Or you can download the app direct to your phone. Open your App Store and search for **School Updates**, it is free to download and install.

2. Open the App and you will be told that there are no schools in the list. To search for your school touch the Add school button at the top left of the screen, enter the postcode of the school that you are looking for. You may be offered more than one school.

3. The schools that you do not want, touch the no entry sign to the left of the name and touch the delete button. Once you just have the school that you want, touch the **Done** button. The **Edit** option allows you to delete schools in your list.

4. The news items are displayed in the News Tab. This application gets the news items from the **Manage > News** section of your School Jotter website. If you touch a news story it will expand so that you can read the whole article.
