DISCIPLINARY COMMITTEE INQUIRY

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 5 February and reconvened on 12 March 2019:-

Mr H Starte (in the chair)
Mr R Coughlan
Mr M Elks

HALL GREEN STADIUM – BANGERSAND SPUDS

Before the Disciplinary Committee of the Greyhound Board of Great Britain an inquiry concerning:

- (1) MR JOHN GRENNAN
- (2) MR GARY MORLEY
- (3) MR BARRY MURPHY
- (4) MR IAN ORR
- (5) MR JAKE PARKINSON
- (6) MR RICHARD WHELAN

At the meeting held on 5 February 2019, John Grennan, Ian Orr and Richard Whelan were in attendance. Also, in attendance were Peter Rosney, stipendiary steward, Chris Hufton, Investigating officer, Robert Steward, sampling steward and Tim Morris, independent scientific advisor. Counsel for GBGB was Mr Louis Weston.

At the reconvened meeting held on 12 March 2019, John Grennan, Ian Orr and Richard Whelan participated by telephone.

On 27 January 2017 a urine sample was taken from the greyhound BANGERSAND SPUDS, trained by Professional Trainer Richard Whelan at his then kennels at Chips Farm, Orsmkirk, after it had run in the first race at Hall Green Stadium. On analysis by LGC Health Sciences the sample tested positive for the presence of azaperone and azaperole, a metabolite of azaperone.

On 11 February 2017 a hair sample was taken from BANGERSAND SPUDS at Hall Green Stadium. On analysis by LGC Sciences the sample

tested positive for the presence of azaperone and azaperole.

On 24 March 2017 Stipendiary Steward Peter Rosney, Investigations Officer Chris Hufton, Sampling Steward Robert Steward, and GBGB licensed vet at Belle Vue Stadium Diane Hodson attended at the Chips Farm kennels. Hair samples were taken from nine greyhounds: ASHMOUNT SCOLAR; LEONAS LARK; SKYWALKER STEVIE; DESMOND BEAUTY; DREAM GARDEN; BOYSFROMTHEDALES; ACRABOY KING; MRS MONEY; and TIERNANS JET.

On analysis by LGC Sciences the hair sample from ASHMOUNT SCOLAR tested positive for the presence of azaperone. The hair sample from LEONAS LARK tested positive for the presence of azaperone and azaperole and minoxidil.

Analysis of the hair samples from the other seven greyhounds detected traces of the following substances: in SKYWALKER STEVIE evidence of salicylic acid, trimethoprim and norethisterone; in DESMOND BEAUTY evidence of salicylic acid, cyclizine and norethisterone; in DREAM GARDEN evidence of norethisterone and salicylic acid; in BOYSFROMTHEDALES evidence of norethisterone and caffeine; in ACRABOY KING evidence of norethisterone, salicylic acid and trimethoprim; in MRS MONEY evidence of norethisterone, caffeine salicylic acid and procaine; and in TIERNANS JET evidence of norethisterone and trimethoprim.

Azaperone

The evidence of Independent Scientific Adviser Professor Tim Morris was that azaperone is a veterinary medicine used as a sedative in pigs, but not licensed for use in dogs. Both azaperone and azaperole are substances which by their nature could affect the performance of the greyhound and,

especially in higher doses, prejudice the wellbeing of the greyhound.

The most likely explanation for the presence of the metabolite azaperole in the urine and hair samples was that azaperone had metabolised in the greyhounds.

Professor Morris's evidence was that azaperone was produced in multi-use vials to be administered by injection, although it would be possible to administer it orally. It produced short term sedation lasting 3 to 4 hours, taking effect rapidly and having a strong effect within an hour of administration.

Professor Morris told the Committee the azaperone detected in the urine sample from BANGERSAND SPUDS could have been in the greyhound for no more than a matter of days. To be effective in doping the greyhound, it would need to have been administered an hour, or at least half an hour before the race. It would have been present in the greyhound's urine within an hour of being administered.

