Abuse of Officials Statement

Referees and their assistants are welcomed at CRUFC for the necessary and important function that they provide. They are our friends and associates in the fellowship of Rugby, willing to give their time to help us in our aspirations as a club.

It matters not in which game they are involved, from first team to Minis: we will actively support their endeavours.

Any abuse of a referee or his assistants will be dealt with severely by the CRUFC Committee. Abuse is not limited to the match itself: it includes all the time that the Officials are on the club's premises.

Any person, whatever their capacity, may be asked to leave the ground or premises if they are deemed to have contravened this statement.
