## CATEGORY ONE FINALS

Date	Distance	Track	Event
Thurs 25th April	695m	Hove	Coral Regency
Sun 28th April	480mH	Central Park	The Grand National
Tue 30th April	280m	Sheffield	Bresmed Northern Sprint
Sat 4th May	480m	Shawfield	RPGTV Scottish Derby
Sun 5th May	460m	Henlow	Maiden Derby
Sat 18th May	659m	Yarmouth	The George Ing St Leger
Sat 29th June	500m	Nottingham	The Star Sports, ARC & LPS Greyhound Derby 2019

*Further competitions to be confirmed.*

## GREYHOUND TRAINER VACANCIES

WE ARE LOOKING FOR A PROFESSIONAL TRAINER TO JOIN OUR RACING TEAM IN SUPPORT OF A BUSY WEEKLY SCHEDULE. ASSISTANCE WILL BE GIVEN TO MEET THE NEEDS OF THE TRACK TOGETHER WITH AN EXTREMELY COMPETITIVE REMUNERATION PACKAGE.

WE ARE ALSO SEEKING CANDIDATES WHO WANT TO TAKE THE NEXT STEP AND BECOME A PROFESSIONAL TRAINER. KENNELS ARE AVAILABLE AND WE WILL MENTOR, GUIDE AND SUPPORT THE SUCCESSFUL APPLICANT THROUGH OUR TRAINER DEVELOPMENT SCHEME.

APPLY IN CONFIDENCE TO

## IMPORTANT NOTICES

The Greyhound Board of Great Britain will receive complaints in confidence from anyone concerned about a possible breach of the Rules of Racing.

Send emails to [complaints@gbgb.org.uk](mailto:complaints@gbgb.org.uk) or call the GBGB office on **020 7822 0900**. Alternatively, write to:

The Greyhound Board of Great Britain Ltd,  
Genesis House, 17 Godliman Street, London EC4V 5BD

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

### DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 19 March 2019:-

Dr AJ Higgins (in the chair)  
Mr R Coughlan  
Mr M Elks

#### 1 **Crayford Stadium – SNIFFING OUT – Owner Trainer Mr L Bird**

Owner Trainer Luke Bird was found in breach of rules 152 (i), 174 (i) (b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound SNIFFING OUT at Crayford Stadium on 26 June 2018 was analysed by LGC Health Sciences as containing the presence of benzoyllecgonine and m-hydroxycocaine, and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mr Bird was in attendance and accompanied by his sister Lucy Bird. Danny Rayment, racing manager of Crayford Stadium, apologised for his non-attendance. Hayley Huntley, stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

Mr Gibson on behalf of the GRB said that Mr Bird admitted the breaches other than rule 174(i)(a) and this was accepted by the GRB. The test had followed a pre-race sample before a 874m supporting Open Race at a Category 1 Final night at Crayford Stadium on 16th August 2018. SNIFFING OUT opened at 7/2 and had a SP of 5/1 finishing last. The GBGB Betting Investigator reported no irregular betting patterns and concluded that the greyhound was running over too great a distance for his form. The urine sample had tested positive for two metabolites of cocaine, namely, benzoyllecgonine and m-hydroxycocaine, and a

subsequent hair sample had been collected from the greyhound on 16 August 2018 and analysed. Mr Gibson noted that this hair sample screen suggested the presence of cocaine and benzoyllecgonine, but these findings had not been confirmed.

Professor Morris gave evidence that cocaine is a Class A, Schedule 2 Controlled Drug reflecting the very serious level of abuse in people. He said that cocaine and benzoyllecgonine were stimulants of the nervous system and affected heart function that can influence the performance of a greyhound and/or prejudice its wellbeing. The scientific evidence showed that cocaine had passed through the dog's system and was incorporated in its hair and that the levels detected would indicate a window of exposure over several days or a shorter time depending on dose. The source and time of administration however remained unknown.

In his evidence, Mr Bird stated that SNIFFING OUT was a family pet that lived in his home with his family and was exercised in nearby Epping Forest, local open fields and various public walkways where he felt the dog could have picked up the drug. He said that he and his family were wholly opposed to the abuse of drugs in humans and dogs. Although he was aware that cocaine had been given to greyhounds to affect performance, he strenuously denied that he had given cocaine to SNIFFING OUT. In any case, he pointed out that given the Category 1 race on the card that evening it was anticipated that samples would be collected. He presented written evidence of drug screening tests he had been required to take as part of his job as a driver, and these showed no evidence of cocaine abuse.

