DESIGN THAT WORKS BEAUTIFULLY

A Scudo bathroom isn't just made to look good, it's designed to feel great, every single day in your home. From the curve of a basin to the soft close of a drawer, the grain of a cabinet finish and the weight of a handle, every element is shaped with care and every detail with purpose. Our collections bring together thoughtful design, quality performance and clean, modern style.

We focus on the details that make a difference: materials that last, colours that match beautifully across your entire bathroom and furniture designed to feel refined and function effortlessly. It's why many of our products are backed by a lifetime guarantee. Nothing makes it into a Scudo collection without reason. The feel, the function, the finish, everything has a role to play.
Scudo: Quality in every detail.

Follow us for bathroom inspiration

Be inspired by

ELEGANCE

BOTA PAGE 94

Elegant and effortless, Bota brings a refined sense of style. With a choice of fluted or smooth fronts, and sculptural leg sets, the design feels clean, balanced and beautifully put together. A premium ceramic basin completes the look, while a soft, curated palette makes it easy to pair with any space - classic or contemporary.

Available in three versatile sizes, Bota is as practical as it is stylish. Spacious drawers offer everyday storage with push-to-open soft-close function built in. A seamless design across the range gives it a calm, flowing feel.

NEW

SIMPLICITY

SHELPH PAGE 154

Freedom to design your way. Shelp is a modular shelf and basin concept designed to give you room to express yourself. With a wide choice of shelf sizes, finishes, drawer boxes and basin styles, it allows you to customise a design that suits your space and the way you live.

technical information.

WCs

We offer a wide range of WCs designed with smart, user-friendly features. Our options include rimless technology for improved hygiene, easy-clean surfaces, and water-saving systems for a more environmentally friendly bathroom. For added convenience, we also provide comfort height models and short projection designs, perfect for maximising space without compromising on comfort.

SOFT CLOSE MECHANISM

Our soft close toilet seats close in a slow, quiet, and controlled way to reduce the impact and extend the life of the seat.

COMFORT HEIGHT

Scudo comfort height WCs are slightly higher than a standard pan to comfortably accommodate taller, less able, or older users.

EASY CLEANING

Push button quick release toilet seats for easy cleaning.

REDUCED WATER CONSUMPTION

Dual flush cisterns reduce water consumption for the environmentally conscious and save on energy bills with 3 and 6 litre flush options.

SHORT PROJECTION

These reduced depth WCs take up less floor space and are perfect for small bathrooms and en-suites.

TAILORED FINISHES

Obtain a perfectly styled bathroom with these extra additions to selected WCs. Black and white push buttons and toilet hinge cover caps are available.

RIMLESS

RIMLESS

We offer a range of rimless WCs with no ledges to reduce bacteria and limescale growth. With the unique flush system, water is projected around the pan, giving an even flow of water over the whole surface of the bowl.

BASINS

Our diverse basins collection is thoughtfully designed to complement our WC range, offering a variety of styles to suit every bathroom. Choose from elegant pedestal basins, modern wall-hung options, or practical semi-recessed designs. For a contemporary touch, our countertop basins combine sleek aesthetics with everyday functionality—perfect for creating a statement in any setting.

BASIN OVERFLOW COVERS

Add a glamorous finishing touch to your bathroom with our basin overflow colour covers which also co-ordinate with our mirrors, taps, and accessories. Choose from matte black, brushed brass, white, gunmetal, brushed bronze and brushed nickel overflow cover options to get the complete look. (Supplied with chrome as standard).

CONTACTLESS SENSOR FLUSH

The Scudo contactless flush sensor is a hygienic, easy-to-install upgrade for new or existing cisterns. Powered by 4 x AA batteries for thousands of flushes, it features an infra-red sensor and manual override. Add a high-end touch to your bathroom with minimal effort and cost.

- Dual flush
- No electrical installation
- Uses 4 AA batteries that can provide thousands of flushes
- Manual back-up, button can still be used as a push button if battery runs out
- Adjustable Dual Flush
- Adjusted between 2 and 6 litres
- RoHS Certified
- IPX4 rated
- Sensor suitable for top mounting only, not suitable for forward facing placement

HYGIENIC SENSOR FLUSH

Wave hand over sensor for half flush.
Hold hand over sensor for a full flush.

