Reporting to the Senior Stipendiary Steward, duties will include:

- Upholding the GBGB's Rules of Racing in matters relating directly and indirectly to greyhound welfare.
- Ensuring that inspection reports of kennels and racecourses are undertaken on a regular basis.
- Conducting an annual inspection audit of racecourses, in line with UKAS accredited scheme.
- Investigating cases and contributing to the prosecution process in accordance with the Rules of Racing.

The ideal candidate will be a fast learner, confident, resilient, work well under pressure and possess the ability to tackle issues head on. A working knowledge of animal welfare legislation is highly desirable, as is experience of report writing.

Candidates must be able to demonstrate a very high standard of professional integrity and have had proven experience working in, or alongside kennels (particularly conducting inspections). Knowledge and/or a strong interest in greyhound racing is also essential. Candidates who have worked in a regulatory background or have had experience of working within a similar role will also be considered.

Familiarity of the Rules of Racing, auditing and inspection principles and conducting investigations would be a distinct advantage, although training will be provided.

The position will largely involve lone working and therefore candidates must be able to work unsupervised and hold a clean and valid driving licence. (This role will include a high volume of driving.)

Candidates will ideally live in the Birmingham/Walsall area.

## **GBGB NOTICE FOR TRAINERS/VETERINARY SURGEONS: REDUCING THE RISK OF RACE DAY POSITIVE SAMPLES**

**GBGB is concerned with the increasing number of positive samples resulting from cross-contamination, the use of unlicensed veterinary products, an over use of supplements, and the exposure of greyhounds to recreational drugs. The following advice should be closely followed to minimise the risk of contamination and exposing greyhounds to prohibited substances.**

**Guidelines for the Responsible Use of Medicines** form part of the GBGB Rules of Racing (Rules 214 – 217) and trainers and staff should make themselves familiar with these rules. It is equally important that any veterinary surgeon prescribing medication to a greyhound is also familiar with Rule 216 (Treatment Book) and 217 (Administration of medicaments to Greyhounds).

**‘Cross contamination’** risk can be reduced by recognising what might contain a prohibited substance and adopting a common-sense approach to controlling your dogs’ exposure to it. Smoking, eating or drinking near greyhounds can expose them to prohibited substances such as caffeine or theobromine. Human use of medication can cause a problem – trainers need to make their staff aware of how easily residues can be transferred and should take appropriate steps, such as wearing gloves when feeding or handling dogs if they are taking medication. The use of **inhalers** for medications such as salbutamol, salmeterol, formoterol and vilanterol to treat asthma or lung conditions **should not** be used around greyhounds, as aerosolised medication increases the risk of cross contamination. Where dogs are medicated, extra care should be taken to prevent crossover of medicines between dogs kenneled together. Medicines must be stored and used in accordance with VMD (Veterinary Medicines Directorate) and GBGB Guidelines and their use must be recorded as per Rule 216; See:

<https://www.gov.uk/government/collections/veterinary-medicines-guidance-notes-vmgns#using-medicines>

<http://www.gbgb.org.uk/uploads/pdf/Trainers%20Guide%20to%20Medication%20Control%20in%20Greyhounds%202014.pdf>

Use of recreational drugs by staff can cause similar problems. The GBGB take all findings of drugs of abuse very seriously. Trainers should take precautions to avoid any exposure and the government has provided useful advice: <http://www.hse.gov.uk/pubns/indg91.pdf>

**Withdrawal Time** – the GBGB Rules of Racing (Rule 217) imposes Strict Liability on Trainers to ensure that “all greyhounds are free of any substance or medication

*Continued overleaf*

that could affect its performance or well-being the origin of which cannot be traced to normal and ordinary feeding” when they are presented to race or trial.

The exceptions to the Rule are approved medicinal products for the suppression of oestrus, vaccines and anti-parasitic drugs licensed for use in dogs by the VMD and substances included in the GBGB list of Permitted Treatments.

