

**Dwelling type:** Mid-floor flat  
**Date of assessment:** 18 November 2014  
**Date of certificate:** 18 November 2014

**Reference number:** 9137-3808-7090-9194-2025  
**Type of assessment:** SAP, new dwelling  
**Total floor area:** 73 m<sup>2</sup>

### Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient

|                                                        |                |
|--------------------------------------------------------|----------------|
| <b>Estimated energy costs of dwelling for 3 years:</b> | <b>£ 1,005</b> |
| <b>Over 3 years you could save</b>                     | <b>£ 3</b>     |

### Estimated energy costs of this home

|               | Current costs      | Potential costs    | Potential future savings                                                            |
|---------------|--------------------|--------------------|-------------------------------------------------------------------------------------|
| Lighting      | £ 144 over 3 years | £ 144 over 3 years |  |
| Heating       | £ 558 over 3 years | £ 558 over 3 years |                                                                                     |
| Hot Water     | £ 303 over 3 years | £ 300 over 3 years |                                                                                     |
| <b>Totals</b> | <b>£ 1,005</b>     | <b>£ 1,002</b>     |                                                                                     |

These figures show how much the average household would spend in this property for heating, lighting and hot water and is not based on energy used by individual households. This excludes energy use for running appliances like TVs, computers and cookers, and electricity generated by microgeneration.

### Energy Efficiency Rating

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

The EPC rating shown here is based on standard assumptions about occupancy and energy use and may not reflect how energy is consumed by individual occupants.
