## FOOD RECALL

Strawberry and Champagne Jam

18/07/2025

During a random sampling of local products, Fife Council sent a sample of jam from our supplier for chemical analysis and it has come back with both sulphites and sorbic acid in the jam. Sulphites are one of the 14 known allergens.

Please be assured there is nothing wrong with the product and it can be safely consumed by the majority of people. Only those allergic to Sulphites could be affected. Please also know this only affects the Strawberry and Champagne Jam, all other flavours are unaffected. All products have been pulled as of 18/07/2025.

Any questions or concerns please reach out to us via our contact page or contact information.

*This only affects batch codes between the numbers 5702 and 6610.*
