

Consumer Product Safety Notice

Coca-Cola Original Taste 1.5 litre – selected codes only

10 April 2020: We have identified a fault on some of the bottle neck rings of Coca-Cola Original Taste 1.5 litre plastic bottles on selected codes only.

The quality of the drink itself is not affected, but a manufacturing fault to the bottle neck ring means that a small number of the bottles may have a sharp and uneven rim edge.

The list of potentially affected products is as follows:

Best Before End Date: 30 09 20 with one of the following codes, where TT:TT is a specific time on the 24-hour clock, for example 11:07

- 083EK3TT:TT
- 084EK3TT:TT
- 085EK3TT:TT
- 086EK3TT:TT
- 087EK3TT:TT
- 088EK3TT:TT
- 089EK3TT:TT
- 090EK3TT:TT

The code can be found printed below the neck of the bottle.

If you have a bottle with one of the affected codes, please examine the bottle neck ring carefully. If you see damage to the bottle neck ring, then please open the bottle with care and ensure that your hand is placed on the cap and above the bottle neck ring when the bottle is opened. If you are unable to open the bottle safely please retain the bottle unopened and call a member of the Coca-Cola team on 0800 22 77 11.

No other Coca-Cola products are affected by this issue.

The safety and quality of our products is of paramount importance to us and we do all we can to ensure they reach people in perfect condition. We are sorry that on this occasion a small number of our products have not met our required standards.

If you have any further questions, please contact a member of the Coca-Cola team on 0800 22 77 11 and they will be happy to assist. Our lines are open Monday to Friday 9 – 5pm.
