## GREYHOUND COMMITMENT: THE FIRST YEAR

This week, GBGB launched its first annual update on the Greyhound Commitment, setting out the progress that has been made since its introduction last year.

Over the past year, we have been establishing the Commitment as the manifesto for how our sport needs to be run to ensure greyhound welfare remains at its heart. It is the blueprint we are expecting everyone across the industry to be following to ensure that welfare standards are as high as they possibly can be for all greyhounds – from registration to retirement.

It has been encouraging to see the widespread adoption of the Commitment and we would like to thank everyone who has actively got behind it. As you will see from the Update, a great deal has been achieved over the past year, from the new Animal Care and Welfare Assistant Apprenticeship to the launch of our national Injury Recovery Scheme. But, for the Commitment to be successful long term, it requires the continued support of the whole industry to ensure the initiatives being introduced have a tangible impact on welfare and integrity standards.

As part the Update, we are also publishing the injury and retirement figures for 2018. This independently-verified data demonstrates that licensed greyhound racing in Great Britain has the lowest injury and fatality rates in the sport anywhere in the world. The data is very similar to that of last year giving us further consistent evidence as to where our sport currently is and where it needs to do more.

To this end, we have announced targets to further improve these figures with the aim of eradicating avoidable and unacceptable deaths to ensure that all greyhounds leaving the sport have a long and happy retirement wherever possible. To achieve these targets, the Greyhound Commitment contains a number of existing and future initiatives to support trainers and owners. We believe that these will go a long way to helping the sport meet the challenge.

Whilst much has been achieved in recent months, there is still much more to be done. Thank you all again for your support as together we deliver a sport that is safe, welfare-driven and run with outstanding integrity.

Mark Bird  
Managing Director, GBGB

## DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 14 May 2019:-

Mr M Elks (in the chair)  
Mr A Hunt  
Mr K Salmon

### 1 **Central Park Stadium – MILLBROOK KING – Professional Trainer Mr A Collett**

Professional Trainer Anthony Collett was found in breach of Rules 152(i), 174(i)(b), 214 and 217 of the GBGB Rules of Racing in that a pre-race urine sample taken from the greyhound MILLBROOK KING at Central Park Stadium on 11 January 2019 was analysed by LGC Health Sciences as containing flunixin, and that he had in his charge a greyhound that showed the presence of a substance that could by its nature affect the performance of a greyhound or prejudice its well-being.

Mr Collett was in attendance at the hearing. Also in attendance were Stipendiary Steward Hayley Huntley, Racing Manager Peter Miller and independent scientific adviser Professor Tim Morris

A Local Inquiry had been held on 11 February 2019 following the testing of a pre-race urine sample taken from MILLBROOK KING at Central Park Stadium on 11 January 2019 before a 265m D1 sprint race in which the greyhound came second at a starting price of 5/2J2F. The GBGB's betting investigator said that there were no irregular betting patterns and that the greyhound's time was consistent with its usual form.

Professor Morris gave evidence that flunixin is a non-steroidal anti-inflammatory drug and is available as a licensed veterinary medicine for use in horses, pigs and cattle, but not dogs, in the UK. It has the potential to induce severe adverse reactions in dogs, and to affect performance

by reducing the adverse effects of pain or inflammation. Accordingly it is a substance which by its nature could affect the performance of the greyhound or prejudice its well-being.

Professor Morris stated that the level of flunixin found in the greyhound was consistent with very recent exposure to a relatively highly contaminated food source, or use of an unlicensed flunixin preparation in the two days prior to the sample being taken. He said that meat could be highly contaminated if it came from an animal which had been treated using flunixin shortly before euthanasia.

In his evidence Mr Collett stated that he had done everything he believed necessary to avoid a positive drug test. In particular he only fed Category 3 meat, which he understood to be safe, to his greyhounds. He produced invoices from his supplier all of which stated that the meat supplied was indeed Category 3 meat. He said that if he was unhappy with the meat supplied he would require it to be exchanged by the supplier. This had happened in December 2018. He has now changed his meat supplier.

Mr Collett stated that he had not administered the drug to the greyhound.

The Committee found Mr Collett to be a credible witness and concluded that on the balance of probabilities contaminated meat was the source of the drug.

Some of the GBGB Rules of Racing impose strict liability on the trainer. Mr Collett was therefore found to be in breach of the rules as stated above. In the circumstances the Committee ordered that there should be no further action.