Hair samples

Professor Morris told the Committee that the presence of both azaperone and the metabolite azaperole ruled out any possibility that the substance had got into the greyhounds ASHMOUNT SCOLAR and LEONAS LARK by cross-contamination from BANGERSAND SPUDS or any other greyhound. Because the hair samples are ground up to be analysed, the period of time the substance had been in the greyhounds since administration could not be gauged from its location in the hair. It would have remained detectable in the hair for months after it was administered, not improbably for six months and perhaps for as long as a year.

Chips Farm Kennels

The Committee heard that Mr Whelan had moved his licensed kennels from his home address to the larger premises at Chips Farm in June

2016, at the same time upgrading his licence to that of a Professional Trainer. He had asked Mr Morley and his partner Mr Orr to set up and work at the kennels as kennelhands. Mr Murphy, their next door neighbour and an old friend of Mr Whelan and Mr Orr, had begun working as a kennelhand at the kennels about a month after Mr Morley and Mr Orr. Mr Orr had first hired Mr Parkinson in late summer 2016 to paint and tidy up the premises. Shortly after this, Mr Orr had offered him work as a kennelhand. Soon Mr Parkinson was working five days a week at the kennels, staying with Mr Orr and Mr Morley so that he could travel with them to work.

Mr Whelan told the committee that although he was the licensed trainer, he had not been much involved in running the kennels. He had with dealt the money side of the business, receiving prize money and billing owners. When he visited the kennels, he had sometimes checked the medicine cabinet and looked through the treatment book. Away from the kennels, he had discussed the dogs' performances with the kennelhands, and had been very happy with them. But he only went to the kennels about once every two to three weeks. He had no supervisory role at the kennels. He had trusted the kennelhands and had basically just left them to do everything.

The evidence was that Mr Morley and Mr Orr worked at the kennels 4 or 5 days a week and sometimes more. Mr Murphy, a very experienced kennelhand, worked two days a week, usually with Mr Parkinson on Wednesdays and Sundays. Mr Parkinson always worked under the instruction of Mr Morley, Mr Orr or Mr Murphy. Mr Morley was the Senior Kennelhand, but in practice there was no "boss": he and Mr Orr and Mr Murphy ran the kennels together, supervising Mr Parkinson. All four took the greyhounds to races at Hall Green; usually Mr Morley and Mr Orr on Wednesdays and Saturdays and Mr Parkinson and Mr Murphy on Mondays.

Mr Grennan was an owner who kennelled greyhounds at Chips Farm Kennels, including ASHMOUNT SCOLAR, on the basis that he paid no fees, but the kennel kept all prize money. He occasionally subsidised the business with payments to meet the wages bill if these costs were not covered by the kennel's receipts and on one occasion paid about £600 to buy food for the greyhounds.

He became a licensed kennelhand on 9 January 2017 after Mr Morley asked him to so that he could take the greyhounds racing at Hall Green with Mr Parkinson, who did not drive. Before that, he had visited his greyhounds at the kennels 4 or 5 times. From December 2016 he had worked unpaid at the kennels on two occasions, covering when Mr Morley and Mr Orr were absent. Otherwise, his involvement had been to take greyhounds to Hall Green Stadium with Mr Parkinson, which he did on three or four occasions.

On the evidence the Committee was satisfied that, while Mr Whelan was nominally the Professional Trainer at Chips Farm Kennels, he had in fact delegated all responsibility for the day to day running of the kennels and the care of the greyhounds to the team of Mr Morley, Mr Orr and Mr Murphy. However experienced and capable he may have believed that team to be, that was a reckless and wholly unacceptable abnegation by Mr Whelan of his obligations and responsibilities as the licensed trainer. As for the team, the Committee found that by choosing to be the effective trainer at Chips Farm Kennels, Mr Morley, Mr Orr and Mr Murphy each assumed that role's obligations and responsibilities and were, for the purposes of the Rules of Racing, in charge of the greyhounds at the kennels at all times just as Mr Whelan was. The Committee finds that Mr Parkinson and Mr Grennan were not part of the team acting as trainer at the kennels. They were in charge of any greyhound only to the extent that it was in their care in the course of their work as kennelhands, at the kennels or elsewhere.

