

## **How will the curriculum be matched to my child's/young person's needs?**

Differentiation is embedded in our curriculum and practice. We have a tailored personalised curriculum and regular pupil progress meetings which help us to monitor and reflect on the next best steps for the children. All our teachers are clear on the expectations of Wave 1 provision and this is monitored by the head teacher, Key stage and subject leaders and by the Local Authority. This takes on the form of lesson observations, learning walks and book scrutiny.

All children in the Early Years work towards the Early Learning Goals and in Year 1 and 2 children follow the National Curriculum.

We hold regular individual teacher/pupil conferences to review learning and establish next steps. Children are actively involved in planning and reviewing their own curriculum.
