Welcome!

Since 2003, the BC Healthy Living Alliance (BCHLA) has followed our mission to improve the health of British Columbians through leadership that enhances collaborative action to promote physical activity, healthy eating and living smoke-free. Collectively, BCHLA member organizations capture the attention of over 40,000 volunteers, 4,300 health and recreation professionals, and 184 local governments across British Columbia. We work with government and hold them accountable to promote wellness and prevent chronic disease.

Vision

A healthy British Columbia

Mission

To improve the health of all British Columbians through leadership and collaboration to address the risk factors and health inequities that contribute significantly to chronic disease.