BANGERSAND SPUDS 27 January 2017 urine sample

On 17 January 2017 Mr Grennan and Mr Parkinson set off between 1.30pm and 2pm from Chips Farm with about 10 greyhounds in the kennel's van, arriving at Hall Green Stadium about 6pm. Mr Grennan kennelled 3 or 4 dogs, while Mr Parkinson kennelled the rest. Mr Grennan told the Committee that was the end of his involvement with the kennels' dogs that evening: he just watched the racing until it was time to drive the van back to Chips Farm.

BANGERSAND SPUDS' kennel was unlocked for the 7.35pm first race by Hall Green Stadium paddock steward Hannah Smith. Mr Parkinson removed the dog and paraded it prior to the race. Following the race he returned it to the paddock, rinsed it

off and then waited for Ms Smith to unlock its kennel. Mr Parkinson put BANGERSAND SPUDS back in the kennel and Ms Smith locked it.

In his statement to the local inquiry Mr Parkinson said that when he was sitting on a wall outside the paddock watching the dogs parade for the third race, Ms Smith had said she was going to have to lock the kennel back up for the runner from the first race because it was being tested. Mr Parkinson said what she meant by this was that she would have to lock BANGERSAND SPUDS' kennel because, as he claimed was the practice at Hall Green Stadium, greyhounds' kennels were unlocked about 15 minutes after they had raced so that kennelhands could remove them to their vans. But no one had, to his knowledge, opened BANGERSAND SPUDS kennel after the race when it was not locked before he had taken the greyhound from its locked kennel for sampling.

In her statement to the local inquiry Ms Smith said she followed the normal procedure with BANGERSAND SPUDS. It was taken by Mr Parkinson from a locked kennel for the first race, at which point the kennel was locked. The kennel was unlocked when the kennelhand brought the dog back after the race. The dog was put in the kennel by the kennelhand which was then locked by her. It would have then remained locked until after the third race, when all the kennels of the runners in the first race would have been unlocked so that the greyhounds could be removed to travel home or transfer to a trainer's vehicle.

Ms Smith said that earlier she had noticed that, after sampling dogs from the pre-race trials, sampling steward Robert Steward had left the stadium before the first race. She remembered that at some point after the first race Mr Steward had returned and, in the paddock, had told her that he wanted to test all the greyhounds in the first race. She had checked that these kennels were still locked, since she would not have allowed the tests if a kennel had been unlocked. She found all the kennels were locked.

Mr Steward told the Committee he had intended travelling to Perry Barr Stadium to take samples there after taking samples from the pre-race trials at Hall Green Stadium. However, while travelling to Hall Green Stadium for the trials he had received a call saying samples were

required from the runners in the first race. After obtaining samples from eight greyhounds in the trials, he had left the stadium to go to a local McDonald's fast food restaurant. The first race had just finished when he arrived back at 7.38pm. In the paddock, he watched all five greyhounds going back to the kennels. He then told Ms Smith that he intended to take samples from all five greyhounds. Ms Smith had gone and double-checked that the kennels were locked. He had started the sampling procedure at 8.11pm and received BANGERSAND SPUDS' sample from Mr Parkinson at 8.44pm.

BANGERSAND SPUDS 11 February 2017 hair sample

In light of the evidence of Professor Morris as to the length of time a hair sample would test positive after an administration of azaperone, the Committee concluded that on the balance of probabilities the hair sample obtained from BANGERSAND SPUDS at Hall Green Stadium on 11 February 2017 tested positive from the same administration as resulted in the urine sample taken on 27 January 2017 testing positive.

