DESIGNERS' CHOICE

Take a look at our stunning, classically styled Legacy flax fitted furniture range. See pages 14-15.

FINISHING TOUCHES

Opt to create a seamless look and feel to your fitted furniture with one of our sleek worktops with integrated basin. See page 39-41.

Complete the look of your furniture with a handle that best reflects your chosen bathroom style. See page 38.

WHY CHOOSE TAVISTOCK FITTED FURNITURE?

There is beauty in simplicity. So much of our lives are hectic and demanding but with our fitted furniture it is easy for you to design and plan your new bathroom. What's more we have simplified the selection process into a series of basic steps, just follow our guide to create your very own Tavistock fitted furniture bathroom – it's that simple.

You can depend on Tavistock to deliver the highest levels of service and reliability, but what makes us special is our in-house design team. Excellent design is of the utmost importance to us. We design all of our products

in our offices in Bath Spa and ensure our perspective remains fresh and innovative. High quality materials and craftsmanship go into every Tavistock product so they not only look good but fulfil their purpose time after time.

For complete peace of mind, we offer extensive guarantees across our entire range, so you can be sure to choose any Tavistock product with complete confidence.

furniture, taps & showers,
mirrors & cabinets

20 Year Guarantee
basins & WCs

DESIGN, CREATE, INSPIRE

GUIDE TO CHOOSING FITTED FURNITURE

Tavistock fitted furniture has a wide variety of bespoke features. Follow the guide below for a quick overview and understanding of how to create your very own Tavistock fitted furniture bathroom. A more detailed planning guide can be found on pages 36-37.

01

UNDERSTAND YOUR SPACE

Make sure you get a feel for your bathroom layout before you start. Look at any wasted areas which could be maximised with the addition of storage units. It is advisable to install a W/C unit in a similar position to the current W/C to minimise installation costs. If you do want to change the layout of your bathroom, a good Tavistock bathroom retailer will be able to guide you through the planning process.

02

CHOOSE YOUR BATHROOM STYLE & FINISH

We have two stunning furniture styles to choose from, classic Legacy available in 4 finishes or sleek contemporary Calm available in 5 finishes, see pages 10-35 for further details. All our Legacy units come with an oak internal carcass, while Calm furniture features a graphite internal finish (with the exception of gloss white finish which features a white carcass). All have been specifically chosen to complement the furniture style.

Contemporary
Calm

Classic
Legacy

03

MAKE YOUR UNITS BESPOKE

Choose from our wide range of handles & worktops to give your bathroom units a bespoke look and feel. See pages 38-41 for all handle & worktop options.

04

COMPLETE YOUR BATHROOM

Complete the design of your new bathroom by choosing from our raft of stylish basins & WCs as well as coordinating brassware, elegant mirrors & useful cabinets. See pages 42-71 for options.

05

CHOOSING THE RIGHT INSTALLER

As with any new bathroom furniture, it is advisable to use an experienced and qualified installer. Many Tavistock retailers will be able to offer a design and installation service or recommend a suitable fitter or Tradesperson.

CLASSIC OR CONTEMPORARY?

From classic styling to sleek modern lines, our collection of fitted bathroom furniture has something to suit every taste.

Door Styles

The Legacy range, with its clean shaker lines, delivers beautiful craftsmanship and classic good looks. It has a truly timeless feel when paired with the Vitoria sanitaryware range. Alternatively you can blend traditional and more modern styling by opting for one of our contemporary sanitaryware ranges for an altogether different look.

The pared back design of Calm offers a much more understated look with its minimal aesthetic. The slab style doors make for a sleek and modern design statement.

Colour Palette

A carefully selected palette of soft neutrals, rich wood or the deep hues of matt dark grey will define the overall look and feel of your bathroom.

Lighter colours such as gloss white and metro grey are particularly effective in smaller bathrooms. Colours such as flax and light grey can be used to create a homely feel. Painted finishes, particularly the darker, dramatic shades, are very on-trend.

We have conveniently paired each door finish with a coordinating carcass colour, simplifying the decision making process.

The Legacy Collection

Whatever your bathroom space, big or small, Legacy offers the flexibility and versatility you need to create a unified, traditional look. Standard and slim depth unit options are available in the sizes shown above. Alongside floor units, a full height unit and wall cupboards there are also coordinating bath panels. Use filler panels to create a framed style and personalise with your choice of worktop, handles, basin, WC and taps.