The Committee found Mr Bird to be a credible witness and acknowledged his candid evidence. Nevertheless,

cocaine is an illegal drug and there can be no place for a Class A Schedule 2 drug in greyhound racing. Some of the GBGB Rules of Racing impose strict liability on the trainer and the committee advised Mr Bird to be extremely vigilant in future to avoid possible exposure of his greyhounds to potential sources of prohibited substances.

In all the circumstances of the case, the Disciplinary Committee ordered that Mr Bird be severely reprimanded and fined £500.

#### 2a **Shawfield Stadium – BLUE LAD – Greyhound Trainer Mr A McCrae**

Greyhound Trainer Angus McCrae was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound BLUE LAD at Shawfield Stadium on 1 June 2018 was analysed by LGC Health Sciences as containing the presence of benzoyllecgonine and m-hydroxycocaine. A hair sample taken from BLUE LAD at Shawfield Stadium on 13 July 2018 was analysed as containing the presence of benzoyllecgonine and cocaine. Mr McCrae had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

#### 2b **Shawfield Stadium – TRAPEZIUS – Greyhound Trainer Mr A McCrae**

Greyhound Trainer Angus McCrae was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound TRAPEZIUS at Shawfield Stadium on 8 June 2018 was analysed by LGC Health Sciences as containing the presence of benzoyllecgonine and m-hydroxycocaine. A hair sample taken from TRAPEZIUS at Shawfield Stadium on 20 July 2018 was

analysed as containing the presence of m-hydroxycocaine. Mr McCrae had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

### **The Above Inquiries**

Mr McCrae was in attendance. Daniel Rankin, racing manager of Shawfield Stadium, apologised for his non-attendance. Alex McTaggart, stipendiary steward, and Professor Tim Morris, independent scientific adviser, were also in attendance. Simon Storey, sampling steward, was present as an observer.

On behalf of GRB, Mr Gibson proposed that the Committee hear the two cases together. Mr McCrae confirmed that the procedure had been explained to him by Mr Gibson and he had no objection to this. However, to avoid any possible prejudice of one case influencing the other, Mr Gibson invited the Committee to hear the evidence relating to each local inquiry separately and reach decisions on each. If penalties were to be considered, then the Committee would hear mitigation and penalty recommendations for each case separately and present their decisions sequentially.

Mr Gibson said that no breaches were admitted by Mr McCrae in either case.

He first referred to the Local Inquiry held on 17 July 2018 into the positive analysis of a pre-race urine sample taken from the greyhound BLUE LAD before a 480m Flat race at Shawfield Stadium on 1 June 2018. BLUE LAD had opened at 5/2 and had a SP of 5/2 finishing last. Mr McTaggart noted that the dog's performance was very poor and described it as its worst race ever. The GBGB Betting Investigator reported no irregular betting patterns. The urine sample had been analysed and tested positive for benzoyllecgonine and m-hydroxycocaine, two metabolites of cocaine. A subsequent hair sample had been collected from the greyhound on 13 July 2019 and analysed as containing cocaine and benzoyllecgonine.

Professor Morris gave evidence that cocaine is a Class A, Schedule 2 Controlled Drug reflecting the very serious level of abuse in people. He said that cocaine and benzoyllecgonine were stimulants of the nervous system and affected heart function that can influence the

performance of a greyhound and/or prejudice its wellbeing. The scientific evidence showed that cocaine had passed through the dog's system and was incorporated in its hair and that the levels detected would indicate a window of exposure in the previous 48 hours or a shorter time depending on dose. He noted that the screen suggested the presence of cocaine and ecgonine methyl ester, but these findings had not been confirmed.