EASY TO FIT / RETRO FIT

The contactless flush sensor valve is a great upgrade for most WCs. Fitting cisterns with a height between 260mm-320mm and a flush button hole of Ø40mm it will complement most cisterns on the market.

CONTACTLESS FLUSH SENSOR FLUSH-SENSOR

£106.00

Scan the QR code to see our video demonstrating how the sensor flush works.

ALFIE AVAILABLE FINISHES

Available in Sonoma Oak and Matte Black, Alfie lets you choose between a warm, natural wood tone or a bold, modern statement. The Sonoma Oak finish showcases a light yet warm woodgrain that subtly enhances your bathroom space, creating a soft and inviting atmosphere. In contrast, Matte Black exudes luxury and prestige—qualities that make this striking shade a standout choice in contemporary interior design.

BOTA

Elevate your bathroom with the exquisite Bota collection – a true statement of refined luxury. Expertly crafted with a striking freestanding design, Bota is created to be the focal point of any sophisticated space. Available in both sleek slab and elegantly fluted styles, each piece is thoughtfully designed with meticulous attention to detail.

Bota features a sleek push-to-open mechanism with soft-close functionality, delivering effortless, handle-free elegance.

The slender, sculptural leg set comes in four of our signature finishes, allowing you to personalise your piece with timeless elegance. Complete the look with a premium-quality basin, available in three perfectly proportioned sizes for a flawless finishing touch.

Scan for product & technical information.

BOTA AVAILABLE FINISHES

Bota is offered in a curated selection of three elegant finishes, each meticulously chosen to evoke a distinct mood and aesthetic: the refined Parisian Green, inspired by subtle urban elegance; the warm and grounded Earth Red, reminiscent of sunbaked terracotta landscapes; and the understated Stone, a neutral hue that exudes quiet sophistication. Bota's push-to-open, soft-close system offers smooth, silent performance with a modern, handleless design.

MURO PLUS

Muro Plus is as an adaptable, space-efficient, and stylish solution for modern bathrooms. The next-generation reduced depth design is a clever way to make the most of limited space without sacrificing on storage or utility. The option for both wall-hung and floorstanding installations provides flexibility, making it adaptable to various layouts and design aesthetics. The optional matte black frame is a standout feature, adding a sleek, modern twist that transforms the unit into a freestanding piece.

WATER GUARD

We're proud to set a new standard in sustainable bathroom furniture with Waterguard. Bathrooms are naturally high-moisture environments, which can lead to long-term damage. Designed with this in mind, Waterguard is crafted using premium materials and advanced manufacturing techniques. Its unique construction ensures 100% waterproof protection, preventing delamination and offering a lifetime of resistance against swelling. For a low-maintenance, sustainable, and durable bathroom solution, Waterguard is the perfect choice.

WATERPROOF

ESME CLOAKROOM

The Esme floorstanding unit is a stylish and practical solution for maximising storage in smaller bathrooms. Its compact design ensures that you can add extra storage without sacrificing valuable space. The slimline profile, combined with a space-saving ceramic basin option, makes it ideal for tight spaces. Whether you're looking to store toiletries or other bathroom essentials, Esme's functionality doesn't compromise its aesthetic appeal, making it a perfect choice for a sleek and organised bathroom.

LINEA CLOAKROOM

Fluted finishes have become increasingly sought after in bathroom design for their elegant and timeless appeal. If you're working with a smaller space, get on board with this tactile trend with the Linea cloakroom unit to add character and elevate your bathroom. Our Linea cloakroom unit is perfect for cloakroom, en-suite, and small bathroom spaces. The compact unit features a single soft close drawer with fluted panelling and the inset basin features high quality ceramic construction.

BATH SCREENS

Add a layer of sophistication to your bathroom with our collection of premium bath screens. Designed to seamlessly blend style with practicality, these screens keep water where it should be—while elevating the overall look of your space.

With a choice of finishes to suit every aesthetic, you can go bold with matte black, add a touch of luxury with brushed brass, or keep it classic with timeless chrome. Each screen is crafted for durability and ease, making it as reliable as it is beautiful.

Simple. Elegant. Built to last.

BATH SCREENS

Transform your bathroom with our stylish range of bath screens, available in elegant chrome, bold matte black, luxurious brushed brass and our new brushed nickel finishes. Featuring a variety of design profiles—from sharp square edges and smooth radius curves to contemporary grid patterns—each screen is crafted to deliver both visual impact and everyday functionality. With a focus on quality, durability, and modern design, our collection offers the perfect solution for creating a refined, high-end bathroom space.

