

**“Our designation has a clear focus on the support and development of schools in inner city Birmingham; our strong moral purpose drives this.”**

**- The Greet Teaching School Alliance**

**At Nelson Mandela School we believe passionately in working collaboratively with others to ensure that ALL children are at the heart of learning and have the best opportunities and outcomes regardless of which school they attend.**

**This cannot, and will not, happen if schools are isolated.**

**Learning is a lifelong journey and working collaboratively enables us all to grow and learn from each other, whilst also providing us with many opportunities to give and share outstanding practice.**

**To find out more about our collaborative working and the many achievements of The Greet Teaching School Alliance please visit:**
