Time	Session Type	Session	Track	Role	Description
1:30 pm	REGISTRATION				
2:00 pm	WELCOME	Welcome and Opening Remarks			
2:15 pm	TECHNOLOGY KEYNOTE	Agentic IT: From Hype to Value	Agentic IT	All Roles	In this age of AI, you're expected to make confident bets on emerging technology while balancing credibility, delivery pressure, and board-level expectations. This opening keynote reframes the conversation, challenges familiar narratives, and sets out how CIOs and senior IT leaders can drive sustained, enterprise-level impact beyond the hype.
2:45 pm	TECHNOLOGY KEYNOTE	Designed for Autonomy: Inside the Agentic Enterprise	Agentic IT	All Roles	Most organizations will add agents. Very few will become agentic. As AI systems move from assisting tasks to executing workflows, the challenge is no longer adoption, it's design. Agentic AI exposes process ambiguity, data fragmentation, and decision chaos. It demands clarity in architecture, governance, and accountability. We're about to discover which enterprises were truly digital, and which were only digitized. This session explores what it takes to build an enterprise architected for autonomy, from orchestration and integration to governance, structure, and decision design. The future won't belong to those experimenting at the edges. It will belong to those bold enough to redesign the core.
3:15pm	NETWORKING BREAK				
3:45 pm	ACTIVITY	Build Your AI Strategy & Roadmap	AI	CIO	In this interactive session, we will help you derive an initial shortlist of AI use cases to guide the foundational steps of creating an AI strategy and roadmap.
3:45 pm	ACTIVITY	Build a Business-Aligned IT Strategy	Value-Driven IT	CIO	In this session, our expert analysts will help you craft a goals cascade for use in your IT strategy document. We will quickly work through the process of gathering enough business context and details of new and existing IT initiatives to demonstrate how to achieve alignment.

3:45 pm	ACTIVITY	Establish Effective Data Governance	Value-Driven IT	Data & Analytics	Data governance doesn't have to be overwhelming. In this interactive session, data leaders will learn the key first steps to get started and build a governance program that supports critical initiatives and long-term strategy.
4:30 pm	TECHNOLOGY KEYNOTE	Your Most Underused Asset: Unlocking the Hidden Value of Your Service Desk Data	Playbooks	All Roles	Every month, your IT service desk generates thousands of tickets, and buried inside that data are the patterns, inefficiencies, and cost leaks quietly holding your organization back. In this session, we'll explore how AI-powered analytics can transform your help desk data into a continuous improvement engine: surfacing root causes, uncovering shift-left opportunities hidden in your most repetitive and high-cost tickets, connecting findings to proven research, and delivering prioritized recommendations your team can act on immediately. Your ticket data is one of the most underused assets in IT – it's time to unlock its value.