The Rules specify a *minimum* mandatory 7-day period between administration of medicine and a race or trial. Certain medicines may persist for longer such as some long acting or depot preparations and veterinary advice should be sought if these are prescribed for use. Specifically, meloxicam may persist for up to 25 days and should be avoided in dogs intended to race or trial within this timeframe.

**Supplements** can be an unintentional source of a prohibited substance. Care should be taken in their use – a significant proportion are not subject to quality control and the composition of their contents cannot always be relied upon. If multiple supplements are given, their ingredients can add up to exceed ‘threshold’ levels of substances normally found in the body, because these elevated levels then become prohibited. Human and equine supplements and herbal products are not recommended for use in dogs as their safety cannot be guaranteed.

**Use of any unlicensed veterinary product** is illegal, as is use of human medicines in animals, without a veterinary prescription, and not permitted under the Rules of Racing regardless of the claims made on the product. Internet availability of these products is putting trainers at risk because accurate advice is not usually available; your veterinary surgeon can advise on what is licensed for use in greyhounds in the UK and what is not. As with supplements, use of many unlicensed products increases risk of a ‘positive’ because they are very often not subject to quality control.

Only medicines licensed by the VMD for use in dogs may be used, and if *any* other medicines are used they must be used only under the prescription of a veterinary surgeon.

**Day of race administration** of, or exposure to, a prohibited substance is not permissible under the Rules of Racing and will increase the risk of a race day ‘positive’.

**Elective testing** is an option if you have a concern about a specific substance in a specific greyhound which is entered to run.

You can contact GBGB for advice on **020 7822 0900** or visit GBGB’s website (**www.gbgb.org.uk**) for further details.

The GBGB wishes to thank the Irish Horseracing Regulatory Board for their support and collaboration in providing International Harmonisation of Doping and Medication Advice.

### DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 16 April 2019:-

Dr AJ Higgins (in the chair)  
Mr M Elks  
Mr K Salmon

#### 1 **Pelaw Grange Stadium – BALLYMAC SOFTTOP – Greyhound Trainer Mr I Page**

Greyhound Trainer Ian Page was found in breach of rules 152 (i), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound BALLYMAC SOFTTOP at Pelaw Grange Stadium on 27 October 2018 was analysed by LGC Health Sciences as containing the presence of ketoprofen and a metabolite of ketoprofen, and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mr Page was in attendance for part of the hearing by telephone. David Gray, racing manager of Pelaw Grange Stadium, apologised for his non-attendance. Dave Baldwin, stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

On behalf of GRB, Mr Gibson said that the Board would not pursue a breach of rule 174 (i)(a). A Local Inquiry had been held on 1 December 2018 following the testing of a post-race sample from BALLYMAC SOFTTOP at Pelaw Grange following a 435m A4 flat race in which the greyhound came first by 2 lengths at a SP of 9/4. The GBGB's Betting Investigator said that there were no irregular betting patterns and in his opinion the dog's form was consistent.

Scientific evidence was given that ketoprofen is a non-steroidal anti-inflammatory drug used to relieve

pain and inflammation in animals and humans. It is available in a range of tablet, injectable and gel veterinary and medical formulations and also has the potential to induce severe adverse reactions. As such, ketoprofen is a substance which by its nature could affect the performance of a greyhound or prejudice its wellbeing. The treatment book showed no record of the use of ketoprofen.

In his evidence, Mr Page stated that he used meat for human consumption purchased from local supermarkets and occasionally from a third-party supplier that he believed was Category 3 meat and was not stained but he had no receipts. It was however his belief that he had been feeding meat purchased from the supermarket at the time of the race.