SHOWER ENCLOSURES

STEP BY STEP

Scudo offers the complete showering package, with something to suit every taste, space and budget.

Discover a premium selection of enclosures and shower trays, which delivers a truly exceptional showering solution.

This diverse and versatile collection offers the ultimate in quality, precision and craftsmanship and encompasses something for every style and shape bathroom.

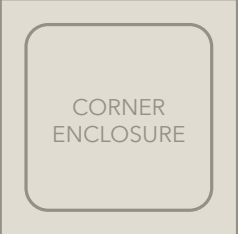

We only use the finest quality materials to guarantee unsurpassed quality, ensuring all our products reach exceptional levels of style and performance.

All our enclosures and shower trays are designed for high performance and are built to last with a lifetime guarantee.

STEP 1

Position

The first decision to make is where to position your shower enclosure in the perfect space to work with your design. Showering positions are usually in a recess, corner or against a wall.

 <p>RECESSED ENCLOSURE</p>	 <p>CORNER ENCLOSURE</p>	 <p>THREE-SIDED ENCLOSURE</p>
Single door is all that is required for a recessed enclosure.	Positioned in a corner and a flexible option. Usually a door and side panel design.	Single wall space which accommodates a single door and two side panels.

STEP 2

Measure

Measuring for the shower enclosure is the next step to creating your new bathroom space. The area that you have available will determine the type of shower space you can accommodate as well as any tolerances or alterations needed.

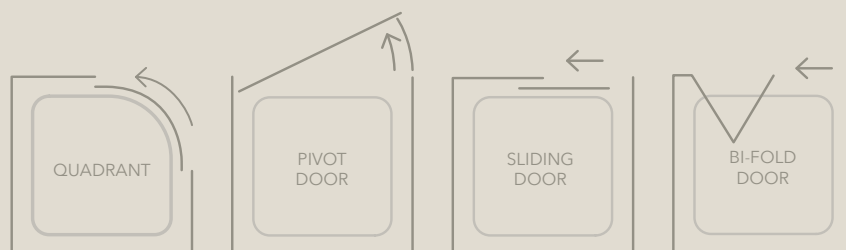

It's important that you plan ahead and take exact measurements in your bathroom. Then simply choose from our comprehensive range of sizes to create your dream bathroom.

STEP 3

Style

Once you have decided your bathroom plan and where to locate your enclosure, you can choose your style. Where you want to place your shower may dictate the type of shower enclosures you can choose from. Whatever your design, we have something that will work with your space to create a stylish look.

STEP 4

Finish

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

Matte Black

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Brushed Brass

Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.

Gunmetal

New signature finish for use in modern and contemporary designs to add elegance to your bathroom.

Brushed Bronze

Give your bathroom the sophisticated appearance it deserves with our striking new brushed bronze finish.

Brushed Nickel
NEW

Designed to blend seamlessly into any décor, brushed nickel offers a soft, silken glow and a touch of refined texture.

STEP 5

Glass Options

Acqua Shield Glass Cleaning Technology

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range.

By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

Scudo offers a choice of toughened safety glass options with easy clean technology. Choose from 6mm or 8mm thick glass.

STEP 6

Eco-Stone Shower Trays

Complete your bathroom design with a low profile Eco-Stone shower tray which complements our range of enclosures.

This elegant, modern design is extremely durable and is available in a wide range of sizes to suit every bathroom.

Please see pages 290-293 to see our full range of shower trays.

ATHENA

Introducing Athena, our premium collection of enclosures crafted to elevate the modern bathroom. Merging sleek, clean lines with exceptional build quality, Athena embodies the perfect balance of contemporary style and functional design. Each enclosure in the range is thoughtfully engineered to deliver lasting performance while enhancing the overall aesthetic of your space. Whether you're designing a minimalist retreat or a bold statement bathroom, Athena offers the elegance and durability to suit every vision.

ATHENA RANGE FEATURES

TOUGHGLASS

Athena shower enclosures are built for daily use, featuring toughened safety glass (tempered glass) as standard, which is about four times stronger than regular glass. When broken, tempered glass fractures into small, harmless pieces instead of jagged shards, making it safer for high-traffic areas like bathrooms. All glass is rigorously tested to meet EN14428 standards.

