

High-speed Face Mask Making machine - Blank part

Main Features

- **Ultrasonic melting technique, single man operation.**
- **Automatic working from feeding to nose-wire insert, sealing, cutting finished products.**
- **Machine frame adopts aluminum. Anti-rust, durable, easy cleaning and neat.**

Equipment Introduction

It is a fully automatic face mask blank machine with 1 person is needed to operate, including automatic material passing, nose line inserting, cutting, floding, wrapping, ultrasonic welding, slicing and so on ,It has a high output.

Technical Parameters

Brand name	KXT
Voltage	220V
Power	2.6KW
Style	Ultrasonic Welding
Frame	Aluminium Body
Dimension(L*W*H)	2800(L)*1300(W)*1700(H)mm
Warranty	1 year for mechanical components
Capacity	150-200pcs /min
After-sales	Engineers are available or 24-hour online guidance
Usage	Producing Face Masks (1-4 ply face mask)

Services

- 1) **Provide 24-hour service hotline.**
- 2) **Reply and find out solution within the shortest time according to customer's requirement.**
- 3) **Provide on call service to help customer solve problems.**
- 4) **Provide free of machine installation as well as commissioning, and inform customer how to do the machine maintenance.**
- 5) **Prepare customer's feedback tracking**
