

## Equality Objective;

Why	At St Margaret Ward School in 2014 there was a larger (than National Statistics) gap between the number of boys 35% and the number of girls 0% who failed to achieve Level 4 or above for writing in KS2 2014 SATs.
How	Consult with stakeholder and seek their opinions on how to improve the performance of boys. Explore best practice in schools in our cluster and via Loreto partnership and local clusters.
Outcomes	An increased level of boys achieving Level 4 or above in writing to 75% therefore narrowing the gender gap significant.
