With mounting pressure to deliver results, do you have the **space and structure** to improve how your security function delivers value?

Info-Tech's Security Playbook provides that **structure** – a 12-step, road-tested system to improve how your security function manages risk.

Security work isn't tied to business value

A structured way to prioritize and communicate security initiatives

Legacy and fragmented security tools and processes

A system to modernize and manage your security posture

The Security Playbook Leadership Forum provides that **space** – a one-day virtual session to step back and apply the Security Playbook.

Leave with a prioritized security plan — built during the session.
