

Consumer Recall Notice

SMA Infant Formula and Follow-On Formula

**designs may vary*

The safety and wellbeing of babies is our absolute priority. As a precautionary measure, Nestlé is voluntarily recalling specific batches of its SMA infant formula and follow-on formula.

This is due to the potential presence of cereulide in the batches concerned.

Batch codes can be found on the base of the tin or box for powdered formulas or the base of the outer box and on the side / top of the container for ready-to-feed formulas.

There have been no confirmed reports of any illness associated with consumption of the products concerned. Nevertheless, out of an abundance of caution, Nestlé has decided to perform this voluntary product recall in line with our strict product quality and safety protocols.

Consumers who may have these batches should not feed this product to their baby.

If you have purchased one of these batches, please share a photo of the product and the batch code via <https://www.nestle.co.uk/en-gb/getintouch> or by calling our careline on **0800 0 81 81 80** (UK) **1800 931 832** (Ireland) and we will refund you.

If you have been prescribed one of these batches listed please destroy the product and speak to your Healthcare Professional for advice on an alternative.

Anyone concerned about their baby's health should contact a healthcare professional.

All other Nestlé products and other batches of the same product that are not in the scope of this voluntary recall are safe to consume.

We understand that this news may cause concern for parents, and we sincerely apologise for any concern or inconvenience caused to parents, caregivers, and customers.

3 February 2026: This document has been updated to include an additional batch which may be available in Northern Ireland

A full list of products and batch numbers can be found here:
