

FAIR SEASON FOR WAVERLEY	BATTING					
		Innings	Not out	Runs	Highest score	Average
<p>Waverley Cricket Club enjoyed a fair amount of success in the 1974 season with 19 victories and 13 defeats in the 46 matches played.</p> <p>The highlights of the season were the centuries by Phil Burchett at Linchmere and Puttenham. He had never reached the coveted three figures before and enjoyed considerable success as an opening batsman, as well as taking 44 wickets and holding 21 catches. Tony Day also showed glimpses of his best form in several valuable innings, and took 49 wickets. Richard Harrington and Andy Dexter both had continued success with the bat.</p> <p>Gerry Kirkpatrick bowled with his usual accuracy and headed the averages with 71 wickets. He also made useful runs on occasions. Of the younger players, Peter Brewer has developed into a very useful all-rounder and Dave Powell started the season in fine form as a quick bowler, but had limited success in the latter part of the season.</p> <p>Peter Bower and Brian Morton batted well but were not as consistent as in previous seasons.</p> <p>In most matches, at least two or three batsmen could be relied on to make useful scores and ensure a respectable total, but on many occasions the bowling lacked sufficient penetration to dismiss the opponents and this resulted in several narrow defeats as well as a high proportion of drawn games.</p>	P Burchett	31	1	755	105*	25.1
