SCORES V SNORES

A simple game where a dot ball (Snore) counts as a point to the bowlers and any runs scored (Score) counts as a point for the batters.

Can be adapted as a middle practice, indoor match or net session.

Encourages the following:-
- Batters to look to score off as many balls as possible
- Strike rotation
- Running between the wickets, calling, backing up etc.
- Bowlers are rewarded for accurate bowling and movement that might beat the bat.
- Alert and active fielding as the batters are always looking to run.

Alternative. Batters have to score off a minimum of every three balls (adjust as necessary). If they do not then there is a forfeit of runs points or they are out etc..
