

## When beauty and intelligence go hand in hand!

### Unique styling

- A range created by the Ricardo Bofill - Marta Vilallonga architecture firm
- A strong, easy-to-spot identity, enabling it to integrate perfectly into the urban surroundings

### Practical

- 4 sizes: 50L, 60L, 80L and 120L
- The bin has a lid to limit the amount of rainwater that gets into the liner
- The size of the opening is limited to prevent the disposal of household waste
- The grooved lines discourage graffiti

### Service-focused intelligence

The RFID chip combined with GPS enables:

- geolocation of products
- tracking of maintenance operations
- tracking of cleaning operations

### Quality – Manufacturing – Certification

- 50L - Body, cover and frame: made of colour-impregnated high density injected polyethylene (HDPE) - Treated to resist UV rays
- 60L and 80L - Door and body made of recyclable cast aluminium - Inner liner made of rotomoulded linear medium-density polyethylene (MDPE)
- 120L - Body and liner made of colour-impregnated, rotomoulded medium-density injected polyethylene (MDPE) - Treated to resist UV rays
- Manufactured in Plastic Omnium's ISO 9001, ISO 14001 and OSHAS 18001 certified factories

60L	✓			✓		✓	
80L	✓			✓		✓	
120L	✓			As standard		✓	

## Emptying/Maintenance

50L

Door unlocked and liner removed from the front.  
Upper grip to facilitate emptying.

60L, 80L and 120L

Door unlocked and opened.  
Easier to empty the bin thanks to two handles.

## Added services

In addition to the warranty against any manufacturing defects, Plastic Omnium offers a maintenance-servicing contract to ensure the longevity of Cibelès®.

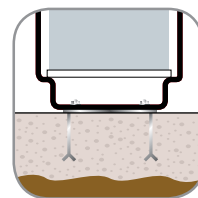

## Installation

50L and 60L

- On any vertical structure: walls, signposts, lampposts, etc.
- Straight sealed post (optional)
- Straight sealed post with coloured cover (optional)
- Two bins can be mounted back-to-back (only 50L bins)

60L, 80L and 120L

- Ground attachment

Embedded brackets
