding an ineligible player, with all the likely consequences.

Also, there is a new rule this season (from the FA) which requires that registrations must be submitted to the League within five days of the player actually signing the form.

Weekly Bulletins

The first weekly bulletin will be issued by email on Sunday 29 July and every Sunday (lunchtime) thereafter through the season. Referee and Assistant Referee appointments will be notified to clubs by means of a separate monthly bulletin. Please remember that our Appointment Secretaries have to wait for appointments at higher levels to be completed before issuing ours, so on occasions, the appointments bulletin may not be issued until the "last minute". Once the season has started, there will also be a midweek bulletin, usually issued on Wednesday mornings, with the previous evening's results and confirmation of any further midweek matches in the week concerned. The bulletins will be sent to all club officials shown in the handbook with a valid email address (apart from any who have specifically asked not to receive them) but I am happy to forward them to other bona-fide personnel within your clubs if notified of their email address.

Our Press Secretary, Neil Morrell produces a weekly news and round up summary for inclusion in the weekly bulletin. He cannot do it without the assistance of the clubs, so please give him every co-operation as and when he contacts you.

Printing

This document runs to 31 pages should you intend to print it. I intend to issue a condensed version, taking up less space in the next day or two.

Finally!

If you are a new or inexperienced Secretary, don't be too daunted by all the rules and regulations. You will hopefully find that all the League Officers are helpful so if you are unsure what to do in any situation, phone or email in and we will try to assist. I am usually available on my home number (01784 440613) during the day.

Wishing everyone an enjoyable season

Alan Constable
General & Fixture Secretary
Combined Counties League Ltd.
23 July 2012