HIGH-QUALITY FINISHES

Athena enclosures are made to the highest standard, this includes their finish. We are proud to offer a variety of the most stylish finishes currently in the bathroom industry, this features chrome, matte black and brushed brass.

SEAMLESS DESIGN

Athena frameless enclosures offer significant structural integrity, promoting light and accentuating space. Easy to clean without any worry of build-up along frame edges.

ECO-FRIENDLY

Athena enclosures endeavours to use eco-friendly, sustainable and/or biodegradable packaging and materials wherever possible to do so.

LIFETIME GUARANTEE

All Athena products offer the ultimate in quality, precision, and craftsmanship, exceeding approved UK and European testing standards.

ACQUA SHIELD CLEANING TECHNOLOGY

Acqua Shield is a unique hydrophobic coating that is bonded with our toughened safety glass during the manufacturing process. This invisible water-repellent barrier protects against limescale, soap scum and bacteria build-up for an easier clean and longer-lasting gleam.

All glass featured in the Athena showering collection are pre-coated with Acqua Shield, prolonging the life of these key parts of your bathroom.

ATHENA

ATHENA AVAILABLE FINISHES

Elevate your bathroom with the premium Athena enclosure collection, available in three stylish finishes: Chrome, Matte Black, and Brushed Brass. Designed to complement any modern space, Athena combines minimalist aesthetics with durable construction, delivering both elegance and functionality to your bathroom.

KORRA

Discover the Korra collection - a range of high-quality shower enclosures designed for modern living. Crafted with premium materials and precision engineering, Korra offers sleek aesthetics, reliable performance, and effortless functionality to enhance any contemporary bathroom.

KORRA RANGE FEATURES

SOFT CLOSE DOORS WITH COLOUR MATCHED SEALS

Scudo magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

DESIGNED IN THE UK

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

WETROOMS

STEP BY STEP

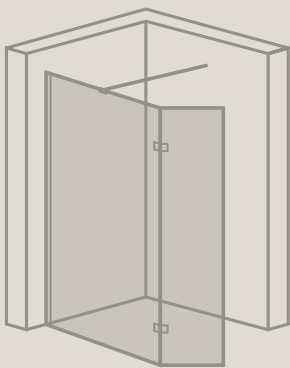

CREATE YOUR PERFECT WET ROOM

Wet rooms are becoming more and more desirable, and they're a great way to add value to your home. A wet room is an entirely waterproofed room and is a popular choice for modern bathrooms.

STEP 1

Position

This quality range of Scudo wet rooms has been designed with flexibility in mind and are typically installed in a corner of a bathroom.

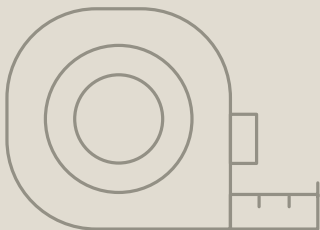

Wetroom panel positioned in a corner with a deflector panel.

STEP 2

Measure

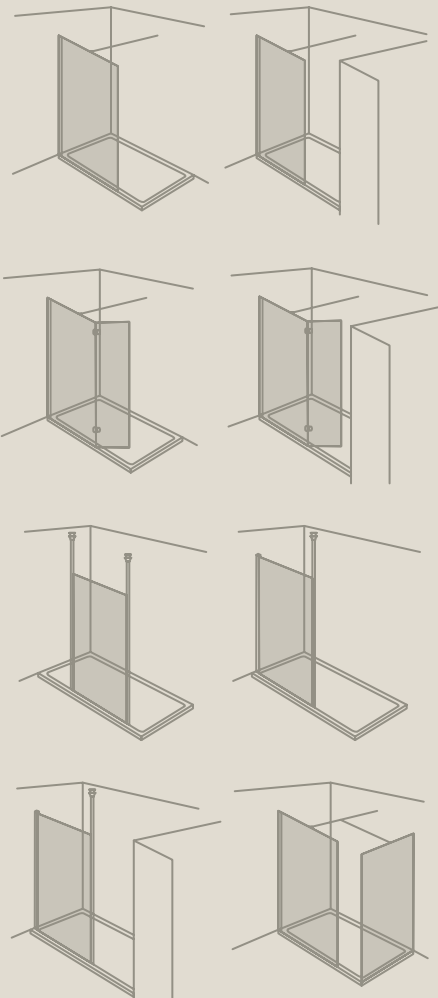

Create a minimalist bathroom space with our shower glass panels for wet rooms with options for all bathroom sizes and configurations. Simply measure your space and choose from our glass panels ranging from 600mm to 1200mm.

