

Thank you to everyone who has signed up on Pitchero – hopefully you have found it easier than the paper forms of previous years.

In order to ensure that we have all the necessary information AND THAT PLAYERS (all ages) ARE REGISTERED PROPERLY & INSURED, please read the relevant section below:

### FOR PARENTS OF YOUTH PLAYERS

On Pitchero , once you have joined, please ensure you have completed ALL the data fields and consent boxes for YOURSELF and click 'SAVE' at bottom right. If you are not sure if you have filled in all the information, go to 'YOUR ACCOUNT' and then 'MEMBERSHIP INFO' and check. Once this is done please select YOUR membership grade (Social or VP), make payment & tick the PARENT box.

Next do the same for your CHILD(REN) – ALL the data fields & tick boxes. Please include your child's school and an emergency number. Then select PREPAID PARENT with either 1, 2 or 3 CHILD(REN), and make payment.

Once you have done this you MUST register you and you player with the RFU. To do this please visit: <https://gms.rfu.com/GMS/Account/Login>

You first need to LOG IN ,or CREATE ACCOUNT if you have not already registered on the RFU site. (MAKE A NOTE OF YOUR PASSWORD!)

Go to the top left with the 3x3 dots, select MEMBERS AND NON MEMBERS. At the top right of the screen click on + and put your first name and last name in. If the screen does not show your details you will need to click on NEW at the top of the screen.

Either new or non-members to complete ALL your details again adding an Emergency Contact etc as a Social/VP member.

You then need to join the RFU by going to membership payment as a VP or Social (this is set to £0 because you paid via Pitchero). Once this is done you need to add your child as a YOUTH PLAYER and select Pay his/her membership this is also set to £0). Affiliate your son as a YOUTH PLAYER to the RFU to get his registration as a player. Again you need to fill in ALL details including the consent boxes. His/her school and emergency contact details need adding during this. There will be a box to open and your details should show up, click yourself as emergency contact.
