

How to ensure you are receiving emails from TRFC and why this is important!

Why do we need to communicate with our members?

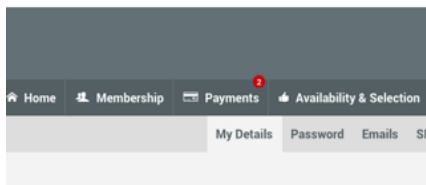

1. As a Community Rugby Club we are always trying to extend our reach into all areas of Tring and the surrounds and occasionally we need to communicate with our 2000+ registered users
2. When an event such as the AGM requires us to message everyone who is a member of the club
3. When we are raising awareness for new projects where we need support from TRFC members or supporters, like the building of a new clubhouse
4. Players or parents of players may not be receiving messages regarding Match selection, cancellations or special events

Checking you are correctly setup is really simple, go to <https://secure.pitchero.com/clubs/tringrugby/login> and login using your email, if you can't remember your password, simply hit the 'forgotten password' button

Then select 'Settings'

Then select 'emails' from the top menu to the right of 'My Details'

Now scroll to the bottom of the window and in Notifications select 'Start Receiving Emails'

We really appreciate you taking the time to do this and promise not to 'spam' you in return.

Many thanks

TRFC Management Board

If you wish to [unsubscribe](#) from the club completely, please login to your account and then delete your registration details
