

15th October 2015

Hello, we are Daisy and Sophie, Bean school's JRSO'S - that stands for Junior Road Safety Officers.

Being part of the JRSO team is a very important job. We have to make sure that every child in our school is safe when crossing the road.

Whilst doing our job we have a responsibility to make sure that you and your family know what to do to make you safe.

We recently attended a JRSO conference at County Hall in Maidstone, we learned about the importance of seat belts, car seats and cycling helmets. Did you know that children must use a car seat until they're 12 years old or 135cm tall?

To make sure that all the adults and children at Bean Primary School are safe we have come up with the idea of using hazard cards which we will be handing out to anyone who parks on the yellow zig zag lines when they drop off and collect their children.

Remember in the winter months it starts getting dark early. If you are out walking in the dark then wear light coloured clothes and always have something reflective on your body so that drivers can see you. Did you know that over 150 children are injured on our roads every year?

Don't forget to, STOP, LOOK, LISTEN and THINK when crossing a road.
STAY SAFE!