The 24 January inspection and sampling at Chips Farm Kennels

When officers of the GBGB visited Chips Farm Kennels on 24 March 2017, Investigations Officer Chris Hufton inspected the medicine cabinet which was in a food preparation area and also looked in a wall cupboard in a small adjacent room. He found two packets of 220mg Quinine Sulphate tablets on a shelf in the cupboard. Vet Diane Hodson told him the tablets were banned, should not be used and were dangerous. He had seized them. The two boxes, each containing two sheets of tablets from which none had been removed, were produced to the Committee.

Professor Morris advised that quinine sulphate was used to treat malaria and night cramps in humans. He was aware of anecdotal reports of it being used to treat post-exercise cramps in greyhounds. In theory it might be prescribed by a vet for use in an animal on the basis that there was no suitable veterinary medicine authorised in the UK to treat a condition. But these tablets had not been dispensed on prescription: there was no dispensary label on either box.

Mr Orr told the Committee that he had known the boxes of quinine sulphate tablets were in

the cupboard. Along with some co-codamol tablets, flea powder and junk, they had been left in the cupboard by the kennel's previous occupier. He said he knew from working on the flapping tracks that quinine was used as a sedative. But they had not used the cupboard and he had just not thought to throw it away.

When Mr Hufton inspected the kennels' medicine cabinet, he found 7 packets each containing 21 Amoxicillin 500mg capsules as well as unboxed sheets of the same capsules. Vet Diane Hodson had observed that these were prescription antibiotics but without any dispensary labelling, indicating they had not been prescribed. Professor Morris confirmed from photographs of the boxes and unboxed sheets that these were a preparation of amoxicillin for human use, which would be unlikely to be prescribed by a vet.

Mr Hufton also found in the medicine cabinet 195 norethisterone tablets in unboxed sheets. Vet Diane Hodson had observed that these were prescription contraceptive drugs used to suppress oestrus in bitches and that the quantity of tablets indicated that, like the amoxicillin, they had not been prescribed. Professor Morris confirmed that this was a drug for use in humans that had to be prescribed for veterinary use with appropriate dispensary labelling. The quantity of tablets indicated that these had not been prescribed.

Mr Orr told the Committee that he had obtained the amoxicillin and norethisterone in October 2016 from a vet whose name he could not remember who had run neighbouring kennels. He had told her he wanted the antibiotic to treat coughing in 9 puppies and in adult dogs. He had paid for the drugs with cash. He said she had not put any labelling on the boxes.

The kennel Treatment Book, which Mr Orr said he had kept, had no entries for treatment with norethisterone after September 2016. All previous entries were for norethisterone signed as prescribed by the Swinfen Vet Centre. The only entries for treatment with amoxicillin were on 14, 15 and 16 February 2017. Where the signature and printed name of the prescribing vet should have been, Mr Orr had put his signature.

On the detection of norethisterone in hair samples taken on 24 March

2017, Professor Morris observed that, while it is a permitted medication to suppress oestrus in bitches, it had been found in the hair of three male dogs. It was extremely unlikely that this was the result of cross-contamination from the urine of bitches.

Other substances detected in the 24 March 2017 samples

Prof Morris said that minoxidil, for which LEONAS LARK tested positive, is a human medication for hair loss. It has no therapeutic use in greyhounds but is used as a doping agent because it is seen as a stimulant that increases heart rate.

Professor Morris said that trimethoprim, detected in three greyhounds, is a permitted anti-bacterial if prescribed. No treatment with this substance featured in the Treatment Book. Salicylic acid, detected in five dogs, is an anti-inflammatory related to aspirin, available over the counter as tablets or in a topical gel available from a vet, pharmacist or suitably qualified person, who might be a Professional Greyhound Trainer. Again, no such treatment featured in the Treatment Book.

