

How to hire Online?

TAKE ADVANTAGE OF THE ONLINE & REMOTE WAY OF WORKING

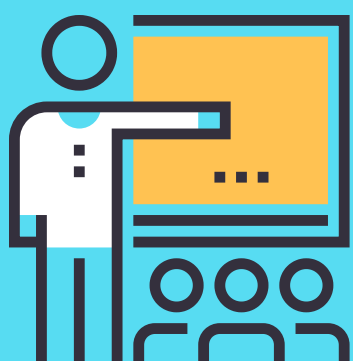

1.) THE ONLINE HIRING PROCESS CAN BE SIMPLE

Having organised hundreds of job fairs the Online hiring process has been made very simple using a set of robust processes, automated systems, digital marketing & a community of active job seekers.

2.) GIVE US YOUR JOB OPENINGS

Once your job openings are added into our system a combination of automated matching with human quality checking ensures the right candidates are picked for your requirements

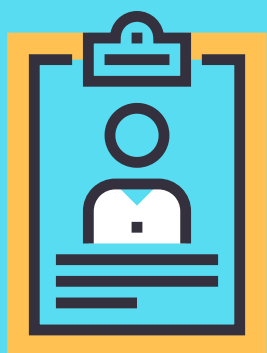

3.) WE DO THE REACH OUT

We reach out to suitable candidates through drip emails & LinkedIn to ensure they notice your openings and are interested. We also head hunt candidates and promote jobs through job boards & social media to increase reach.

4.) APPOINTMENT BOOKING

Interested candidates are presented with a calendar so time slots can be booked for an interview. This reduced time wastage ensures you have a series of productive interviews ready for the day.

5.) VIDEO INTERVIEW

We use tools like Zoom to setup an Interview Room for you. Also schedule and CVs of all candidates being interviewed so that you or your team are prepared.
