

Music - Mountains

pitch	How high or low an individual sound is.
melody	The tune (e.g. a pattern of different pitches).
dynamics	The volume (e.g. loud and quiet).
practise	Repeating something to become better.

Composition

A composition is a piece of music that you make yourself. It is like telling a story but with sounds instead of words. A composition is written down so every time it is played, it sounds the same.

You do not have to be able to read music to be able to compose. You can write it down in whichever way makes sense to you!

Melodic movements

step

Two notes next to each other (e.g. C, D).

leap

Two notes that have a greater distance between them (e.g. C, G).

slide

A note smoothly moves to another note, passing through the pitches in between.

same

Two notes that have the same pitch.