At the Local Inquiry, Mr McCrae had given evidence that he had no idea how cocaine came to be in his greyhound. He said he was not happy with security at Shawfield. Subsequent to the Inquiry, Mr McCrae gave Mr McTaggart the name and contact number of a Mr Gerry Kelly who had agreed to meet Mr McTaggart in a car park but declined to give his address. Mr McTaggart gave evidence that Mr Kelly had told him that he was a delivery driver who from time to time borrowed Mr McCrae's van to deliver cold meats to various customers. For an unspecified time at the end of May 2018, he said he had borrowed the van and, as he had had an argument with his wife, he had slept in the van for a couple of nights. Mr McTaggart said that Mr Kelly told him that at the time he had a drug habit and while staying in the van had spilled some cocaine. There had been bones in the van and Mr Kelly said he thought the bones could have touched the cocaine. When Mr McCrae told Mr Kelly about the positive tests, Mr Kelly said he felt he had to admit what had happened.

In supplementary evidence dated 20 December 2018, Professor Morris referred to the evidence presented by Mr McTaggart and stated that environmental contamination of a van and items within it would increase the chance of more than one finding of cocaine and its metabolites although other possible sources of the cocaine metabolites were possible. Mr McCrae noted that the van was laid with carpet and that the cages used for transporting greyhounds did not have solid flooring. Mr McCrae gave evidence that there had been a bag of bones in the van behind the front seat and these must have fallen out. He said that there were four bones in the van when he reclaimed it from Mr Kelly, most likely on 29 May 2018; he threw two bones away and gave the other two to his greyhounds. He said he did not know that Mr Kelly took drugs but was not entirely surprised.

Mr McCrae denied administering cocaine to BLUE LAD.

Mr Gibson said that the GRB found the account of Mr Kelly implausible, and although there was insufficient evidence that Mr McCrae had deliberately administered cocaine to BLUE LAD he did not accept the story presented in his defence not least as there was no supporting evidence that Mr Kelly had in fact used the van, slept in it, or transported meat for human consumption in it. He submitted that Mr McCrae had failed to protect BLUE LAD, a racing greyhound in his charge, failed to prevent cross-contamination, and failed to preserve the integrity of greyhound racing.

Mr Gibson next turned to the Local Inquiry held on 17 July 2018 into the positive analysis of a pre-race urine sample taken from the greyhound TRAPEZIUS before a 480m Flat race at Shawfield Stadium on 8 June 2018. TRAPEZIUS had opened at 3/1 and had a SP of 3/1 finishing first by 2¾ lengths. The GBGB Betting Investigator reported no irregular betting patterns and considered the performance consistent in form. The urine sample had been analysed and tested positive for benzoyllecgonine and m-hydroxycocaine, two metabolites of cocaine. A subsequent hair sample had been collected from the greyhound on 20 July 2019 and analysed as containing m-hydroxycocaine.

Mr Gibson said that the statements as presented in the previous case were relevant to both cases with a couple of exceptions. Firstly, Mr McCrae had stated that he had been on holiday on 8 June 2019, and this was supported by Mr McCrae's kennelhand, Anthony Duffy, in a Witness Statement dated 12 October 2018 in which he stated that he had used his own van to transport the greyhounds to the track but in cages taken from Mr McCrae's van. Secondly, Professor Morris in his evidence stated that there were lesser quantities of the two metabolites in the urine taken from TRAPEZIUS than in the case of BLUE LAD. He noted that the screen suggested the presence of cocaine and ecgonine methyl ester, but these findings had not been confirmed.

In the case of TRAPEZIUS, the scientific evidence showed that cocaine had passed through the dog's system and was incorporated in its hair and that the levels detected would indicate a window of exposure in the previous 48 hours or longer

depending on dose. To account for the findings, Professor Morris stated that one possible explanation was that TRAPEZIUS had a continuing exposure to cocaine or a second exposure. This might be accounted for by the greyhound having access to a cocaine-contaminated carpet or bones remaining in the van although other explanations were possible.

Mr McCrae accepted that the evidence was otherwise as presented for BLUE LAD and he maintained that the source of the cocaine in TRAPEZIUS was as stated by Mr Kelly.

Mr Gibson held that Mr McCrae's account that the cocaine had originated from Mr Kelly spilling the drug in the van resulting in contamination of the carpet and the bones leading to exposure of the greyhound to cocaine was implausible and had not been substantiated. As such, the source and timing of exposure remained unknown from the evidence. Mr McCrae had failed to protect TRAPEZIUS, a racing greyhound in his charge, failed to prevent cross-contamination, and failed to preserve the integrity of greyhound racing.