LEGACY FITTED FURNITURE MADE EASY

Tavistock fitted furniture is designed to be used in many different bathroom configurations. To make things a little easier our design experts have selected common configurations of our Legacy fitted furniture in each finish, we've helpfully bundled it together with one code and price, so you can go ahead and order without the complexity of working out which additional items you might need. All you need to do is select the left or right hand basin option and finish listed below.

Please note: The code and price does not include handles p38, WC & seat p46 - 47 concealed cistern and flush button p50 - 53 & taps p56 - 63. This allows you the opportunity to tailor the configurations to suit your style. To order these items please see the relevant pages.

YOUR PLANNING, CHOOSING & ORDERING GUIDE

LEGACY - CLASSIC STYLING

CALM - CONTEMPORARY STYLING

01

FURNITURE STYLE & FINISH

The most important choice when determining the look of your bathroom is door style and finish. Choose from the classic shaker style of Legacy or the ultra-modern simplicity of Calm slab style doors. Legacy is available in 4 finishes, whilst Calm offers 5 options. All Legacy door styles come complete with oak carcasses. Calm door styles feature a graphite carcass (except for gloss white which has a white carcass).

02

COMBINATION & DEPTH OF UNITS

Consider the available space in your bathroom and choose from either standard depth (353mm) or space-saving slim depth (218mm) units. Establish how you use your space and plan your design accordingly; whether yours is a personal retreat or a room for all the family, you can combine sizes to suit your needs and maximise the space in your bathroom.

03

HANDLE OPTIONS

Add the perfect finishing touch to your chosen doors with one of our stylish handles. See page 38 for the full range of options.

04

WORKTOP OPTIONS

Select a worktop from either our solid surface or laminate options. Alternatively opt for an integrated basin and worktop for a seamless look which works equally well with both contemporary and classic bathroom designs. See pages 39 - 41 for further details.

05

BASINS, WCs, CISTERNS, FRAMES & FLUSHING OPTIONS
Choose your preferred basin and WC to match the styling of your bathroom, in addition to a cistern and frame (if required). Complete the look by selecting from our range of flush plate options

06

TAP COLLECTION
Choose from our collection of stylish basin mixers, whether sleek and ergonomic or traditionally styled. Complete the look with a coordinating bath filler. See pages 56 - 63 for options.

07

MIRRORS & CABINETS
Choose an illuminated bathroom mirror or, for some additional over basin storage, opt for a cabinet. See pages 64 - 71 for options.

08

PANELS, PLINTHS & BATH PANELS
Clad-on end panels are available for all finishes. They can also be used between units to achieve a framed effect, which works particularly well for the traditional Legacy range. Plinths are available to create a fully integrated floor mounted look.

Alternatively you can wall mount your furniture, should you wish to create a more contemporary styled bathroom. See pages 81-82.

Finally, choose your bath panel to keep everything coordinated. See page 82.

HANDLES

Sleek, contemporary & modern classic designs

Choose the handle that best reflects your chosen bathroom style; whether it's curved and rounded or sleek and contemporary. See page 78 for full product details.

INTEGRATED BASINS & WORKTOPS

Strike the perfect balance between form & function

Expertly moulded into a single piece, our Isocast basins with integrated worktop strike the perfect balance between form and function. This clean and seamless look works equally well with both classic and contemporary bathroom designs.

Integrated basin and worktops are available in standard or slim depths and left or right handed options to suit your plan.

SOLID SURFACE WORKTOPS

Natural stone-like finish

Our range of solid surface worktops combines a seamless style with the look and feel of real stone. The natural stone-like beauty of the solid surface finish makes them a perfect choice for your bathroom.

Solid surface worktops are completely solid and can be easily cut to whatever size or shape your bathroom demands, with no need to bond on finishing strips. Simply cut to the desired profile and sand the edges to a fine finish. Adhesive is also available for joining longer runs or corner installations.

OUR BASIN & WC STYLES

Something for everyone...

The Basin & WC Collection

Clean lines, sleek surfaces, forward-looking design. That's what you get with our collection of basins and WCs. Whatever your personal style, you'll find something to inspire you. Specifically designed to work with our ranges of fitted furniture; including back to wall and wall hung WCs as well as semi-countertop basin options available in a choice of standard or slim depth depending on your installation.

Basin & WC Options

Read our simple guide to help you make the right decision.

Semi-Countertop Basins

A semi-countertop basin is a basin mounted on a furniture unit or worktop. While the rear half of the basin is recessed, the front of the basin overhangs the unit. The result? A basin which doesn't impose on your bathroom space. Available in a variety of sizes and styles.

