Performance Reports Now Available

The 2024 Annual Performance Reports for The Kemptville Drinking Water System, Water Pollution Control Plant and Sanitary Collection System are now available.

Residents can find copies of the reports on the Municipal website or request a physical copy of the report at the North Grenville Municipal Centre.

Any questions regarding the content of the reports can be forwarded to the Water and Sewer Department at:
water@northgrenville.on.ca

Upcoming Schedule

We expect to be flushing water mains during April and May. Flushing water mains is necessary to remove sediment and iron that gradually deposit in the pipes. There may be a brief period of time when your water becomes cloudy or discoloured.

Please check your drinking, cooking and laundry lines before using. Let your cold tap run until the water flows clear. Also, there may be temporary pressure fluctuations during flushing.

Municipal staff will try to minimize any inconvenience.

Important Reminders

Sump pump lines or any other types of connections are NOT permitted to the sewer lines.

Curb stops are Municipal Property, if you have concerns, please contact our office. Please do not try and repair yourself.

Ontario One Call

Call before you dig. If you are planting a tree, building a fence or a deck, putting in a pool or doing anything else that requires you to dig, you must contact Ontario One Call.

Please call 1-800-400-2255.