The Committee acknowledged Mr McCrae's attendance at the Inquiry. They noted that these were two very serious cases relating to the finding of metabolites of a Class A Schedule 2 Controlled drug in two racing greyhounds. The Committee stressed that there can be no place for drugs such as cocaine in greyhound racing. The scientific evidence had shown that the drug had passed through both greyhounds and that cocaine and benzoylecgonine can not only affect performance and/or prejudice the welfare of a greyhound but also damage the integrity of greyhound racing. The Committee was not persuaded by Mr McCrae's account of events but in the absence of further evidence concluded on the balance of probability that Mr McCrae had not deliberately administered cocaine to the greyhounds. Nevertheless, Mr McCrae had failed adequately to protect the greyhounds in his charge and to present his dogs for racing free of prohibited substances.

Some of the GBGB Rules of Racing impose strict liability on the trainer.

In the case of BLUE LAD, Mr McCrae was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing.

In the case of TRAPEZIUS, Mr McCrae was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing.

In all the circumstances of the two cases, the Disciplinary Committee ordered that on each count Mr McCrae's licence be withdrawn for 6 months, suspended for 6 months (totalling 12 months), plus a fine of £750 (totalling £1,500).

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 27 March 2019:-

Mr H Starte (in the chair)

Mr A Hunt

Mr K Salmon

#### 1 **Towcester Stadium – ASK TINK – Professional Trainer Mr S Rayner**

Professional Trainer Mr Stephen Rayner was found in breach of rules 152 (i), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound ASK TINK at Towcester Stadium on 22 June 2018 was analysed by LGC Health Sciences as containing the presence of flunixin.

Mr Rayner, Senior Stipendiary Paul Illingworth and independent scientific adviser Professor Tim Morris were in attendance.

GBGB Welfare and Integrity Manager Mr Duncan Gibson told the Committee that the Board did not pursue a case that Mr Rayner was in breach of Rule 174(i)(a). It was accepted that Mr Rayner had not knowingly administered or caused or allowed flunixin to be administered to ASK TINK.

The Committee heard evidence from Professor Tim Morris, independent scientific adviser, that flunixin is a non-steroidal anti-inflammatory drug (NSAID) licensed in the UK and prescribed for use in horses, pigs and cattle. No preparations of flunixin were licensed in the UK and prescribed for use in dogs because better pain relief and anti-inflammatory medications were available. Like all NSAIDs, it could induce adverse reactions, most commonly vomiting, and potentially life-threatening reactions, the most common of these being gastrointestinal ulceration. It could mitigate the adverse effects on a greyhound's performance by alleviating pain and inflammation. As such, it is a substance that could

prejudice the wellbeing and affect the performance of the greyhound.

Mr Rayner told the Committee he accepted that flunixin had been detected in the sample taken from ASK TINK and, because they impose strict liability on a trainer, he admitted that he was in breach of rules 152 (i), 174 (i)(b), 214 and 217. He said the explanation had to be that the flunixin had come from contaminated meat being included in the meat products that he fed to his greyhounds, despite him only buying food sold as being Category 3 Animal By Product (ABP) meat.

Mr Rayner told the Local Inquiry and the Committee that he fed his greyhounds beef, chicken, Gain, occasionally tripe and a dried meat product. The beef was ABP pet food. At the time of the positive sample analysis he was buying this from a butcher, Alan Bellis, who supplied it as Category 3 ABP meat, as shown on an invoice dated 3 May 2018, and from a feed company, DG Trading, which also supplied it as Category 3 meat, as shown on its delivery document dated 31 May 2018. He bought the dried meat from DG Trading, which also stated on its delivery document that this was Category 3 meat, and from another, Northern Irish supplier, Pedro Pet Foods Ltd.

Mr Rayner told the Committee that since the positive sample analysis he had checked with his suppliers that all meat supplied to him was Category 3 meat and had been reassured that it was. One supplier had provided him with a copy of the DEFRA certification of the pet food plant processing its products, showing that the plant was only licensed to use Category 3 meat.

Professor Morris's evidence was that the levels found in the urine sample were consistent with two sources for the flunixin. It could have come from an unlicensed preparation of flunixin being used to treat ASK TINK several days before the sample was taken. It could have come from the ABP food Mr Rayner was feeding his greyhounds.

