

HaworthTompkins

Job Description

Part II Architectural Assistant

Award-winning architectural practice Haworth Tompkins are looking for a talented Part II Architectural Assistant, with strong design skills, to work on residential, workspace and urban regeneration projects.

Due to the current situation the position will be for an initial period of 3 Months, with the option to extend thereafter subject to agreement.

ATTRIBUTES

- Strong design, communication and presentation skills
- Good physical and computer model making skills
- Experience in using Revit in architectural practice desirable
- Excellent graphic skills with experience in using InDesign and Photoshop
- Good understanding of UK building regulations and technical knowledge

ADDITIONAL INFORMATION

We use Autocad and Revit software packages to develop most of our projects (some legacy projects delivered in Microstation). Further training can be provided but we require individuals who can become quickly established on projects, so some experience of Revit in particular is essential. We work as a collaborative and proactive studio where communication and knowledge sharing is encouraged. Project work is supported by a programme of lunchtime talks, construction site visits and office trips.

Haworth Tompkins is an equal opportunities employer and we welcome applications from all backgrounds. We seek to support flexible working arrangements to suit family commitments. Regrettably due to the expected volume of replies, we can only contact shortlisted applicants.

Apply by email only, addressing the cover letter to Dan Tassell and following the detailed instructions on our website

Do not send printed documents or links to online portfolios