Back to Wall WCs

Why not opt for a back to wall WC? With the cistern hidden inside a back to wall WC unit or behind a wall, it creates a clean and streamlined look. This style of WC is also perfect for when space is at a premium in your bathroom. Browse the following pages and choose from our extensive range.

Wall Hung WCs & Frames

A wall hung WC is a WC which hangs on the wall, or a back to wall WC unit, supported by a specially designed WC frame. Wall hung WCs are the perfect choice when you are looking for a space-saving solution or a very clean, contemporary look.

Cisterns & Flushing Options

Tavistock has a number of WC cistern options for all types of installation. See page 50 for our detailed guide. Alongside these, we offer a wide variety of flush options. See pages 51-53 for our complete range.

SEMI-COUNTERTOP BASINS

Browse our selection of semi-countertop basins to find the perfect option for your bathroom. Our collection includes both contemporary and classic designs, with the option of standard and slim depth basins, giving you plenty of choice no matter which fitted furniture range you decide on.

CONTACTLESS DUAL FLUSH SENSOR

The contactless flush sensor kit is compatible with our pneumatic concealed cisterns, and is best used within furniture. It provides a touchless flush, with just a wave of a hand.

The Sensor works using capacitive sensor technology to detect a change in the electromagnetic field. A short wave of the hand in front of the sensor activates the reduced flush, whilst holding your hand slightly longer triggers a full flush. It is powered by 4 AA batteries which will last around a year under normal domestic conditions.

The sensor can be mounted behind a back to wall WC unit fascia, or under a worktop or tiled wall near the cistern. A discreet decal is included to indicate sensor location if desired.

FEATURES INCLUDE:

- Dual flush
- Provides a touchless flush with just a wave of the hand
- Best used with concealed cisterns in furniture
- Powered by 4x AA batteries
- Low battery alarm

Sensor - TR9014

£147.50

OUR TAP STYLES

Something for everyone...

The Tap Collection

Taps are no longer just a minor detail, they're the finishing touch. Our collection of taps are expertly designed and manufactured. The right tap choice must combine the two key ingredients of design and functionality, and with this in mind we have designed a collection of taps which delivers both. There is something to suit all bathroom styles, from sleekly contemporary to charmingly traditional.

**Basin Mixers**

A tap which mixes hot and cold water from a single spout. Ceramic cartridge technology gives smooth, easy to use action and accurate flow control.

Mini Basin Mixers

A smaller style basin mixer specifically designed for use with smaller bathroom or cloakroom basins.

Basin Taps

Two taps for separate control of hot and cold water.

Bath Fillers

A deck mounted bath tap with two handles to mix hot and cold water from a single spout.

Bath Shower Mixers

A deck mounted bath filler which also includes a shower handset. Really useful for washing hair or cleaning the bath.

THE ANTHEM COLLECTION

Anthem's round design with simple, straight handles makes for an effortlessly contemporary tap range. Available in chrome, black and brushed brass.

OUR MIRRORS & CABINETS

Something for everyone...

The Mirror & Cabinet Collection

Complete your fitted furniture bathroom with a stylish mirror or cabinet from our design-led collection. Choosing an illuminated mirror will help enlarge even the smallest of spaces, reflecting light and brightening your day. Using a cabinet can help create a calm, clutter-free space. A variety of useful supporting features such as heated demister pads and integrated recharging sockets will make you wonder how you ever managed without them. And with light temperature changing technology you can create the perfect bathroom environment.

MIRROR & CABINET FEATURES

Discover our collection of mirrors & cabinets encompassing a wealth of design features to brighten up your bathroom.

LIGHT TEMPERATURE CHANGING TECHNOLOGY

This lets you create the perfect bathroom environment by enabling you to adjust the warmth of your mirror illumination to suit both the task in hand and time of day. Kick-start your day with bright, invigorating daylight. Then choose a natural light to apply make-up and a warm light for sleepy late evening tasks.

Light temperature ranges from 2700K (Warm White) to 6000K (Daylight White). You can also adjust the intensity of the light to be as bright or as dim as you wish.

STEAM FREE

Many of our mirrors & cabinets feature a heated demister pad to keep your mirror steam-free. You'll really appreciate never having to wipe it down again!

The heated demister pad heats the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms.

INFRARED SWITCH

Easy to use, an infrared switch allows you to control the mirror or cabinet with just the wave of your hand, without touching it.

Important: When mounting products with infrared switches, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the switch can function properly.

See individual details on each mirror or cabinet for applicable features.

