

Networking / Wireless / Access Points

# EAP225-OUTDOOR

TP-LINK

## Features

---

- TP-LINK
- Dual Band 802.11ac Wifi Access Point 2,4 and 5 GHz
- Compatible with 802.11 b/g/n/ac
- Allows connections up to 300 Mbps in 2.4GHz and 867 Mbps in 5GHz
- MIMO technology with two 3 and 4 dB omni-directional antennas to provide 360° coverage
- MultiSSID - PoE 802.3af
- Temperature range from -30 to 70 °C
- IP65 Valid for exterior
- PoE power supply included

# Specifications

Brand	TP-LINK
Wireless Standard	802.11 b/g/n/ac
Transmission speed	1200 Mbps
Frequencies	2.4 & 5GHz
Maximum power transmission	400 mW (27 dBm)
Integrated antenna	2 external 3 and 4 dBi Omnidirectional antennas
Operating modes	Access point
Security	WEP/WPA2/SSID hidden/filtered by MAC, Wireless isolation between clients
Management	Configuration via web interface
Power	PoE 802.3af or passive PoE 24 VDC, 10.5 W
Protection	Suitable for exterior IP65
Operating temperature	-30°C ~ + 70° C
Dimensions	46(W) x 267(D) x 215(H) mm
Weight	150 gr
