APPRENTICESHIP UPDATE - UNIVERSITY OF NOTTINGHAM VET SCHOOL TRAINING DAY

Earlier this month, the Animal Care and Welfare Assistant Apprentices visited the University of Nottingham's School of Veterinary Medicine and Science for a training day on greyhound anatomy, function, injury and rehabilitation.

The day was led by greyhound specialist and Assistant Professor of Veterinary Anatomy Dr Richard Payne who, alongside his teaching team, gave the apprentices an insight into the latest research into racing greyhounds.

The vet school training day was the latest in a series of off-the-job training opportunities which seek to give the apprentices a broader insight into the world of greyhound racing. These opportunities, which have included visits to GBGB's forensic testing lab and to the Dogs Trust, where the apprentices spent time with an animal behaviourist, seek to give apprentices a comprehensive understanding of how best to care for their greyhounds. The training day at Nottingham, which was also attended by some of the apprentices' trainers, sought to enhance apprentice's knowledge and skills in looking after the greyhounds in their care.

Apprentice Yazmin Schofield, said:

"It was a really informative day and we went into great detail on anatomy and muscle groups. I particularly liked the practical session and the lecture on the use of physiotherapy for the rehabilitation of sporting injuries. These off-the-job training sessions really help to improve our knowledge and I am really enjoying my apprenticeship."

Mark Bird, GBGB Managing Director, said:

"This Apprenticeship aims to further professionalise and upskill our sport, providing expert training in all aspects of greyhound care. As people who work day-in, day-out with greyhounds and who look after their every need, I know that the knowledge will be incredibly beneficial to them as they progress in their careers."

"It was fantastic to see some of the Apprentices' trainers accompany them today, as well as the track promoters involved in the scheme. In order to ensure our welfare standards remain the best in the world, it is vital that everyone involved in our sport is aware of the latest research so they can provide the very best care to our racing greyhounds."

KING SHEERAN VICTORIOUS IN HISTORIC PRODUCE STAKES FINAL AS BGBF CONFIRM AUGUST – DECEMBER SCHEDULE

Trainer Liz McNair created her own slice of history when landing a 1-2-3-4 in the 73rd British Bred 2-Year Old Produce Stakes Final at Swindon, with King Sheeran proving dominant in the £15,000 decider for owners and breeder Brendan Keogh and the KSS Syndicate.

King Sheeran led home an extraordinary 1-2-3 for February 2017 sons of Eden The Kid and Skate On with Sheeran and runner up King Cash chased home by litter brother King Dylan. Queen Cher (Eden The Kid-Shaws Dilemma, May 17) secured the McNair/KSS clean sweep.

Liz Mort, chair of the British Greyhound Breeders Forum (BGBF), said: "What an amazing night – and what cracking dogs we saw in the Produce Stakes this year – especially the final.

"All six of them were examples of great breeding, rearing and training, and all thoroughly deserved to have made the final. Sheeran was especially fantastic, given he's come back from a hock injury that resulted in two screws being put in his leg and a long layoff.

"The victory completed a great comeback – and there's no question the Keogh/KSS/McNair greyhounds are in a special class at the moment. Every time one of their dogs wins a major competition it's like a masterclass in how to breed, rear and train a champion – and other British breeders must believe they, too, can achieve great things with the dogs they breed. They need to believe in their own ability to turn their pups into flying machines."

Of the host track, Mort added: "Swindon is a great track and we're so lucky they are happy to host and run the Produce Stakes – it's not on everyone's doorstep, but it's worth the trip!

"We're gradually expanding our competitions to more parts of the country, and to different tracks. Our next Category One will be a new one – the BGBF Northern Plate at Newcastle in September. We're all very excited and are grateful to the British Greyhound Racing Fund for enabling us to expand into this important area."

The BGBF has now confirmed its schedule of events for British bred greyhounds for August – December 2019 as follows:

British Bred Oaks	Doncaster	483m	Mon 12th - 26th August
Northern Plate	Newcastle	480m	Thu 12th - 26th September
Breeders' Stakes	Nottingham	500m	Mon 7th - 21st October
British Bred Sprint	Harlow	238m	Wed 30th October - Wed 13th November
British Bred Puppy Oaks	Romford	400m	Fri 15th - 22nd November
British Bred Marathon	Romford	750m	Fri 22nd November
British Bred Derby	Sheffield	500m	Tue 26th November - Tue 10th December

Winners of the Category One Breeders' Stakes, British Bred Derby and inaugural Northern Plate will take home £7,500, Category Two winners £4,000 and the winner of the one off Category Three British Bred Marathon at Romford - £1,000.

Full details for the above events, which are restricted to greyhounds born and earmarked in Britain, can be found in this and future editions of the GBGB Calendar.

DISCIPLINARY COMMITTEE INQUIRIES

The Disciplinary Committee of the GBGB were in attendance at a meeting held on 23 July 2019:-

Mr R Woodworth CBE (in the chair)
Mr R Coughlan
Dr AJ Higgins

1a **Towcester Stadium – MUXTON BELLE – Professional Trainer Mr Mark Wallis**

Professional Trainer Mr Mark Wallis was found in breach of rules 152 (i), 174 (i)(b), 214, 216 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound MUXTON BELLE at Towcester Stadium on 7 July 2018 was analysed by LGC Health Sciences as containing the presence of dexamethasone and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its well-being.

Mr Wallis was in attendance. Paul Ilingworth, senior stipendiary steward, and Professor Tim Morris, independent scientific adviser, were also in attendance.

On 7 July 2018, a pre-race urine sample was taken from MUXTON BELLE, trained by Mr Wallis which upon analysis by LGC identified the presence of dexamethasone.

