

Additionally, given the fact that there are reported attempts by some visitors to circumvent enhanced airport screening procedures by obtaining a laissez-passer or new passport, we have also instituted the following measures:

1. All persons who arrive with a laissez-passer will be immediately taken to the POC for secondary screening. If there is any suspicion of illegal attempts to circumvent the process, such a visitor will be kept in the POC for 14 days.
2. The above is also applicable to new arrivals with a brand-new passport. This advisory will be continuously modified as the epidemiology of the disease evolves over time.

Thank you