Professor Morris gave evidence that the European Agency for the Evaluation of Medicinal Products had ruled that ketoprofen does not present any risk to consumers as it is rapidly and extensively detoxified and as such there was no food safety Maximum Residue Limit as was usual with other similar drugs. It was therefore possible that meat containing very low levels of ketoprofen can legally enter the supply chain for human consumption or via Category 3 Animal By Products and the drug could then be detected in greyhounds fed such meat probably because of the higher sensitivity used in anti-doping laboratories. On behalf of GRB, Mr Gibson said he accepted in this case that feed contamination was the most likely source of the ketoprofen.

Mr Page expressed regret and concern at the finding and said that he was no longer feeding red meat. He accepted that he had been reckless in buying meat from an unknown source even though it was not clear whether that meat or the meat purchased from the

supermarket had been the source of the ketoprofen.

The Committee found Mr Page to be a credible witness and noted that GBGB had initiated administration studies aimed at providing a screening limit for ketoprofen. Nevertheless, the Committee felt that Mr Page had been reckless in purchasing meat from an unknown source and having no receipts although considered that he had learned from his mistake.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Disciplinary Committee ordered that Mr Page be cautioned.

#### 2 **Sheffield Stadium – GEELO MONTY – Professional Trainer Mr C Perry**

Professional Trainer Carl Perry was found in breach of rules 152 (i), 174 (i)(b) and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound GEELO MONTY at Sheffield Stadium on 11 December 2018 was analysed by LGC Health Sciences as containing the presence of salbutamol, and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mr Perry was in attendance. David Perry, authorised representative of Sheffield Stadium, Dave Baldwin, stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

On behalf of GRB, Mr Gibson said that the Board would not pursue a breach of rule 174 (i)(a). A Local Inquiry had been held on 29 January 2019 following the testing of a sample from GEELO MONTY at Sheffield at the GBGB British Bred Derby Final. This had been a 500m Flat race in which GEELO MONTY

came first by half a length at a SP of 5/2. The GBGB's Betting Investigator said that there were no irregular betting patterns and in his opinion the dog's form was highly consistent. Mr Gibson said that under rule 173(ii) the dog had been disqualified at the point of the competition it had produced a positive result, and the winnings forfeited as per rule 95.

Scientific evidence was given that salbutamol is a prescription only medicine commonly used, usually as an inhaler, in humans for the symptomatic relief of respiratory obstruction. There is no veterinary preparation of salbutamol, but it has been prescribed for use in dogs. Salbutamol affects dogs as humans by dilating the airways and raising the heart rate. As such, salbutamol is a substance which by its nature could affect the performance of a greyhound or prejudice its wellbeing. The treatment book showed no record of the use of salbutamol.

Mr Perry gave evidence that a licensed kennel hand in his kennels used a salbutamol inhaler several times a day for the relief of asthma. The kennel hand submitted evidence in support of this and provided copies of prescriptions. It was admitted that the kennel hand may have shown a lack of adequate care by using the inhaler in proximity to the greyhounds and without hand washing after use. The practices had now been revised. Professor Morris concurred that the evidence was consistent with direct or indirect contamination from use of an inhaler by the kennel hand. From the levels indicated, it would seem highly unlikely that the drug had been deliberately administered to GELO MONTY to influence performance. Mr Perry categorically denied that he had deliberately administered the drug to the dog.

Mr Gibson said that GRB accepted Mr Perry's explanation for the positive finding, however, it is the trainer's responsibility to ensure the necessary procedures are in place to prevent cross contamination, including prescribed medicines used by the trainer or staff. This is a prestigious race and for the winner to be disqualified on these grounds is reputationally damaging to the sport of greyhound racing.

The Committee found Mr Perry to be a credible witness who had learned a very hard lesson losing such a prestigious race. They accepted that the kennel hand was heavily dependent on the salbutamol

inhaler and at the time had been unaware that it was likely to lead to positive tests in greyhounds. They noted several references provided in support of Mr Perry and his statement that he had introduced rigorous practices to prevent similar contamination in future.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Disciplinary Committee ordered that Mr Perry be cautioned.

