Anticipated spend of PSG spending by item/ project 2014-2015			
Item/project	Cost	Objectives	Outcomes
Milton Keynes Schools Sports Partnership	£1,500	<p>To support all staff involved in leading PE lessons allowing access to PE, sport and physical activity CPD – 20 course programme</p> <p>To provide pupils with regular opportunities to participate in competitive activities</p> <p>To provide support for PE coordinators to develop PE planning and assessments.</p>	<p>There is a programme of events set out for children to compete both competitively and through skill based activities. More children are involved in competition out of school. Areas identified through Sports coaches' self-evaluation are accessed, which has led to greater competence in teaching a range of curriculum subjects. Support for subject leader to raise standards of teaching and therefore attainment in PE. Networking and access to planning and assessment tools, to develop assessment within school to track pupil attainment.</p>
Yoga Training for teaching staff	£885	To enable all staff to have access to yoga training so that it can be incorporated into normal school daily routines.	Children have been receiving yoga lessons within school from an outside provider. Now teachers will be able to use the skills and tools from yoga within their daily sessions to improve children's ability to concentrate and feel prepared to learn therefore apply themselves in lessons. Children have

			access to a range of tools to ensure good mental health and well-being.
Yoga Instruction	£3,800	To provide children with strategies through yoga for ensuring their mental health and well-being. To prepare children mentally for learning.	Yoga has many health benefits. These benefits will enable children to be more physically active and achieve higher in P.E. As a school committed to the mental health of our pupils we wanted children to have access to learning these skills. Especially our older year children on the run up to the Year 6 SAT's. Children will be better prepared mentally for learning, which will see increased attainment.
BMT/Bilateral training	£1000	To provide training for teaching staff and sports coaches to help children with their movement skills and get children moving more during P.E lessons.	Integrated activities daily into the classroom and specific children identified for intervention. Bilateral will lead to increased coordination of children and better gross and fine motor skills helping all children across all curriculum areas.
Equipment	£2037	To further develop key physical skills during playtime by providing equipment for children to practise and football kit for the team.	Children will be more competent in the skills of throwing, catching, balance and hand-eye co-ordination. Equipment will enable children to be taught to a high standard with high quality equipment.
PE/ Sports coaches	£18,110	To deliver national curriculum PE throughout the school to have higher quality taught PE within Oxley Park Academy To allow different children to take on a challenge and participate in sports academies to progress their skills further if they have an interest or a strength in that sport. To provide high quality sports academies and a range of after school clubs to give	Children progressing within their physical education sessions from a range of experts with qualifications A variety of children, from all different year groups, have been getting involved with different sports academies and this has reflected on their

		<p>children wider opportunities to participate in sports. To allow children who attend the after school provision to have access to a range of quality sporting experiences.</p>	<p>enthusiasm to sport. We are attaining higher in competitions that we are entering and there is increased participation from children. There has been an increase in the numbers of our after school sports clubs and children are enjoying being active.</p>