STEP 3

Style

The Scudo range of wet room panels and accessories can be combined to create hundreds of different configurations, ensuring the perfect product for your bathroom. When it comes to the framing of your glass panel, you can opt for a modern frameless design or a more sturdy, robust metal profile.

STEP 4

Finish

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

Brushed Brass

Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.

Brushed Bronze

Give your bathroom the sophisticated appearance it deserves with our striking brushed bronze finish.

Matte Black

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Gunmetal

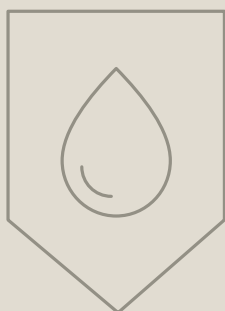

Signature finish for use in modern and contemporary designs to add elegance to your bathroom.

Brushed Nickel

NEW

Designed to blend seamlessly into any décor, brushed nickel offers a soft, silken glow and a touch of refined texture.

STEP 5

Glass Options

All our glass panels are made from toughened safety glass. All Scudo wet room glass panels are 1950mm or 2000mm in height for extra practicality.

Our panels are also treated with Acqua Shield glass cleaning technology which resists the build-up of limescale and grime on the glass surface making it easier to clean. On-trend fluted glass is now available as an option.

STEP 6

Eco-Stone Shower Trays

Scudo offer options with and without a shower tray. As a wet room design is an entirely weatherproofed room, there is no need for a shower tray. A walk-in shower design still uses a tray, like a conventional shower, but offers more space.

Please see pages 290-293 to see our full range of shower trays.

FORTE

Introducing our quality Forte Wetroom Collection, designed for both style and durability. Each panel stands at an impressive 2000mm in height and features 8mm toughened safety glass for added strength and safety. Finished with an Aqua Shield glass treatment to help repel water and reduce cleaning, these wetrooms can be installed on either a shower tray or tiled floor, offering flexibility for any bathroom layout.