### **3 Belle Vue Stadium - JUMEIRAH LOLLS - International Trainer Mr G Holian**

International Trainer Gerry Holian was found in breach of rules 152(i), 174 (i) (b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound JUMEIRAH LOLLS at Belle Vue Stadium on 2 December 2017 was analysed by LGC Health Sciences as containing the presence of hydroxylated metabolites of pentobarbital, and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its wellbeing.

Mr Holian was in attendance by telephone. Scott Ellis, racing manager of Belle Vue Stadium, apologised for his non-attendance. Pete Rosney, stipendiary steward, and Professor Tim Morris, independent scientific adviser, were in attendance.

On behalf of GRB, Mr Gibson said that the Board would not pursue a breach of rule 174 (i)(a). A Local Inquiry had been opened on 27 August 2018, but Mr Holian had not attended. Mr Rosney gave evidence that he had written to Mr Holian in early 2018 inviting him to reply to a series of questions. No response had been received. In April 2018, Mr Rosney said he had telephoned Mr Holian and sent a further set of questions and a response to these was finally returned by Mr Holian in October 2018.

The positive test had followed the Greyhound Media Group Oaks 2nd Round 470m Open Race at Belle Vue Stadium in which JUMEIRAH LOLLS came first by 1 length at a SP of 2/1. The GBGB's Betting Investigator said that there were no irregular betting patterns and in his opinion the dog's form was consistent.

Scientific evidence was given that the finding of hydroxylated metabolites

of pentobarbital was consistent with exposure of the greyhound to pentobarbital, a veterinary medicine used for euthanasia of animals in UK and Ireland. It causes sedation, anaesthesia and death through respiratory and cardiac arrest and as such is a substance which by its nature could affect the performance of a greyhound or prejudice its wellbeing. As pentobarbital was widely used by veterinary surgeons for the euthanasia of horses and farm animals, and as Mr Holian apparently fed Category 2 Animal By Products meat which can contain residues of drugs including pentobarbital, Professor Morris concluded that the more likely source of pentobarbital in this case was the feeding of meat contaminated with pentobarbital residues.

In his evidence, Mr Holian said that he did not accompany JUMEIRAH LOLLS to Belle Vue on this occasion but sent two kennel hands together with a supply of feed including raw meat that he said he had purchased from John & Kevin Greene Ahascragh Ltd. There was uncertainty as to the actual source of the meat fed to JUMEIRAH LOLLS, but evidence was presented from Aileen Greene of John & Kevin Greene Ahascragh Ltd that the company was a Category 2 intermediate plant and all meat was stained in accordance with Animal By Products regulations. Mr Holian confirmed that the meat fed to JUMEIRAH LOLLS had been stained. He said that he was not aware of GBGB advice that Category 2 meat should not be fed to racing greyhounds or of the Irish Greyhound Board's advice to the same effect. He also claimed he was unaware of the GBGB Rules of Racing in this regard.

The Committee accepted that Mr Holian had not deliberately administered pentobarbital to JUMEIRAH LOLLS but that he followed a practice of feeding Category 2 meat which was high risk. They found this to be negligent and careless and Mr Holian had only himself to blame the loss of a place in the Oaks Final. There was no excuse for a trainer to claim he was not familiar with GBGB's advice or the Rules of Racing.

Some of the GBGB Rules of Racing impose strict liability on the trainer or registered sales agent. In all the circumstances of the case, the Disciplinary Committee ordered that Mr Holian be reprimanded and fined the sum of £500.

## LOCAL INQUIRY

### 1 Belle Vue Stadium – CROCKER JOKER

At a local inquiry held by the Area Stipendiary Steward on 10 April 2019, professional trainer Mrs D Cross's explanation was accepted in respect of the improved performance of the greyhound CROCKER JOKER at Belle Vue Stadium on 15 December 2018.

Opening at 9/4 and starting at 7/2, the greyhound had won a 470m race recording a calculated time of 28.58 seconds as compared with its best recent time of 29.09 seconds recorded in a race on 25 November 2018.