Professor Morris said that caffeine, which was detected with norethisterone in a male dog, has no therapeutic use and is a classic doping stimulant in greyhound racing. Procaine, detected with caffeine and salicylic acid and norethisterone in a bitch, is a prescription drug used as a local anaesthetic or as part of procaine penicillin. No such treatment featured in the Treatment Book.

Professor Morris said cyclizine is an antihistamine used to treat travel sickness or hay fever in humans. It could be prescribed as a medication for dogs. No such treatment featured in the Treatment Book. There had been studies conducted by the GBGB into its use as a doping agent. Sildenafil is a human medication used to treat erectile dysfunction. It is a stimulant which has no therapeutic use in greyhounds, said Professor Morris, but which was used as a doping agent.

The Committee did not accept Mr Orr's explanation for the presence of the quinine sulphate tablets found on 24 March 2017, nor his explanation for how or why the amoxicillin and norethisterone capsules and tablets were obtained and used by those running Chips Farm Kennels. The combination of these discoveries at the kennels, the positive tests on

BANGERSAND SPUDS, ASHMOUNT SCOLAR and LEONAS LARK and the detection of the range of substances in the seven other greyhounds sampled on 24 March 2017 forced the Committee to conclude that the regime at the kennels was one in which the abuse of prescription medicines and doping substances was frequent, if not routine.

Administration of azaperone to BANGERSAND SPUDS

The arraigned parties have said that they were not involved in azaperone being administered to BANGERSAND SPUDS. Their explanation for the administration was that it must have been carried out at HALL GREEN STADIUM by some malicious person after the greyhound raced. Mr Orr told the Committee that there were people, who he could not identify, who were "somewhat jealous" of the success that Chips Farm Kennels had been having.

The Committee was satisfied that this was not the explanation. The Committee unhesitatingly accepted the evidence of Mr Steward and Ms Smith as to how BANGERSAND SPUDS was returned by Mr Parkinson after racing to a kennel that was locked and not unlocked until Mr Parkinson took the greyhound from that kennel to produce a urine sample. There was no realistic opportunity for a malicious person to administer azaperone to BANGERSAND SPUDS, whether by injection or orally.

On the evidence the Committee was satisfied that azaperone could not have been administered to BANGERSAND SPUDS on 17 January 2017 without that administration being caused or connived in by the team running Chips Farm Kennels, namely Mr Morley, Mr Orr and Mr Murphy. They were thereby in breach of Rule 174 (i) (a). As de facto Trainers, they were also in breach of Rule 217, having failed to ensure that the greyhound was free from a substance that could affect its performance or wellbeing.

Mr Whelan's admitted conduct in these matters had been deplorable but, albeit with considerable reservations, the Committee was not satisfied that it was more likely that he was party to the team's doping activities than that his reckless trust in them was betrayed. The Committee did not find Mr Whelan in breach of Rule 174 (i) (a) in respect of the administration to BANGERSAND SPUDS. As the

registered Professional Trainer, he was in breach of Rule 174 (i) (b), which imposes strict liability. Mr Whelan was also in breach of Rule 217, having failed to ensure that the greyhound was free from a substance that could affect its performance or wellbeing.

The administration to BANGERSAND SPUDS must have been carried out by Mr Parkinson or Mr Grennan, either in collusion or by one without the knowledge of the other. On the evidence, the Committee did not find that Mr Grennan was aware of or party to the misuse of prescription medicines and abuse of doping substances at Chips Farm Kennels. The Committee is not satisfied that he more likely than not either perpetrated or knew about the administration to BANGERSAND SPUDS. As Mr Grennan accepted before the Committee, BANGERSAND SPUDS was in his charge as a kennelhand at Hall Green Stadium on 17 January 2017. Rule 174 (i) (b) imposes strict liability and Mr Grennan was accordingly in breach of the Rule. The Committee concluded that on the balance of probabilities the administration of Azaperone was carried out by Mr Parkinson whilst BANGERSAND SPUDS was in his sole charge. He was therefore in breach of Rules 174 (i) (a) and 217 of the Rules of Racing.

