How **Hatch** works

We use friendly **financial coaches** and **powerful software** ... to help you build the financial future you want ... while leaving more money for the things you enjoy today. We do this in **3 simple steps**.

1 Discuss Goals

Speak to an expert financial coach about your financial situation and life goals.

2 Build a Plan

Your coach builds your financial plan, walks you through it, and provides easy online access.

3 Stay on Track

We give you all the help you need to do the best things with your money - now and ongoing.

1 Discuss Goals

We start with **your goals**

Our financial coaches help you explore your goals, be they as short term as an upcoming holiday, as long term as retirement, or anything in between (such as property, raising children or clearing debts).

Using our technology, our coaches help you quickly estimate the future costs of these goals. And once that's clear ... it's time to build a financial plan!

2 Build a Plan

We build you a **full financial plan**

Our plan shows you how your wealth is set to grow over the years ahead, and how on track you are for all your goals.

With the help of our technology, your coach can then show you the impact of different choices – how much to Spend? Save? Put in pensions? Invest? Mortgage? Insure?

3 Stay on Track

We distil everything into a simple action plan

We take all the complexity – about your life, goals and finances – and distil it into a few simple actions. We then give you all the help you need to complete them.

At any point, you can create new plans either yourself with our software, or with the help of your coach. We recommend reviewing your plan with your coach at least once per year.

Our Financial Coaches support you through **every step**

We're not just a piece of clever technology! Important life and financial decisions need the reassurance and guidance of a human expert.

And that's exactly what you get – a Financial Coach, on hand whenever needed.

Our coaches are available by phone or video-chat, and face-to-face in your workplace by prior arrangement.

Case Study

How we helped Sally & John improve their future retirement pot by **£496,457**

John and Sally were a **30 year old couple** on an **average London income**, with a young daughter, Emma.

We showed them how they could not only afford their dream property and support Emma through education, but also retire significantly better off – if they made some small adjustments to their spending and use of investments and pensions.