Professor Morris said that pet food dried meat products were not made, or should not be made, from Category 2 ABP meat. Category 3 meat should not contain meat contaminated with flunixin, because the meat should not come from cattle or horses that had been treated with the substance prior to being slaughtered.

For the Board, Mr Gibson told the Committee it was accepted that the flunixin detected in the sample taken from ASK TINK had come from the ABP meat fed to the greyhound by Mr Rayner. The Board accepted that Mr Rayner had been aware of the dangers of feeding Category 2 meat and that he had tried conscientiously only to buy and feed Category 3 meat. It was difficult to attribute any wrongdoing to Mr Rayner or find any reason that he should be disciplined. The Board's recommendation was that the Committee order that no further action be taken.

The Committee ordered that there be no further action.

## **2 Sheffield Stadium – SHEWHODARESWINS – Greyhound Trainer Mr C. Lynch**

Greyhound Trainer Mr Charles Lynch was found in breach of Rules 152 (j), 174 (i)(b) and 217 in that a urine sample taken from the greyhound SHEWHODARESWINS at Sheffield Stadium on 13 October 2018 was analysed by LGC Health Sciences as containing the presence of caffeine.

Mr Lynch was in attendance by telephone. Senior Stipendiary Paul Illingworth and independent scientific adviser Professor Tim Morris were in attendance.

Professor Morris's evidence was that caffeine is a recognised stimulant, including of sporting performance, that is present in a wide range of foods as well as caffeine drinks such as Red Bull and caffeine tablets. One food source is tea.

As in other animals and humans, caffeine stimulates the heart and brain and opens up the airways. Its side effects include, restlessness, agitation, excitement, vomiting, diarrhoea and excessive thirst and urination. In Professor Morris's opinion, caffeine was a substance that by its nature could affect the performance and prejudice the wellbeing of the greyhound.

Mr Lynch told the Local Inquiry and the Committee that he had not administered caffeine to SHEWHODARESWINS. His explanation for caffeine being detected was that on the day of the race the greyhound had got into his house and drunk a cup of tea that Mr Lynch had left on a coffee table in the living room.

Mr Lynch said that SHEWHODARESWINS was kept in a kennel in his garden. Following

his daily routine, Mr Lynch had got up at about 7.45 am and made tea. As she usually did, his wife had put three teabags in a teapot the night before, which he used to make the tea. He had poured himself a cup of tea when the greyhound had started howling, so he had gone outside to the dog to stop it howling and prevent annoyance to his neighbours. He had left his cup of tea on a coffee table in the living room.

Mr Lynch said he had been outside in the garden for about 5 or 6 minutes after opening the kennel when his wife had shouted to him. She had come downstairs and found the greyhound in the house, which was something that she did not allow. He said that when he went back into the house he had found what he thought was the cup of tea that he had poured. But the dog must have drunk that cup, because his wife had re-filled it.

Professor Morris's evidence was that the levels of caffeine detected in the sample taken from SHEWHODARESWINS at 8.50 pm could have resulted from the greyhound drinking a cup of tea some 12 hours before. Equally, the levels could be the result of the greyhound ingesting a smaller dose closer to the time of the sample.

For the Board, Mr Gibson accepted that it had not proved on the balance of probabilities that Mr Lynch's explanation was false and that there had been a deliberate administration of caffeine.

The Committee accepted Mr Lynch's account of events as the more likely explanation for caffeine being found in the sample. However, Rules 174 (i)(b) and 217 impose strict liability on a trainer and Mr Lynch was in breach of those rules by being in charge of and racing SHEWHODARESWINS when caffeine was detectable in the greyhound. He was necessarily also in breach of Rule 152 (j).

The Committee found that Mr Lynch knew that tea contained caffeine and that caffeine was a proscribed substance in a dog that was being raced. He had contributed to his breach of the rules by allowing the dog to get into the house and find the cup of tea that he had left when he went out to stop the dog howling. The appropriate penalty was that Mr Lynch receive a reprimand and pay a fine of £300.

## **3 Pelaw Grange Stadium – YES VOTE – Owner Trainer Miss L. Lewis**

Owner Trainer Miss Lisa Lewis was found in breach of rules 152(i), 174 (i)(b) and 217 of the GBGB Rules of Racing in that on analysis by LGC Health Sciences a urine sample taken from the greyhound YES VOTE at Pelaw Grange Stadium on 13 October 2018 was found to contain the presence of norcodeine and paracetamol.

