The Client

With 90 offices in over 52 countries, Hill+Knowlton is one of the leading full service communications agencies in the UK and globally. We have a good relationship with Hill+Knowlton but still beat our competitors to win the tender for this project. The brief was to provide a full furniture package that reflected the modern, innovative and interconnected Hill+Knowlton brand. We needed to create a space that was stylish, creative and great value for the client.

The Project

The key to success for this project was building strong working relationships. We made time to personally meet everyone involved in the project and let them know

what we were trying to achieve. Working in collaboration with BDG - a WPP architect and design consultancy - we completed the project to the highest standard.

We were able to source Knoll Scope Light Desking for the entire office at a competitive price that really exceeded the client's expectations. Completing the areas with Intershul Task Chairs meant a fresh new look while staying within the budget.

Vivid red Vitra Polder Sofas were combined with Vitra Plywood Group Chairs in the reception waiting area, while Prouve Standard Chairs in the central communal meeting area complimented the abundant natural light to make a clean and stylish creative space. Splashes of colour were added to the

bar area with Vitra Tipton Chairs in primary colours around Arper Nuur Rectangular White Tables. These lifted the space and made it feel welcoming, relaxed and multipurpose.

The Outcome

The result was a chic, modern and innovative space that was in-line with the original budget. Our relationships with the client, architect, building management and manufacturers made this possible. Any issues that arose were resolved quickly because open and honest communication is part of the professional service we give every client. We are now the first people our client at Hill+Knowlton calls when they need anything.
