This fixture is the second time the two sides have met this season. In the first match, Swaffham Town ran out 5-1 winners on a sunny afternoon at Shoemakers Lane. Early goals from Joe Jackson & a brace for Ryan Pearson either side of an Alex Vincent strike consigned AFC to defeat that day, despite Sudbury goalkeeper Charlie McCarthy saving an early penalty.

This 2018/19 season is our fourth year of operation and all the staff are determined as ever to replicate the previous years individual and team successes.

The club itself was founded in 1892 and had a rather successful start getting to the final of the Norfolk junior cup two years later, the club itself continued through the years until its next highpoint in 1951-1952 where the junior cup home was bought home after winning it for two consecutive years, capping off the historical era of the club on a high.

The modern era of the club as we know it today started back in 1959 where club legends such as Bob Tuttle, Albert Hudson and Gurney Titmarsh amongst others, purchased the land on behalf of the club for as little as £250.00. Swaffham Town Football Club has been built and is continued to be looked after by good working class families who live in the town and surrounding villages and it's safe to say we are proud of the legacy left behind of those still with us and those who unfortunately are not.

The original club house itself was located further up the pitch and was a relatively small building containing changing rooms and a tiny area to have a tea after the match. One of the standout memories of the old club house was the communal team bath that took the whole game to fill up. As time passed the club grew and it was decided to relocate the clubhouse to its position today, at the bottom of the infamous slope. This took place after the late 60's and into the 70's and the works were again completed by good local families such as the Leadbetters, Tuttle's, Palmer's, Hudson's, Ward's and the Titmarsh's and it's safe to say that they did a fantastic job.

The club progressed throughout the coming years and became the stable senior outfit it is today, drifting between the two divisions in the then Jewson league and the Thurlow Nunn league as it is known to date under managers such as Lucian Hodgkinson and Paul Hunt. Throughout those years' memorable characters such as, Jock, Stuart Seales, David Leadbetter, Mark Blockwell and David Spalding have put on the famous black and white stripes.

The highest level the club has ever reached is step 5 in the English footballing pyramid.

'I see the history of the club being in two phases as mentioned above, but I believe we are now entering a third phase under the leadership of Ian Sherwood and his committee. The club is currently going through a modernisation in attempt to align ourselves with those up to speed within leagues above, there really is an ambition to succeed amongst the playing staff and the committee alike and we welcome anyone who wants to get involved with taking, in my opinion, a proper local football club forward'.

More on Swaffham Town FC

Swaffham Town are enjoying a good season this season currently placed 3rd in the table. They will be looking to push on even further with their games in hand over the top two clubs in the division.

Swaffham have been impressive defensively this season only conceding 24 goals - the lowest total conceded in the league thus far.

Notably, Swaffham's two key players are their two forward players. Joe Jackson is their top scorer on 22 goals, with Alex Vincent closely following on 17, Alex however leads the way on most assists with 14 so far.

The last time the two sides met earlier this season, Swaffham ran out 5-1 winners at home.

The AFC Sudbury Academy has grown from strength to strength since its inception in 2015. We are all very proud of all our individual and collective achievements to date. The environment that our staff create for our young players to develop is certainly unrivalled locally outside the professional game. AFC Sudbury benefits from a state of the art facility however it also benefits from a pool of staff that carefully plan and deliver high quality to its ever growing player base.

The 16-19 Full-Time academy is the flagship operation in the player development pathway that rests in-between our hugely successful Eastern Junior Alliance section and our senior first team. The full-time programme is for the two years that follow high school leaving age, we combine academic study with professional football coaching and a high level games schedule. These two years are highly intensive and are the power behind the success of our player development.

We value highly our 13-16 Eastern Junior Alliance section that has seen players progress into the full-time academy and indeed onto the AFC Sudbury first team as well as professional football clubs academies. The partnership with Ipswich Town Football club mutually benefits this section.

We want to make the experience for all our players as enjoyable and rewarding as possible and certainly one of the highlights is our overseas tours the full time academy have toured the USA three times and plans are already in place for the 2019 USA Tour. The Eastern Junior Alliance have toured Europe and again plans are already in place for two of the teams to tour Europe 2019 These experiences are all part of the process of developing the whole person and creating enjoyable memories for later in life.

January a crucial month in AFC Sudbury's pursuit of the Bostik League North Division play-offs

AFC Sudbury boss Mark Morsley has said that January has emerged as the crucial month for his young Bostik League North Division side's campaign.

His comments follow his side's 3-2 derby win over Bury Town on New Year's Day to leapfrog their rivals and start the year 'flirting around the play-offs'. But, in order to remain in this sixth place, they will face a tough task with Morsley's side due to face three of the top five teams this month.