Miss Lewis was in attendance by telephone. Senior Racing Manager at Pelaw Grange Mr David Gray, Senior Stipendiary Steward Paul Illingworth and independent scientific adviser Professor Tim Morris were in attendance.

Professor Morris gave evidence that norcodeine was a metabolic product of codeine. Codeine is available as a veterinary medicine in combination with paracetamol. It is also available in combination with paracetamol as a medication for humans. This is a prescription or pharmacist-authorised medicine. Codeine is not available as a standalone veterinary medicine. Nor is paracetamol.

Professor Morris advised that codeine is a painkiller having 15% the potency of morphine. It relieves pain and suppresses coughing. But it is a drug of dependence if abused and has a range of potentially serious side effects such as constipation and depression of breathing. Overdoses of paracetamol can reduce the capacity of the blood to carry oxygen and cause liver damage. Professor Morris advised that both were substances which by their nature could affect the performance and prejudice the wellbeing of the greyhound.

Professor Morris advised that neither codeine nor paracetamol would improve a dog's performance. They could affect performance by relieving symptoms in a sick or injured dog, enabling the dog to perform better and perhaps to its normal capacity.

There was no evidence before the Committee that the source of these substances in the sample taken from YES VOTE was a combination of codeine and paracetamol, whether in a preparation for use in animals or humans.

Miss Lewis told the Local Inquiry and the Committee that she had not given paracetamol or codeine to YES VOTE. She said she took a number of different medications on a daily basis, including codeine and

paracetamol. Somehow the dog must have found and eaten some codeine and paracetamol.

Miss Lewis's prescription, produced to the local inquiry and to the Committee, showed that she took seven different medications each day, including separate codeine and paracetamol tablets. She took one or two 30mg codeine tablets three or four times a day and two 500mg paracetamol tablets up to 4 times a day.

Miss Lewis told the Committee that she had two racing greyhounds and three retired greyhounds living in her house with her and her two teenage children. The greyhounds had free range of all rooms in the house, including Miss Lewis's bedroom. When she was at home, she always took her medication in her bedroom. The tablets, which were all in blister-packs, were kept on top of a unit carrying her television or in a drawer in that unit. When taking the tablets she would take each from its blister pack and collect them all in one hand before putting them all in her mouth at once and washing them down with a fizzy drink. She took up to 7 tablets at a time in this way. Miss Lewis said that she had occasionally dropped a tablet in the process of taking her medication, but this was not a weekly event. When she had dropped a tablet, she would look for it and then take it, although there had been occasions when she had not found a tablet that she had dropped.

Miss Lewis said that she could only suggest that what had happened was that YES VOTE had found and eaten one of the codeine tablets and one of the paracetamol tablets, which she had either dropped and not found or which she had not realised she had dropped. However, she also asked whether it was possible that these substances could have come from the greyhound licking her hands after she had taken the tablets.

Professor Morris explained to the Committee that, if the paracetamol detected came from YES VOTE ingesting a tablet, studies of the excretion process in greyhounds showed that it would have been ingested within the 24 hour period before the sample was taken. There were no similar studies for the excretion of codeine, but from studies of its excretion by humans, it was likely that a tablet of codeine could have been ingested at least 2 days before the sample was taken. The tablets could have been ingested at the same time or at different times

within those periods. The levels of the substances detected in the urine were either the low level reached very shortly after ingestion when the amount being excreted was rising, or the low levels reached at the tail-end of the excretion process.

Professor Morris advised that the science showed that of the three potential scenarios, the least likely was that the substances had been transferred to the greyhound by it licking Miss Lewis's hands after she had taken her medication. The tiny amounts of active substance that would have adhered to Miss Lewis's hands and the dilution of that amount in the process of the dog ingesting the substances by licking them from her hands meant that this was an extremely unlikely explanation. The next most likely explanation was that a paracetamol and a codeine tablet had been ingested by the greyhound very shortly before the pre-race sample was taken. The most likely explanation was that the greyhound had somehow ingested a paracetamol tablet and a codeine tablet considerably earlier, in the case of the paracetamol tablet within a period of 24 hours before the sample was taken and in the case of the codeine tablet within a period of about two days before it was taken.

