Ideal Standard embodies smart design that unites timeless aesthetic with intelligent functionality. Guided by a minimalist, architectural design language, our cohesive bathroom solutions are both modern and lasting in appeal.

With nearly 120 years of heritage in combining design integrity, technical innovation, and trusted performance, we continue to define the standard in bathroom design as part of the Villeroy & Boch Group. Our thoughtful, effortlessly configurable solutions are accessible to every user and space – from residential to commercial and healthcare environments.

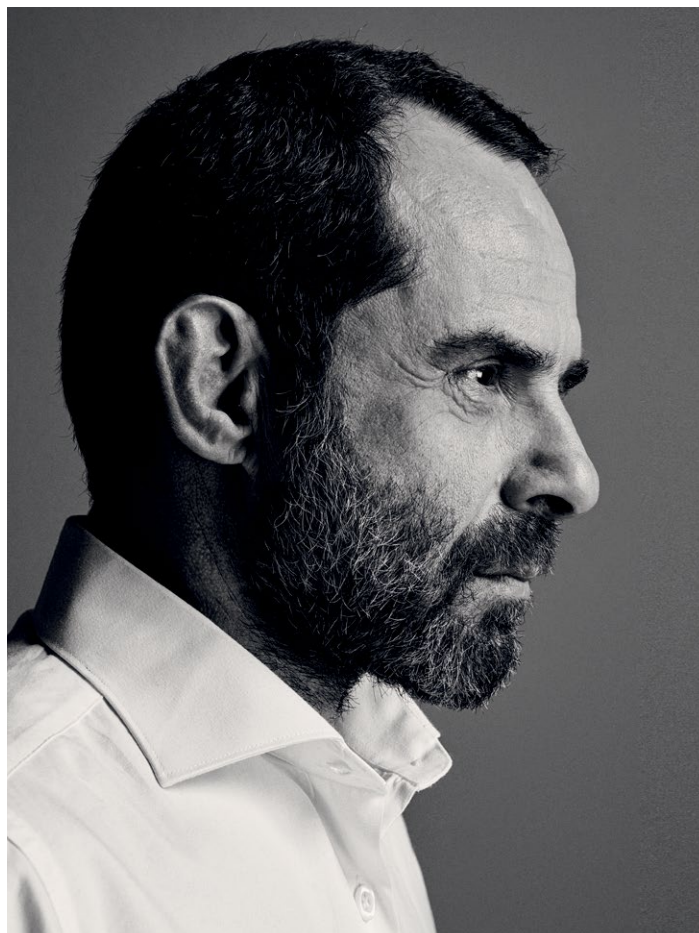

Contemporary design has always been a fundamental part of our DNA. Throughout our history, classic Ideal Standard ranges such as Conca and Zeta have been pivotal in shaping the era of considered bathroom aesthetics in the mid-20th century.

Today, we continue to build on this rich heritage through our collaboration with master designers Ludovica and Roberto Palomba of Palomba Serafini Associati.

Their philosophy focuses on creating products that seamlessly blend aesthetics, performance, heritage, and modernity to produce timeless designs. The numerous international awards we have received are a testament to the success of this approach.
