

How does the internet make me feel, you say?

Well, it's a mixture of emotions depending on the day!

Sometimes happy, sometimes sad,

Sometimes frustrating and other times mad!

I love to search on google at my home,

But I don't do this when I am alone!

My parent's permission is what I need,

To surf the web at a super-fast speed!

Internet shopping on Amazon and eBay,

I can get my goodies the very next day!

But it's not all good, dangers are there,

Always be alert, you have to beware!

Sometimes people aren't who they seem,

So don't be fooled by the computer screen.
