With mounting pressure to deliver results, do you have the **space and structure** to improve how your applications deliver value?

Info-Tech's Applications Playbook provides that **structure** – 12-step, road-tested system to improve how your applications deliver value.

Projects take too long
and fail to deliver value

A structured way to prioritize
and deliver applications

Immature application
processes

A system to improve and
scale delivery

The Applications Playbook Summit provides that space – a one-day virtual session to step back and apply the Application Playbook.

Leave with a clear understanding of your priorities.
