## School Meals for Children in Years 3, 4, 5 and 6

Parentpay is now able to accept payment for your child's school meals for the next academic year. From Year 3 onwards school meals need to be paid for. You can login to Parentpay and you will see the school meals service where you can make these payments.

The meals cost £2.30 each day and there is a minimum top-up on parent pay of £11.50.

Most parents prefer to pay in advance so for the September/October half term the cost is £80.50 or the whole Autumn term is £156.40.

Money is only taken from the account when your child takes a meal.

The menu is available on the school website under documents.
