

Dear Parents

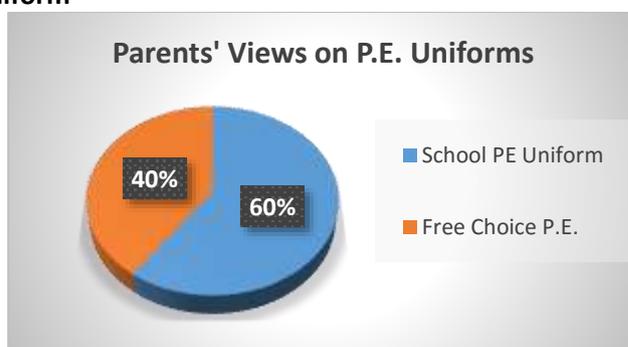

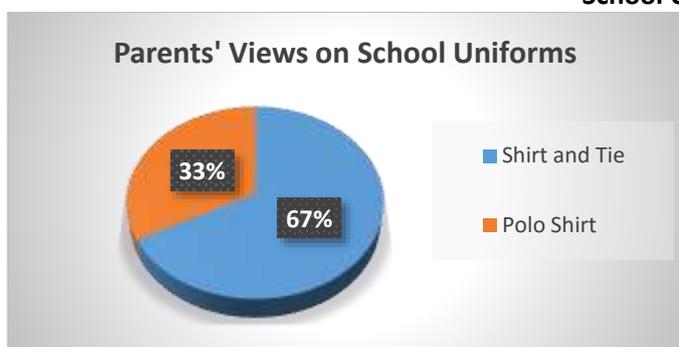

Thank you for taking the time to respond to the questionnaires. Below are the decisions linked to the information you provided.

School Trips

Judging by the individual amounts parents suggested was appropriate the P. 1 – 4 trips will be around £1 to £6 and the P. 5 - 7 trips will be around £ 5 - £ 8.

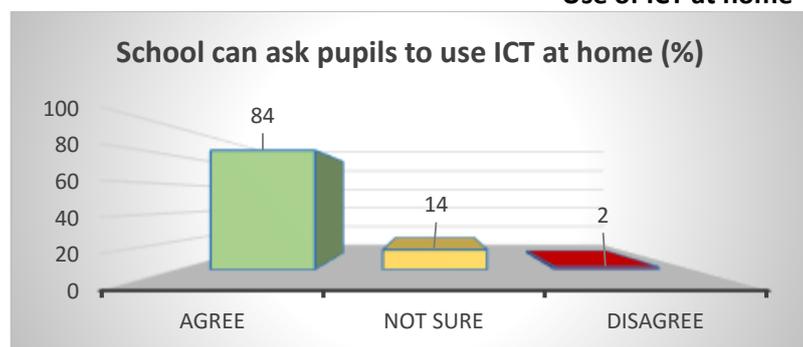

School Uniform

From September 2016, based on the majority of parents' views, the school uniform will now not change and will remain as it is. The rules on black shoes (or fully black trainers), black tights (or white socks), however, will be enforced. Girls may wear green check dresses in summer (95% of parents agreed).

From September 2016 all children will be required to wear white polo shirts and black track suit bottoms for P.E. linked to the expressed wishes of parents.

Use of ICT at home

Around 90% of children have access to computers or tablets at home.

Over 95% of children have fast internet access at home.

The school has increased its access to ICT in classrooms and has begun to use Lexia to improve literacy and ALTA to improve numeracy.

The school also intends to extend the use of online readers for children which will be piloted in the summer term and will be used from September 2016.

It is important that parents do not feel pressurised to purchase equipment. Where children need support we will arrange for the children to complete their work in school.