FORTE WETROOMS & PROFILES

RANGE FEATURES

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

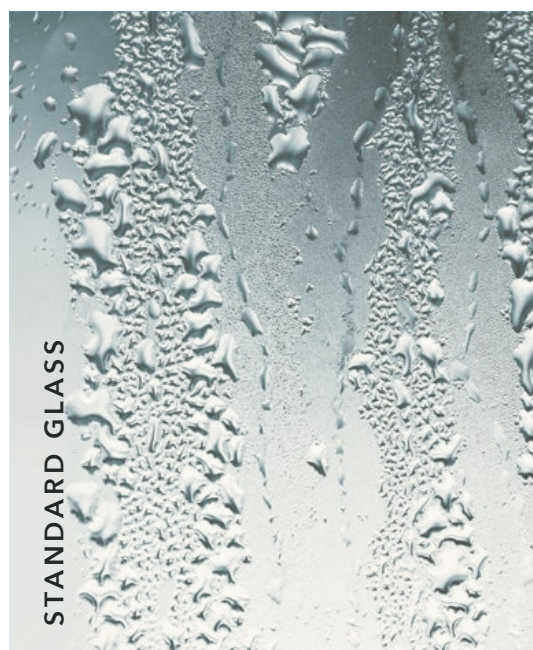

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

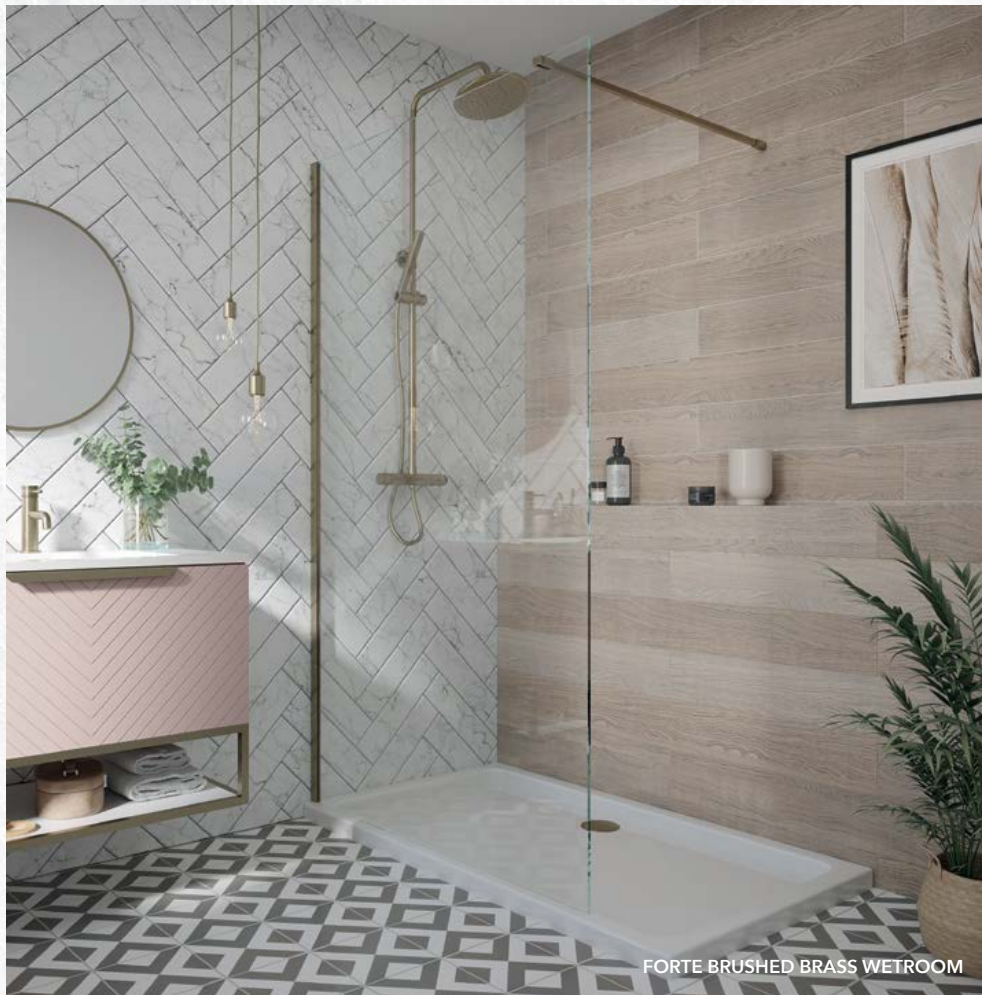

DESIGNED IN THE UK

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

FORTE WETROOMS

- 2000mm in height
- 8mm toughened safety glass
- Acqua Shield glass treatment as standard
- Modern minimalist support arm included
- Can be installed onto a shower tray or a tiled wetroom floor
- 20mm adjustment in wall channel for out of true walls
- Lifetime guarantee

CEILING POSTS & PANELS

The floor to ceiling post can fitted to any Scudo 8mm wetroom panel. Supplied in two sections, the post can be easily cut down to suit any ceiling height under 3 metres. The post can be secured to a shower tray or tiled floor, as well as the ceiling to create a stable, practical addition to your wetroom installation.

Two wetroom panels simply combined to create a minimalist walk in design. The image (right) shows two panels and their support arms combined using a joining piece (SCUDJOIN).

ECO-STONE SHOWER TRAYS

ECO-STONE

Join us in creating a greener future, one shower at a time. Eco-Stone shower trays combine exceptional quality with a conscious approach to protecting our environment.

ENVIRONMENTALLY CONSCIOUS FILLER

Eco-Stone shower trays feature limestone powder as the primary filler. To further enhance sustainability, these trays incorporate up to 30% recycled content, utilising waste fragments from glass production that would have otherwise been destined for landfills.

This eco-friendly approach ensures a reduced carbon footprint while maintaining the highest quality standards.

GEL COAT FINISH

The Eco-Stone gel coat technology is an environmentally friendly alternative to traditional unrecyclable methods using acrylic skins with stone resin filler. This can potentially save up to 700,000 sheets of acrylic annually which equates to an astounding 1.4 million kg's of plastic from polluting our environment.

SAY GOODBYE TO DELAMINATION

Unlike acrylic shower trays prone to delamination, our gel coat finish provides a reliable solution. Delamination, where the acrylic skin separates from the stone filler, causing bubbles and rendering the tray unusable, is a problem you won't encounter with our superior gel coat technology.