BRING MUSIC TO YOUR BATHROOM

Catch up with the morning news during your shower or listen to your favourite play lists with **Bluetooth®** wireless technology. Easily pair your device to one of our innovative music mirrors featuring quality integrated speakers.

FOR YOUR CONVENIENCE

A convenient integrated recharging socket, suitable for electric shavers and toothbrushes is included with our Cadence mirror.

CHARGING STATION

Add further functionality to your new Tavistock fitted furniture by adding our charging station. The subtle little unit can be installed into our floor cupboards or wall cabinets and includes both a two-pin charging socket and a USB port to keep all your electricals fully charged.

- For use within fitted furniture cupboards and wall cabinets
- Two-pin charging point with rocker switch
- USB charging socket
- Matt black finish
- Cover to hide sockets when not in use
- Screwless mounting
- Requires a mains connection (supplied with one metre flying lead)
- Not recommended for installations in semi-countertop units or drawers
- IP44

PWHPAN £320.00

WALL HUNG WC FRAMES

1.17M WALL HUNG WC FRAME

For In-Wall Applications

- 1.17m high for in-wall applications
- 500mm width
- Adjustable depth 140-200mm (for side or floor exit pipe runs), 110mm min depth if pipe work routed straight through wall
- Adjustable height legs (200mm adjustment)
- 6/3L pneumatic flush valve
- Top entry 1/2" BSP (male) inlet valve connection
- Front access panel for maintenance
- Polystyrene anti-condensation jacket
- 0.2-10.0bar working pressure range
- Brackets, fixings & 1st fix protective covers included
- Selection of flush plate options available separately, see page 92

TR9006 £300.00

1.0M WALL HUNG WC FRAME

For Boxed in Applications (especially under windows)

- Ideal for boxed in applications, especially under windows
- 500mm width
- Adjustable depth 167-215mm
- Adjustable height legs (200mm adjustment)
- 6/3L pneumatic flush valve
- Side entry 1/2" BSP (female) inlet valve connection
- Top & Front access panel for maintenance
- Polystyrene anti-condensation jacket
- 0.2-10.0bar working pressure range
- Brackets, fixings and 1st fix protective covers included
- Selection of flush plate options available separately, see page 92

TR9015 £300.00

0.82M WALL HUNG WC FRAME

For 600mm & Wider WC Units

- 0.82m high for use within 600mm & wider furniture WC units
- 500mm width
- Adjustable depth 167-215mm
- Adjustable height legs (200mm adjustment)
- 6/3L pneumatic flush valve
- Side entry 1/2" BSP (female) inlet valve connection
- Front or top access panel for maintenance
- Polystyrene anti-condensation jacket
- 0.2-10.0bar working pressure range
- Brackets, fixings & 1st fix protective covers included
- Choose the Furniture Adaptor Kit (WHFFK) when using the frame in furniture installations
- Selection of flush plate options available separately, see page 92

- Pneumatic dual flush push button
- Compatible with concealed cisterns
- If used with wall hung frames provision must be made for access in lieu of flush plate

TR9022	Black	£21.40
TR9034	Brushed Brass	£42.80

TIPS FOR PLANNING YOUR BATHROOM

01

UNDERSTANDING FITTED FURNITURE COMPONENTS

Fitted furniture units are made up from a number of components and can seem quite confusing at first glance. It can be difficult to understand the need for some items such as clad-on end panels and plinths. So to simplify it we have put together a handy diagram of one of our units, breaking down each component, allowing you to understand exactly how your completed fitted furniture unit is created.

02

UNDERSTANDING YOUR BATHROOM LAYOUT & PLANNING

In order to make the installation process as pain-free as possible it is advised, where possible that you try and install your basin, WC and bath in a similar position to any existing plumbing. This will minimise the installation time and cost. Before going to see a Tavistock fitted furniture specialist, it may be helpful to complete the following planning steps.

Firstly measure your bathroom and draw a plan including the door direction (in case this needs to be re-hung to accommodate the new layout). Make reference to the location of each service and soil pipe.

Finally ensure all dimensions including windows, doors, radiator and extractor fan positions are marked up on your drawing. Providing this detail at this early stage will then give you the freedom to experiment with placing different unit combinations within your bathroom plan when visiting the retailer.

03

USEFUL INFORMATION ON BATHROOM UNITS, BASINS & WCs

Our ranges are available in both standard and slim depth formats. Using slim depth furniture in small en-suites or cloakrooms can help maintain vital space in the room without sacrificing bathroom storage.

