### OPERATIONS AND DEVELOPMENT COORDINATOR

**FULL TIME: HORLEY, SURREY**

**Job Role:**

The Greyhound Trust National Support Centre is offering a fantastic opportunity for a talented individual to join us as one of our Operations and Development Coordinators.

This is an exciting new role, pivotal to the growth of the organisation, therefore right at the heart of developing new ways of working; this role is essential to the success of Branch homing operations.

## GBGB LAUNCHES NEW WELFARE HOTLINE

The Greyhound Board of Great Britain (GBGB) has launched a new Welfare Hotline for anyone concerned about the welfare of registered racing greyhounds to report information anonymously. The aim of the Hotline is to further uphold the welfare of licensed greyhounds and the integrity of the sport.

Callers to the hotline can report any information about any possible wrongdoing in strictest confidence via a mailbox which can be reached on **020 7822 0917**. The mailbox is open 24 hours a day, seven days a week.

Callers are asked to provide as much detail as possible but they are not required to offer any information which may reveal their identity should they not wish it to be known.

All information provided through the Hotline will be collated by an Investigator and passed onto the GBGB's Welfare and Integrity Team who will take the appropriate action.

Paul Illingworth, GBGB Senior Stipendiary Steward, said:

*"We are pleased to have the new Welfare Hotline up and running. It is another positive measure to protect the welfare of registered greyhounds and ensure that no breach of the Rules of Racing goes unnoticed."*

*"Whilst we already investigate any information that is given to us, this confidential process will mean that no one should feel unable to come forward and speak up on any matter which affects the welfare of registered greyhounds or which damages the integrity of our sport."*

## HYDRATION OF GREYHOUNDS

GBGB would like to remind all trainers and racecourses that it is both a legal and GBGB requirement that greyhounds have unrestricted access to clean drinking water at all times. Dehydration in a greyhound is a contributory factor for under performance, cramping and can cause elevated potassium levels in blood which can increase the risk of heart failure. Dehydration is easily avoidable, and the following advice should always be followed – ignoring this advice shall result in disciplinary action being taken.

### **At the racecourse**

The racecourse shall ensure that clean drinking water is always available in the paddock area, while clean drinking vessels should be supplied by either the trainer or the racecourse. A suitable quantity of water (min 500ml) shall be placed with the greyhound in its race kennel following its veterinary inspection. There shall be no dispensation to this rule.

Should a greyhound require muzzling when in the race kennel, the trainer shall ensure that the muzzle and water vessel is of a type that does not restrict the greyhound from taking water.

Following its race, each greyhound shall be given the opportunity to take clean drinking water upon returning to the paddock and a suitable quantity of water shall be placed in the kennel with the greyhound when returning to its race kennel.

### **Residential Kennels**

Greyhounds shall have free and continuous access to fresh water within their individual kennels. The sharing of drinking receptacles outside of the individual kennel unit should be avoided to reduce the risk of spreading disease. Individual water vessels should be cleaned daily with an appropriate disinfectant before being re-used.

Trainers can apply for GBGB assistance funding towards the cost of providing suitable water bowl holders through the GBGB Trainers Assistance Fund and should contact their stipendiary steward for an application form.

### **Transport**

When transporting greyhounds, the trainer shall ensure that water is made available to each greyhound prior to commencing the journey and an adequate supply of water is available in case of emergency. For journeys longer than 3 hours, or when the temperature is above 20°C, then a watering stop must be scheduled into the journey.

## IMPORTANT NOTICES

The Greyhound Board of Great Britain will receive complaints in confidence from anyone concerned about a possible breach of the Rules of Racing.

Send emails to [complaints@gbgb.org.uk](mailto:complaints@gbgb.org.uk) or call the GBGB office on **020 7822 0900**. Alternatively, write to:

The Greyhound Board of Great Britain Ltd,  
Genesis House, 17 Godliman Street, London EC4V 5BD

The Disciplinary Committee wish to advise those appearing before them as "the affected person" that the Disciplinary Committee has the discretion to take account of any previous breaches of the rule(s) of racing which they consider are relevant to a case being heard before them irrespective of the date of commission of the breach.

### DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 9 April 2019:-

Mr R Woodworth CBE (in the chair)  
Mr R Coughlan  
Mr H Starte

#### 1 **Henlow Stadium - FINE FOR SOME - Professional Trainer Mr J Ray**

Professional Trainer Jason Ray was found in breach of rules 152 (i) and 217 (ii) of the GBGB Rules of Racing in that a urine sample taken from the greyhound FINE FOR SOME at Henlow Stadium on 26 October 2018 was analysed by LGC Health Sciences as containing the presence of tetramisole.

Mr Ray was in attendance. James Chalkley, racing manager of Henlow Stadium, Paul Illingworth, senior stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

Having considered Professor Morris's report, the Inquiry opened with the Committee considering whether Mr Ray could be considered in principle, to be in breach of rule 217 when on the face of it FINE FOR SOME could be said to have been "free of any substance that could affect its performance or wellbeing" when racing on 26 October 2018. However, the Committee accepted Professor Morris's oral evidence that at certain levels tetramisole, whether occurring as a meat contaminant or as a yet unidentified and unlicensed greyhound wormer, could affect a greyhound's performance or wellbeing.

Mr Ray, whose presence the Committee found helpful, told the Committee that he largely used Panacur Plus®, but did confirm that he also purchased other medicines and worming agents on his regular trips to Ireland the use of which were not prescribed by his veterinary

surgeon. He also accepted that on a kennel inspection of his previous kennels in September 2018, he had been warned about the presence of needles and unlicensed drugs in the kennels cupboard.