ECO-STONE SQUARE

ECO-STONE SHOWER TRAYS

Introducing the luxurious collection of Eco-Stone shower trays, meticulously crafted from a remarkable blend of mineral compounds and resin.

These exquisite trays showcase a 30mm thickness, offering unrivalled durability. Their gel coat exterior layer have been expertly thermally fused, ensuring maximum strength.

COMPONENT SHOWERS YOUR WAY

Component showers offer a customisable approach to designing your own unique shower experience, allowing you to mix and match various shower components to suit your preferences and needs.

By selecting individual elements such as shower heads, valves, slide rails, handsets, and other accessories, you have the freedom to create a shower system tailored specifically to your desired functionality, style, and comfort.

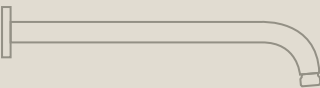

YOUR POTENTIAL COMPONENTS

Fixed Shower Head

Our shower heads come in various shapes and sizes to suit your bathroom's aesthetic.

Wall or Ceiling Arm

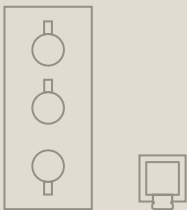

The wall arm offers stability and ease of installation.

The ceiling arm provides a luxurious overhead rainfall shower experience.

Concealed or Exposed Valve

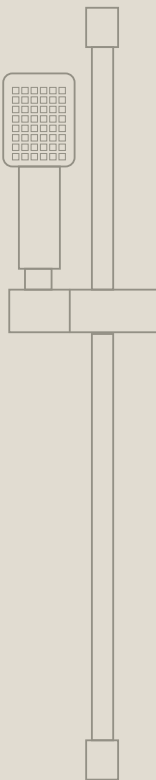

Concealed valves provide a clean and minimalist look by hiding the plumbing. Choose from 1, 2 or 3 outlets.

Exposed valves offer easy access and a traditional aesthetic.

Slide Rail or Handset

The slide rail provides adjustable height and hands-free convenience.

The handset offers versatile, targeted spray and easy manoeuvrability.

CHOOSE A CONFIGURATION THAT SUITS YOU

Shower Collection

Available Finishes

The most exciting part of bathroom design is choosing your perfect finish. Our chrome finish is as popular as ever and we have seen the emergence of colour which can give a space a different dimension.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

Matte Black

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Brushed Brass

Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.

Gunmetal

Signature finish for use in modern and contemporary designs to add elegance to your bathroom.

Brushed Bronze

Give your bathroom the sophisticated appearance it deserves with our striking brushed bronze finish.

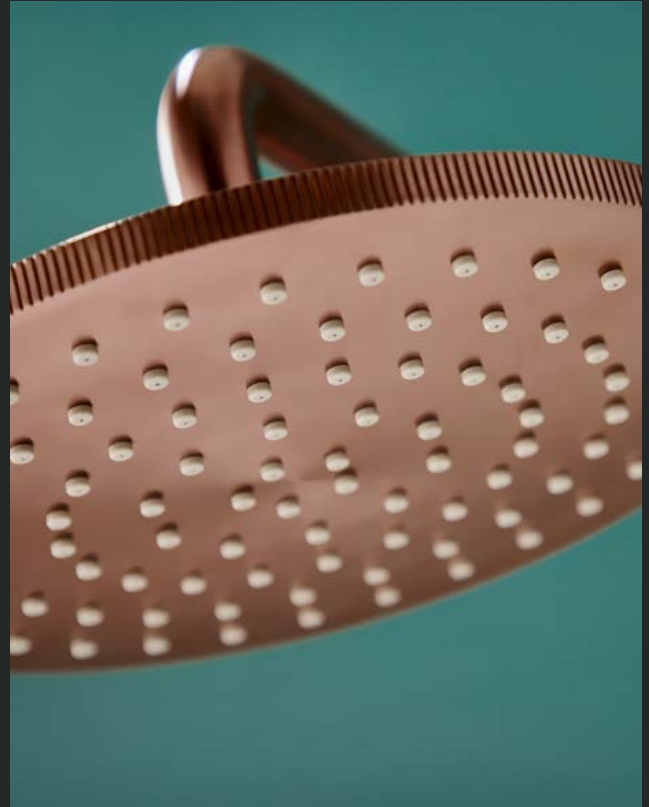

Brushed Nickel

NEW

Designed to blend seamlessly into any décor, brushed nickel offers a soft, silken glow and a touch of refined texture.