Professor Morris gave evidence that dexamethasone is available as a veterinary medicine in a range of formulations. It is a corticosteroid that affects dogs as it does other animals and people, with potent anti-inflammatory activity, and side effects include metabolic disturbances and reduction of the body's response to infection. It was his opinion that dexamethasone with its potent anti-inflammatory activity and range of side effects is a substance which by its nature could affect the performance of the greyhound or could prejudice the well-being of a greyhound.

Mr Wallis stated at the local inquiry held on the 30 October 2018 that he believed the positive for dexamethasone probably resulted from ‘Surolan Ear Drops and Cutaneous Suspension’ prescribed by Towcester track Veterinary Surgeon Polly Smith on the 11 May 2018 for MUXTON BELLE. Mr Wallis claimed that Polly Smith had not advised him that MUXTON BELLE should be laid off for 7 days in accordance with GBGB rules and he had not thought it necessary to enter the medication in the treatment book as he thought it was merely a “wash”. Professor Morris gave evidence that ‘Surolan Ear Drops and Cutaneous Suspension’ does not contain dexamethasone. Moreover, Mr Ilingworth gave evidence that Polly Smith was an experienced track Veterinary Surgeon and a condition of her licence was that she must warn trainers if a prohibited substance had been administered to a racing greyhound. It was therefore concluded that it was not possible that the prescribed ‘Surolan Ear Drops and Cutaneous Suspension’ was the source of the prohibited substance dexamethasone.

At the local inquiry, Mr Wallis had described his feeding regime which included a “small handful of cooked beef” for each greyhound. He had believed the meat to be beef although he acknowledged that his meat supply was always stained. The supply receipts made clear that the meat was in fact category 2 (with its increased risk of contamination). The Committee believed that Mr Wallis had been fortunate not to have been the subject of a positive test earlier as he stated that he had been using the same supplier for 20+ years and he acknowledged that he had been complacent. He no longer fed any meat to his greyhounds.

The Director of Regulation confirmed that the Board did not have evidence to suggest a deliberate administration of dexamethasone in this case (which in any event Mr Wallis denied), but the Committee were concerned that a high profile and

particularly successful trainer should “cut corners” in terms of the use of category 2 meat despite the frequent Calendar notices warning against this practice for racing greyhounds.

The Committee accepted Professor Morris's evidence that the feeding of category 2 meat was the probable cause of the dexamethasone positive. The Committee accepted that Mr Wallis had not previously been sanctioned for any breach of the rules but in this case cautioned Mr Wallis and fined him £250.

1b **Henlow Stadium – SILVA HILL – Professional Trainer Mr Mark Wallis**

Professional Trainer Mr Mark Wallis was found in breach of rules 152 (i), 174 (i)(b), 214 and 217 of the GBGB Rules of Racing in that a urine sample taken from the greyhound SILVA HILL at Henlow Stadium on 16 December 2018 was analysed by LGC Health Sciences as containing the presence of a hydroxylated metabolite of phenylbutazone and that he had in his charge a greyhound that showed the presence of a substance that by its nature could affect the performance of a greyhound or prejudice its well-being.

Mr Wallis was in attendance. Paul Ilingworth, senior stipendiary steward, and Professor Tim Morris, independent scientific adviser, were also in attendance.

On 16 December 2018, a pre-race urine sample was taken from SILVA HILL, trained by Mr Wallis which upon analysis by LGC identified the presence of phenylbutazone.

Professor Morris gave evidence that phenylbutazone is available as a prescription only veterinary medicine licenced for use in dogs and horses, with the predominant use being in horses. It is chemically in the class of drugs described as non-steroidal anti-inflammatory drugs (NSAIDs). NSAIDs relieve pain, reduce fever and reduce inflammation. Phenylbutazone, even when used at clinical doses in dogs, can have side

effects that lead to gastrointestinal ulceration and bleeding and kidney damage and as such it is now less frequently prescribed. Although widely used in horses, it is not used in other species, including man, because of a risk of causing blood disorders. It is banned from use in food producing animals, including horses destined for the food chain, due to the secondary risk of contaminated meat, when eaten, causing these blood disorders in people. Hydroxyphenylbutazone is a major and pharmacologically active metabolite, also a NSAID, of phenylbutazone in both horses and in dogs. It was Professor Morris's opinion that phenylbutazone and hydroxyphenylbutazone, as NSAIDs, are substances which by their nature could affect the performance of the greyhound or could prejudice the well-being of a greyhound.

Mr Wallis was adamant that he and his staff were careful to ensure that medicines were only administered to his dogs under the supervision of a Veterinary Surgeon and were recorded in the treatment book. He stated that he had not administered phenylbutazone to SILVA HILL and although he had suggested that the substance might have entered his greyhound by "cross contamination" from another greyhound housed in the same racing kennel at Henlow the previous day, he no longer thought this was the case. He accepted Professor Morris's evidence that post-2013, when horsemeat contamination was found, there was than a substantial increased chance that the source was horsemeat, classed as category 2 meat, then being fed to his greyhounds. Mr Wallis confirmed that he no longer feeds any meat to his racing greyhounds but acknowledged that he had been complacent. The Committee considered that Mr Wallis should have carefully considered his feeding practices at the time of the positive test of MUXTON BELLE December 2018 when SILVA HILL gave a positive sample.

While the Director of Regulation did not consider there was evidence to support the allegation of a deliberate administration of phenylbutazone to SILVA HILL, the Committee considered Mr Wallis to have been reckless in his continued use of category 2 meat particularly after a positive test on one of his greyhounds.

They accepted Professor Morris' evidence that the positive for phenylbutazone had probably resulted from contaminated category 2 meat and reprimanded Mr Wallis, fining him £750.
