With mounting pressure to deliver results, do you have the **space and structure** to improve how your security function delivers value?

**Info-Tech's Security Playbook** provides that **structure** – 12-step, road-tested system to improve how your security function manages risk.

Security work isn't tied to business value

A structured way to prioritize and communicate security initiatives

Legacy and fragmented security tools and processes

A system to modernize and manage your security posture

**The Security Playbook Summit** provides that **space** – a one-day virtual session to step back and apply the Security Playbook.

Leave with a clear understanding of your priorities.

# Security Playbook Summit

FACILITATOR *Hendra Hendrawan, Senior Technical Counselor* DATE *Wednesday, May 20, 2026* TIME *11:00 – 5:00 pm EST* FORMAT *Virtual – Microsoft Teams*

## Apply the **Security Playbook**

In a guided working session – directly to your environment

## Work through key steps

With interactive exercises and expert guidance

## Validate decisions

Through peer discussion and roundtable scenarios

## Leave with clear priorities

And clear next steps to move forward