BRUSHED BRONZE

SELECT A FIXED SHOWER HEAD

Our shower heads are available in a variety of round and square designs, including a fluted option for a more unique and elegant look. The Spotlight shower head stands out as a premium choice, designed to make a bold statement in modern bathrooms, with its striking design and high-quality brass material.

To simplify installation, all Scudo shower heads come equipped with shower wall arms, ensuring that you have everything you need for an easy setup.

Electrical only heating

When selecting an element(s) we advise to choose one which matches closest to the radiators T50 Watts as possible without exceeding the products maximum. Exceeding the maximum runs the risk of the element overheating. This can be done using more than 1 element if required.

Electric only installation, element(s) should match room BTU / Watt requirement, and supersede the radiator output when selecting suitable size product.

Example room requires

1900 BTU's or 556 watts, requires 600 watt element so you would be unable to select a radiator under 600 watts.

Dual Fuel element

As this method usually means the electric element is a back up rather than primary system an element can be as low as 50% of the maximum radiator T50 Watts.

RANGE FEATURES

Look out for these key features when choosing your bathroom mirror or cabinet.

LANDSCAPE & PORTRAIT MOUNTING

Add a personal touch to your bathroom by hanging a mirror that complements your decor and style. These mirrors can be hung landscape or portrait to enhance the ambiance of your space and create a sense of depth.

EASY TOUCH COLOUR CHANGE

These mirrors are built using an ultra-modern no-touch on/off switch. The light can be turned on and off by gently touching the sensor on the glass or waving your hand in front of the sensor. On selected products the colour of the light can be changed from warm white to bright white by touching the sensor and waiting until the desired colour/brightness is reached.

INFRARED ON/OFF SWITCH

Some of our mirrors and cabinets are built using no-touch on/off switches. By simply moving your hand under the sensor the mirror can be turned on and off without the need for a pull switch or leaving fingerprints on the mirrors.

WIRELESS CHARGING PAD

Latest technology featuring a wireless charging pad to safely charge compatible phones and accessories even when the lights are off.

HEATED DEMISTER PAD

All of our mirrors come with heated demister pads, enabling you to use the mirrors in steamy bathrooms. The pads heat the mirror to above room temperature, which stops mist appearing on the mirror.

IP44 RATED CLASS 1 RATED

A selection of mirrors are IP44, Class 1 Rated and suitable for installation in zones 2 or 3 of a bath/shower room.

DOUBLE-SIDED MIRRORS

Some of our cabinets are available with mirrors on the inside as well as outside.

TOOTHBRUSH CHARGING POINT

Innovative bathroom mirror charges compatible electric toothbrushes so that they have full power all the time.

BLUETOOTH™

This innovative feature allows any Bluetooth™-enabled device to stream music or live radio to the mirror.

SHAVER SOCKET

Built-in charging socket suitable for toothbrushes, shavers and trimmers.

ALBA LED MIRROR

Enhance your space and add the perfect finishing touch with our Alba LED Mirror. Alba features a modern semi-circular design with straight edge and is perfect to fit stylishly above your furniture or anywhere in the bathroom.

The backlit mirror enhances the circular shape and provides an ambient glow, and the built-in demister pad prevents steaming. The infrared technology control adjusts between cool and warm LED lighting.

ZONE 1

Refers to the area above the shower up to a height of 2.25m and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

ZONE 2

Covers an area of 0.6m wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

OUTSIDE ZONE

This has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom light is rated IP65, then the 6 means its 'Protected against dust' and the 5 means its 'Protected against water jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, e.g. tools, dust, fingers, etc.

- 0 No protection
- 1 Protected against solid objects with a diameter of 50mm and over (e.g. accidental insertion of hands)
- 2 Protected against solid objects over 12mm (e.g. jointed fingers)
- 3 Protected against solid objects over 2.5mm (tools)
- 4 Protected against solid objects over 1mm (small wires)
- 5 Protected against - limited ingress permitted (no harmful deposit)
- 6 Totally protected against dust

Second numeral - protection against ingress of liquids.

- 0 No protection
- 1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect
- 2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.
- 3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.
- 4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.
- 5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.
- 6 Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.
- 7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.
- 8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.
