

GUINNESS
SIX NATIONS

It's coming to that time of the year again

Predict the scores and win prizes
The winner each week wins £10
The overall winner wins £100

How does it work?

You predict the scores and for each point different from the result, you score 1 point.

The lowest points scorer wins.

For example, you predict 28 - 10

The result is 20 - 17

$(28-20) + (17-10) = 15$

**Entry forms available at reception or can be
downloaded from the club website**
Closing Date Midday on Thursday 31st January
(Don't forget to enclose your £5!)