### 2 **Perry Barr Stadium – TUTTLES TUCANA – Professional Trainer Miss C Price**

Professional Trainer Corren Price was found in breach of Rules 152(i), 174(i)(b) and 217 of the GBGB Rules of Racing in that a pre-race urine sample taken from the greyhound TUTTLES TUCANA at Perry Barr Stadium on 8 December 2018 was analysed by LGC Health Sciences as containing codeine and norcodeine, and that she had in her charge a greyhound that showed the presence of a substance that could by its nature affect the performance of a greyhound or prejudice its well-being.

Also in attendance were Senior Stipendiary Steward Paul Illingworth and independent scientific adviser Professor Tim Morris. Ms Price did not attend the hearing and Racing Manager Martin Seal apologised for his non-attendance

A Local Inquiry had been held on 14 January 2019 following the testing of a pre-race urine sample from TUTTLES TUCANA at Perry Barr Stadium on 8 December 2018 before a 275m D4 race in which the greyhound came third at a starting price of 7/2. The GBGB's betting investigator said that there were no irregular betting patterns, that the greyhound's form was consistent and that its time on 8 December seemed a good run.

Professor Morris gave evidence that codeine is an opioid drug and that in dogs norcodeine is the primary metabolic product of codeine in urine. Codeine is available as both a veterinary and a human medicine in combination with paracetamol. He stated that codeine is a potent pain reliever, and has a range of serious potential side effects. It is therefore a substance which by its nature could affect performance of the greyhound or prejudice its welfare. He stated that there was

nothing to suggest that the sample itself had been contaminated. As the metabolite norcodeine was present in the sample the only explanation of the positive finding was that the greyhound had been exposed to codeine.

The Committee concluded that there was insufficient evidence to justify a finding on the balance of probabilities that the drug had been directly administered by Ms Price.

Some of the GBGB Rules of Racing impose strict liability on the trainer. Ms Price was therefore found to be in breach of the rules as stated above. In the circumstances the Committee ordered that Ms Price should be reprimanded and fined £400.

### 3 Peterborough Stadium – ARK ANGEL – Professional Trainer Miss G Kovac

Professional Trainer Geraldine Kovac was found in breach of Rules 152(i), 174(i)(b) and 217 of the GBGB Rules of Racing in that a post-trial urine sample taken from the greyhound ARK ANGEL at Peterborough Stadium on 10 January 2019 was analysed by LGC Health Sciences as containing sotalol, and that she had in her charge a greyhound that showed the presence of a substance that could by its nature affect the performance of a greyhound or prejudice its well-being.

Miss Kovac was in attendance at the hearing. Also in attendance were Senior Stipendiary Steward Paul Illingworth and independent scientific adviser Professor Tim Morris. Racing Manager Andrew Lisemore apologised for his non-attendance

A Local Inquiry had been held on 13 March 2019 following the testing of a post-trial urine sample from ARK ANGEL at Peterborough Stadium on 10 January 2019 after a 250m solo trial completed in a time of 15.99 seconds. The GBGB's betting investigator said that betting is not permitted on trials and that the greyhound's time at the trial seemed to be in line with all known form.

Professor Morris stated that sotalol is a beta-blocker. It is available as a human medicine but has also been prescribed for dogs. Beta-blockers slow heart rate and decrease the amount of work being done by the muscles of the heart. They also have a range of serious side effects. Sotalol is therefore a substance which by its nature could affect the performance of the greyhound or prejudice its welfare.

Miss Kovac gave evidence. She stated that she herself has been prescribed sotalol over a lengthy period of time and produced documentary evidence of this. She has to break the tablets she receives in half to give the required daily dose but also has to carry a supply of the tablets at all times in case she becomes unwell. She stated that she had not administered the drug to the greyhound.

Professor Morris said that powder residue is created when breaking a tablet in half. He did not consider that the greyhound could have consumed half a tablet. The concentration of the drug in the sample would have been much higher had it done so. Professor Morris considered that the positive sample was more likely than not to be the result of contamination rather than deliberate administration.

Miss Kovac explained to the Committee the steps she has always taken to prevent contamination and the further precautions she is now taking following the positive test.

The Committee found Miss Kovac to be a credible witness.

In the circumstances the Committee concluded that there had been no deliberate administration of sotalol. However, some of the GBGB Rules of Racing impose strict liability on the trainer. Miss Kovac was therefore found to be in breach of the Rules as stated above. The Committee ordered that she be cautioned.