Administration of azaperone to ASHMOUNT SCOLAR and azaperone and minoxidil to LEONAS LARK

On the evidence the Committee was satisfied that azaperone could not have been administered to ASHMOUNT SCOLAR and LEONAS LARK and minoxidil could not have been administered to LEONAS LARK without that administration being caused or connived in by the team running Chips Farm Kennels, namely Mr Morley, Mr Orr and Mr Murphy. They were thereby in breach of Rule 174 (i) (a).

As regards Mr Whelan, on the basis that it was not satisfied that it was more likely than not that he was party to the team's doping activities, the Committee does not find Mr Whelan in breach of Rule 174 (i) (a) in respect of the administrations of azaperone to ASHMOUNT SCOLAR and LEONAS LARK and minoxidil to LEONAS LARK. As the registered Professional Trainer, he was in breach of Rule 174 (i) (b).

ASHMOUNT SCOLAR entered Chips Farm Kennels on 3 July 2016.

LEONAS LARK entered on 15 July 2016. Both greyhounds were in Mr Parkinson's charge when he worked as kennelhand at Chips Farm Kennels from around October 2016. By 17 January 2017 Mr Parkinson was undoubtedly party to the doping activities of the team running the kennels. But the date on which azaperone was administered to either ASHMOUNT SCOLAR or LEONAS LARK and on which minoxidil was administered to LEONAS LARK had not been established. It may have been before Mr Parkinson started work as a kennelhand. It may have been before Mr Parkinson became party to and involved with the activities of those supervising him. In these circumstances, the Committee did not find Mr Parkinson in breach of Rule 174 (i) (a). The strict liability imposed by Rule 174 (i) (b) put him in breach of that rule.

Mr Grennan worked as a kennelhand from 9 January 2017. His evidence was that he then worked at the kennels on two occasions in addition to taking greyhounds to run at Hall Green Stadium on 4 or 5 occasions. It is probable that both ASHMOUNT SCOLAR and LEONAS LARK were in his charge on one or more of these occasions, to which extent he was in breach of Rule 174 (i) (b) in respect of those greyhounds.

Rule 216

The Board pursues a charge of breach of Rule 216 only against Mr Whelan. It does not assert that Mr Morley, Mr Orr or Mr Murphy are to be treated as the Trainer for the purposes of the Rule. On the evidence concerning medications found at Chips Farm Kennels and detected in the hair samples taken on 24 March 2017, medications were administered to greyhounds at Chips Farm Kennels without any record or adequate record of those treatments being made in the Treatment Book. This was a very serious breach by Mr Whelan of Rule 216.

Rule 152 (i) and (ii)

By virtue of their aforementioned breaches of the Rules of Racing, all the arraigned parties were in breach of Rule 152 (i).

The actions of Mr Morley, Mr Murphy, Mr Orr and Mr Parkinson as kennelhands at Chips Farm Kennels revealed by this inquiry, and particularly their conduct in doping greyhounds in their charge and abusing prescription medicines, was conduct seriously prejudicial to the integrity, proper conduct and good

reputation of Greyhound racing, constituting the most serious breach of Rule 152 (ii).

At best, by his actions and inaction as the licensed Trainer at Chips Farm Kennels, Mr Whelan completely abrogated his responsibilities to the greyhounds in his care and for the proper conduct of greyhound racing. He exercised no supervisory control, instead recklessly and disgracefully putting the care, training and racing of greyhounds in his charge in the hands of Mr Morley, Mr Orr and Mr Murphy, with disastrous results. By this conduct as Trainer, he too acted in a way seriously prejudicial to the integrity, proper conduct and good reputation of Greyhound racing, constituting an extremely serious breach of Rule 152 (ii).

Having regard to the findings set out above in relation to all the arraigned parties, the Committee did not find any of them to be in breach of Rule 174 (i) (xiii), which prohibits aiding and abetting the commission of any breach of the Rules of Racing.
