

IB-SH-REC-2

Solar infrared barrier receiver

2 wireless inputs

2 wired outputs

Up to 6 devices per input

Dip Switch configuration

Solar infrared barrier receiver

2 wireless input channels

Up to 6 devices per input channel

2 wired outputs

Simple configuration through the DIP Switch

Long range

Specifications

Inputs	2 wireless inputs
Devices per input	6
Outputs	2 wired outputs
Work frequency	433MHz FSK+FHSS
Operating temperature	-30°C ~ +70°C
Power	DC 12V / 150mA max.
Dimensions	140 (H) x 100 (W) x 55 (D) mm