Semi-countertop basins are available in both slim and standard depth formats and can be mounted on both laminate or solid surface worktops by an experienced fitter.

HELPFUL TIP

All fitted furniture doors will require your fitter to drill and fit your handles, giving you the flexibility to position them exactly where you want.

HELPFUL TIP

Clad-on end panels are required to cover the carcass colour on any exposed furniture run end.

They can also be cut in half and used in between adjoining units to create a traditional framed look and feel which is particularly effective when used with Legacy furniture.

The use of a WC unit and concealed cistern can create a clean uncluttered look for your bathroom. Our dual flush concealed cisterns operate by a pneumatic push button which can be sited in the front removable fascia of the WC unit, or on the top of the unit if desired (only with standard depth WC units. Flush buttons can only be installed on the front fascia of slim depth units.) Our WC units feature a panel which goes to the floor; removing the need for unsightly filler blocks that are sometimes used to fill the void between the back to wall WC pan and the plinth.

If a wall hung WC is required, then a suitable supporting frame must be used (see page 90). Never fit a wall hung pan directly to the fascia of a WC unit alone. Speak to your retailer for more details on compatibility.

04

CONCEALING UNSIGHTLY PIPEWORK

One of the benefits of using our fitted furniture is that unsightly pipework can run along skirting boards and walls whilst being concealed behind units. The furniture is designed with a plinth height of 180mm, which means that even soil pipes can run under the units.

All standard depth base units feature a generous 50mm void at the back, which allows waste pipes and copper pipes to run along the walls whilst being concealed behind the units. Your fitter will only have to notch out the side panel of the unit where the pipe traverses. In addition to the 50mm pipe void, basin units in both slim and standard depth configurations feature a removable back panel to aid the installation process. See diagrams below.

05

STEAM FREE MIRRORS

Many of our mirrors feature heated demister pads to prevent them from misting up. Always use a qualified electrician when installing this type of mirror. Illuminated mirrors and cabinets must be mounted so that the sensor switch is a minimum of 150mm from any adjacent wall or obstruction to ensure function of the sensor switch. Please note, mirrors must never be installed above a bath or shower.

06

BATH PANEL INSTALLATION RECOMMENDATIONS

Designed to complement all door styles. Both front and end panels are supplied with a matching plinth which allows for adjustment depending on site conditions. To achieve a continuous look between the furniture and the bath panel, it is recommended that the panel is set at a height of 520mm, so that a plinth height of 180mm is achieved.

Note: Once installed all bath panels must be sealed along the top, bottom and sides with a suitable silicone sealant to prevent damage from excessive moisture.

GUARANTEES & USEFUL INFORMATION

GUARANTEES

Giving you complete peace of mind

At Tavistock we are extremely proud of our products and our confidence in their quality is such that we offer extended guarantees on many of them, including a 10 year guarantee on all furniture and taps plus a 20 year guarantee on all basins and WCs.

All products are guaranteed against defective workmanship or materials. Length of guarantee depends on the product type - please refer to relevant section of the brochure.

Attention is drawn to the policy of replacing any damaged part with a spare part where possible. Complete exchanges will only be made if damage is extensive. All dimensions are approximate and are quoted within reasonable tolerances.

SWATCH SAMPLES

The Tavistock Collection

Our free swatch sample service is designed to help you make the right finish choices for your home. If you would like a sample of any of our furniture or worktops then please visit our website and fill in the sample request form. Alternatively you will find displays of our fitted furniture and colour samples of finishes and worktops at our specialist retailers across the UK and Ireland. To find your nearest showroom visit our website.

PRODUCT SPECIFICATION

We invest heavily in product improvement and reserve the right to amend specifications at any time if an opportunity to further improve the product occurs to ensure complete customer satisfaction.

The furniture colours shown are representative only and can be affected by a multitude of factors such as lighting and surrounding items. If you are unsure we would recommend obtaining a swatch from our website or visit your local retailer and testing in the intended bathroom area.

Tavistock furniture is designed for use within domestic installations which are adequately ventilated and is not suitable for installation in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

REPLACEMENT PARTS

We carry extensive stocks of replacement parts and are normally able to dispatch spares within 24 hours of your request. Attention is drawn to the policy of replacing any damaged part with a spare part where possible. Complete exchanges will only be made if damage is extensive.

PRICING

All prices are quoted inclusive of VAT which will be charged at the rate applicable on the date of despatch. The prices charged will be those ruling at the date of despatch and Tavistock cannot be held responsible for any errors or omissions to products or prices.

All products and prices shown in this brochure are correct at the time of press.
