

Class two have begun their new Science theme with their usual enthusiasm. As they are learning about 'The Iron Man' they thought about food a robot may like to eat. This resulted in an investigation to find iron in breakfast cereals.

They used a pestle and mortar to grind the cereals. After that, they used magnets to separate the iron from the rest of the cereal. The children really enjoyed their lesson and can't wait to find out more about forces.

Megan's bridge

Elijah's bridge

Mrs Britton's class visited Birch Green Care Home to sing to the residents. The children's singing was brilliant and they have been asked to record a CD so that the residents can enjoy their singing at any time. After their performance the residents were delighted to chat to the children. We were so proud of their impeccable manners and politeness with the residents.

Thank you to Mr and Mrs Lake, Mr Leigh, Mrs Sherwood, John, Amara, Ryan and Alice who helped to 'turn over' the raised beds last Saturday morning. It was really appreciated. The raised beds are now ready for the Gardening Club to begin planting.

Stars of the Week

Reception: **Tom** for reading all his 'tricky words' and for doing super number work

Year one: **Joel** for good answers when talking about how to stay safe online

Year two: **Bessie** for super writing and giving 100% all week

Year three: **Oliver** for showing so much enthusiasm during our Science investigation when we extracted the iron from cereal

Year four: **Milly** for finding out how Isaac Newton discovered gravity in Homework Club

Year five: **Elijah** for making a wonderful bridge in Design Technology

Year six: **Megan** for making a wonderful bridge in Design Technology

Attendance

Class 3 with 95.83%

Next Week

Dance Festival for a group of Year one and two children on Wednesday morning.
