12th April 2016

Dear Parents and Carers,

As you know, ISS Facility Services are now the providers of our school meals service. ISS have introduced new software that improves the service we currently offer by:

- Providing an online payment facility that lets parents see the cash balance left on their child's account;
- Enabling parents to select and pre-order meals in advance should they want to;
- Allowing parents to see what meal options children have selected.

To sign up for this new service please register at:

<https://host.cypad.net/ISSEducationDevon/Index.aspx?id=SignIn>

Please note that online payments to Schoolcomms for dinners will not be available after Wednesday 13th April. Any credit balances will be transferred to the new Cypad system, but please be patient as this may take a while to show up on your new account. Payments for school activities will continue to be paid through Schoolcomms as usual.

ISS will provide personalised menus to those children who have special dietary requirements. If you have not received a referral form and your child has a food allergy, intolerance or special medical condition, please ask for a form from the school office.

Kind regards,

Business Management Team
