QUALITY & SERVICE

Exceptional service is as integral to our business as outstanding product design and manufacturing. We invest heavily in continuous product improvement and reserve the right to amend specifications at any time if an opportunity to further improve the product occurs to ensure complete customer satisfaction.

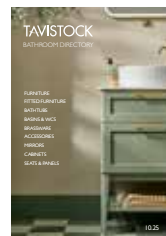

Products with a brass finish may not match exactly due to variations in the brass alloy composition, differences in finishing techniques, natural aging processes causing patina, and the lighting they are compared in. Images shown in this brochure are representative only.