The Committee found Miss Lewis to be a convincingly honest witness. In her written statements and oral evidence she had consistently conveyed a real concern for the welfare of her greyhounds. At the same time, there was no evidence suggesting that YES VOTE had been given a stopper before its race on 13 October 2018, which is what the paracetamol and codeine would have been, nor that Miss Lewis had any other motive to administer these substances to YES VOTE in the days before that race.

It is undoubtedly extraordinary that the dog should have had and taken the opportunity to eat two tablets, separately or at the same time, in the periods before the race identified by Professor Morris because those tablets had been accidentally dropped by Miss Lewis and not recovered by her, either because she did not know she had dropped them or because she had not been able to find them.

Nevertheless, the Committee does not find that on the balance of probabilities Miss Lewis knowingly administered these substances or allowed them to be administered to YES VOTE. Accordingly, Miss Lewis

has not breached Rule 174 (j)(a). However, Rules 174 (j)(b) and 217 impose strict liability on a trainer and Miss Lewis was in breach of those rules by being in charge of and racing YES VOTE when norcodeine and paracetamol were detectable in the greyhound. She was necessarily also in breach of Rule 152 (i).

Miss Lewis told the Committee she had not thought that her dogs could get to her medication. She realised that she should have taken more care and was very sorry this had happened. She said she had installed a baby gate so that her greyhounds could not get upstairs when she was not in the house, as well as muzzling the dogs when she was not there. She also muzzled the greyhounds whenever they went out.

The Committee took the view this was a serious lapse by Miss Lewis in her care for her greyhounds and failure to discharge her duties as a trainer to safeguard her greyhounds and to maintain the good reputation of greyhound racing. However, she had shown insight and genuine remorse and had taken reasonable steps to prevent any recurrence of what had happened. The Committee ordered that she receive a reprimand and pay a fine of £200, accompanied by an Advisory Notice to be issued by the Board.

## LOCAL INQUIRY

### 1 Kinsley Stadium – MISS TISS

At a local inquiry held by the Area Stipendiary Steward on 19 March 2019, professional trainer Mr R Harwood was cautioned for a breach of Rule 49(iv) in respect of the improved performance of the greyhound MISS TISH at Kinsley Stadium on 20 January 2019; and his failure to use his best endeavours to ensure that the performance of the greyhound was to the satisfaction of the Stewards.

Opening at 5/2 and starting at 5/4F, the greyhound had won a 462m race recording a calculated time of 28.54 seconds as compared with its best recent time of 29.03 seconds recorded in a trial on 13 January 2019.

### GBGB Veterinary helpline - disease reporting and advice

Trainers and track vets are reminded that a 24-hour GBGB advice and reporting line for greyhounds showing symptoms of respiratory disease is available on **020 7822 0913**. Information for trainers and veterinary surgeons on diseases, biosecurity and disinfection is available at [www.gbgb.org.uk](http://www.gbgb.org.uk) in the Knowledge Base section.

Please note, the above helpline should only be used in the event of reporting suspected disease and/or requesting veterinary advice. **For all general enquiries, please call the GBGB office on 020 7822 0900.**

# Open Races

## General Conditions

Unless otherwise stated the following will apply to all open races advertised in this issue of the Calendar:

- The Standard Conditions of Entry (Rules of Racing, Rule 82) and international Entries and Conditions where applicable (Rule 83).
- Classification Wide Runners – Open Races (Rules of Racing, Rule 79(b)).
- Entries close to the Racing Managers, at the addresses of the stadiums concerned, at the times and on the date shown.
- The draw for traps (and heats, where applicable) is made under Rule 80 by the Secretary of the GBGB, or their appointed representative, as soon as possible after the closing date for entries unless otherwise indicated in the conditions.
- When reference is made in the calendar regarding greyhounds who have not won an open race at the time of closing, it refers to GBGB open races.

## GBGB ARE MOVING OFFICES!

The GBGB will be moving to new offices on Monday 8th April 2019. From this date our new address will be:

**Genesis House, 17 Godliman Street, London EC4V 5BD**

Please be advised that all telephone numbers and email addresses will remain the same.

Our final working day at 6 New Bridge Street will be Friday 5th April 2019.

The new office will be closed on Monday 8th April 2019 to allow for the re-commissioning of IT equipment but will be fully operational as from Tuesday 9th April 2019.