Professor Morris told the Committee that Panacur Plus® was not a veterinary medicine licensed for use in the UK or in Ireland. However, it did not contain tetramisole. Professor Morris stated that it was possible that the positive sample for tetramisole resulted from contaminated meat purchased by Mr Ray. Despite his protestations that he believed he was purchasing Category 3 meat; the Committee were unconvinced. However, they noted that he no longer feeds meat to his greyhounds.

There was no unusual betting activity concerning the race won by FINE FOR SOME on 26 October 2018.

The Committee concluded that the positive sample resulted either from contaminated meat or the use of an unlicensed wormer containing tetramisole or levamisole. They found Mr Ray in breach of the previously admitted rules 152 (i) and 217 (ii) of the GBGB Rules of Racing and cautioned him while imposing a fine of £200.

#### 2 **Henlow Stadium - BARSTOOL TRAINER - Professional Trainer Mrs C Weatherall**

Professional Trainer Carol Weatherall was found in breach of rules 152 (i), 174 (i)(b), and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound BARSTOOL TRAINER at Henlow Stadium on 21 October 2018 was analysed by LGC Health Sciences as containing the presence of metabolites of norethisterone and that she had in her charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mrs Weatherall was in attendance by telephone. James Chalkley, racing manager of Henlow Stadium, Paul Illingworth, senior stipendiary steward, and Professor Tim Morris, independent scientific adviser, were also in attendance.

The Disciplinary Committee heard evidence from Professor Tim Morris, independent scientific adviser, to the effect that norethisterone, also known as 19-norethisterone, is an authorised human medicine which may be used by greyhound veterinarians under the prescribing cascade to provide long-term suppression of oestrus. It is in the opinion of Professor Morris, a substance which by its nature could affect the performance or prejudice the wellbeing of a greyhound.

On 21 October 2018, Mrs Weatherall's greyhound had won a semi-final of the Henlow Derby in very fast time but had given a positive sample for norethisterone. Both Mr Chalkley, racing manager of Henlow, and Paul Illingworth, senior stipendiary steward, believed that the dog's improved time was within reasonable limits given the dog's age and the Committee noted that there was no unusual betting activity on the race in question.

Mrs Weatherall outlined at length the feeding regime for her dogs and bitches designed to segregate them but could only conclude that BARSTOOL TRAINER had eaten food vomited by his kennel companion BODERAN DAISY (who was suppressed with norethisterone) after she returned to the kennel from the paddock where she had been fed with food containing a ½ norethisterone tablet.

The Board accepted Mrs Weatherall's explanation and did not contend that there had been a deliberate administration in this case. Professor Morris concurred that "the science" was consistent with her explanation.

The Committee considered Mrs Weatherall to have taken all reasonable measures to attempt to ensure that norethisterone could not be accidentally given to one of her dogs but on this occasion an accidental ingestion had occurred.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. However, in all the circumstances of the case, they decided to take no further action.

### 3 Hove Stadium – SKIPS BREW – Owner Trainer Mrs T Martret

Owner Trainer Tracy Martret was found in breach of rules 152 (i), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound SKIPS BREW at Hove Stadium on 27 December 2018 was analysed by LGC Health Sciences as containing the presence of theobromine, and that she had in her charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mrs Martret apologised for her non-attendance as did Jeff Piper, racing manager of Hove Stadium. Paul Illingworth, senior stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

Unfortunately, Mrs Martret was not available to the Committee in person or by telephone.

The Disciplinary Committee heard evidence from Professor Tim Morris, independent scientific adviser, to the effect that theobromine was not available as a veterinary or human medicine, although it was used in the past. It is a member of a group of related chemical compound known as methylxanthines which includes caffeine as well as theobromine. Theobromine affects dogs as it does other animals and people, dilating the airways, stimulating the heart and acting as a diuretic. The main source of exposure is dietary, with chocolate and other cocoa products as the main sources of theobromine, and it can also be found in small quantities in tea. Theobromine can cause serious toxic effects in dogs. It is the opinion of Professor Morris that theobromine as a stimulant of the heart, and an airway relaxant, is a substance which by its nature could affect the performance of the greyhound or could, with its toxic

effects, prejudice the wellbeing of a greyhound.

SKIPS BREW had been a well beaten last in a novice-stayers race over 685 meters at Hove Stadium on 27 December 2018 despite starting as a 5/4 JF and had earlier given a sample which proved positive for theobromine.

There was no unusual betting activity on the race.

Mrs Martret's explanation was that SKIPS BREW (which was kennelled within Mrs Martret's house within the terms of her owner trainer's licence) had consumed a number of mint chocolate biscuits from a tin opened by her young daughter in the living room while Mrs Martret was in the kitchen. She was unaware of this at the time but had been surprised when the dog's faeces the following day had included a biscuit wrapper. She had also been surprised that the dog's weight had increased by 1 kg for the race in question. The GRB accepted Mrs Martret's explanation which was consistent with Professor Morris's evidence and did not contend that there had been any deliberate administration in this case.

The Committee noted that Mrs Martret accepted full responsibility and SKIPS BREW had now been put in the care of a professional trainer.

The Board had made clear in the Calendar that chocolate was potentially dangerous to dogs and owner trainers had had stressed to them that dogs kennelled in their houses had to be kept apart from medicines, chocolate, tea etc.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In this case the Committee thought the appropriate sanction was a reprimand.
